Moses Hess

Moses Hess The Holy History Of Mankind And Other Writings:

Moses Hess: The Holy History of Mankind and Other Writings Moses Hess, 2004-12-02 Moses Hess is a major figure in the development of both early communist and Zionist thought. The Holy History of Mankind appeared in 1837 and was the first book length socialist tract to appear in Germany representing an unusual synthesis of Judaism and Christianity that showed the considerable influence upon Hess of Spinoza, Herder and Hegel. In due course many of Hess's ideas would find their way into the work of Karl Marx and into subsequent socialist thought. The distinguished political scientist Shlomo Avineri provides the first full English translation of this text along with new renditions of Socialism and Communism: A Communist Credo and The Consequences of a Future Revolution of the Proletariat. All of the usual reader friendly series features are provided including a chronology, concise introduction and notes for further reading in a work of special relevance to students of politics, modern European history and the history of Zionism. The culmination of Eliezer Schweid's life work as a Jewish intellectual historian, this five volume work provides a comprehensive interdisciplinary account of the major thinkers and movements in modern Jewish thought in the context of general philosophy and Jewish social political historical developments with extensive primary source excerpts. Volume Three: The Crisis of Humanism commences with an important essay on the challenge to the humanist tradition posed in the late 19th century by historical materialism, existentialism and positivism. This is background for the constructive philosophies which sought at the same time to address the general crisis of moral value.

and provide a positive basis for Jewish existence Among the thinkers presented in this volume are Moses Hess Moritz Lazarus Hermann Cohen in impressive depth with a thorough exposition of the Ethics and Religion of Reason Ahad Ha Am I J Reines Simon Dubnow M Y Berdiczewski the theorists of the Bund Chaim Zhitlovsky Nachman Syrkin and Ber Borochov

Love, Death, and Revolution in Central Europe Peter C. Caldwell, 2009-06-22 The philosopher of religion and critic of idealism Ludwig Feuerbach had a far reaching impact on German radicalism around the time of the Revolution of 1848 This intellectual history explores how Feuerbach's critique of religion served as a rallying point for radicals and how they paradoxically sought to create a new post religious form of religiosity as part of the revolutionary aim At issue for the Feuerbachian radicals was the emergence of a humanity emancipated from the constraints of mere institutions able to express itself freely and harmoniously Caldwell also touches on Moses Hess Louise Dittmar and Richard Wagner in his discussion of the time This book reconstructs the nature of Feuerbach's radicalism and shows how it influenced early works of socialism feminism and musical modernism

The Essential Hayim Greenberg Hayim Greenberg, 2017-02-15 This landmark collection showcases the writings of Hayim Greenberg a founder of the Labor Zionist movement in America and a foremost writer thinker and activist in the fields of twentieth century Jewish culture and politics

Jewish Philosophical Politics in Germany, 1789-1848 Sven-Erik Rose, 2014-08-05 In this book Rose illuminates the extraordinary creativity of Jewish intellectuals as they reevaluated Judaism with the tools of a German philosophical tradition fast emerging as central to modern intellectual life While previous work emphasizes the subversive dimensions of German Jewish thought or the inner antisemitism of the German philosophical tradition Rose shows convincingly the tremendous resources German philosophy offered contemporary Jews for thinking about the place of Jews in the wider polity Offering a fundamental reevaluation of seminal figures and key texts Rose emphasizes the productive encounter between Jewish intellectuals and German philosophy He brings to light both the complexity and the ambivalence of reflecting on Jewish identity and politics from within a German tradition that invested tremendous faith in the political efficacy of philosophical thought itself

The Marx of Communism Alexandros Chrysis, 2022-06-30 Following Marx's own itinerary from Paris to London from politics to the critique of political economy *The Marx of Communism* delves into a creatively unfolding international debate on the democracy communism relation while supporting a 21st century communism as a social alternative to capitalism Taking into consideration Marx's analysis of communism both as a movement and a social formation this study focuses on the dialectics of transition from capitalism to communism Dealing with communism as the outcome of a long term cultural and political process the author defends Marxian communism as the open ended constitution of a self governed demos whose citizens create their own way of life on the ground of a stateless and classless society From this point of view the end of the state does not mean the end but the revival of politics in terms of a communist bios Reshaping their collective and personal values and setting limits to the production technology dynamics of their economy this book argues the citizens of a communist polis

form a promising antithesis to the private individuals of a capitalist society **Studies on the Abuse & Decline of Reason**

F.A. Hayek, 2024-05-31 *Studies on the Abuse and Decline of Reason* is a series of fascinating essays on the study of social phenomena. How to best and most accurately study social interactions has long been debated intensely and there are two main approaches: the positivists who ignore intent and belief and draw on methods based in the sciences and the nonpositivists who argue that opinions and ideas drive action and are central to understanding social behavior. F. A. Hayek's opposition to the positivists and their claims to scientific rigor and certainty in the study of human behavior is a running theme of this important book. Hayek argues that the vast number of elements whose interactions create social structures and institutions make it unlikely that social science can predict precise outcomes. Instead, he contends we should strive to simply understand the principles by which phenomena are produced. For Hayek, this modesty of aspirations went hand in hand with his concern over widespread enthusiasm for economic planning. As a result, these essays are relevant to ongoing debates within the social sciences and to discussion about the role government can and should play in the economy. **Joseph**

Opatoshu Sabine Koller, 2017-12-02 At the turn of the twentieth century East European Jews underwent a radical cultural transformation which turned a traditional religious community into a modern nation struggling to find its place in the world. An important figure in this Jewish Renaissance was the American Yiddish writer and activist Joseph Opatoshu, 1886-1954. Born into a Hassidic family, he spent his early childhood in a forest in Central Poland, was educated in Russia, and studied engineering in France and America. In New York, where he emigrated in 1907, he joined the revitalizing modernist group *Di Yunge* (The Young). His early novels painted a vivid picture of social turmoil and inner psychological conflict using modernist devices of multiple voices and mixed linguistic idioms. He acquired international fame by his historical novels about the Polish uprising of 1863 and the expulsion of Jews from Regensburg in 1519. Though he was translated into several languages, Yiddish writing always fostered his ideas and ideals of Jewish identity. Although he occupied a key position in the transnational Jewish culture during his lifetime, Opatoshu has until recently been neglected by scholars. This volume brings together literary specialists and historians working in Jewish and Slavic Studies who analyze Opatoshu's quest for modern Jewish identity from different perspectives. The contributors are: Shlomo Berger (Amsterdam), Marc Caplan (Baltimore, MD), Gennady Estrakh (New York), Roland Gruschka (Heidelberg), Ellie Kellman (Boston), Sabine Koller (Regensburg), Mikhail Krutikov (Ann Arbor, MI), Joshua Lambert (Amherst, MA), Harriet Murav (Urbana, Champaign, IL), Avrom Novershtern (Jerusalem), Dan Opatoshu (Los Angeles), Eugenia Prokop Janiec (Krakow), Jan Schwarz (Lund), Astrid Starck (Basel), Mulhouse, Karolina Szymaniak (Krakow), and Evita Wiecki (Munich).
