Osteonecrosis Etiology Diagnosis And Treatment:

Osteonecrosis American Orthopaedic Association,1997 Developed by the American Orthopaedic Association and published by AAOS This unique book addresses virtually every aspect of nontraumatic osteonecrosis Osteonecrosis documents cutting edge developments in diagnosis and treatment Its highly clinical focus helps physicians identify and treat this silent disease before major damage occurs It also enables surgeons to evaluate treatment alternatives such as core decompression osteotomy bone grafting and arthroplasty Important research into free vascularized grafting is detailed including methodology and results from studies carried out in medical centers in the U S Canada Greece and Italy The research covers more than 1 300 cases followed up for a minimum of two years The incidence of osteonecrosis is on the rise due largely to the increasing use of corticosteroids Other leading causes include excessive alcohol intake trauma blood dyscrasias hypercoagulability and dysbaria Most forms of the disease affect adults under the age of 50 Osteonecrosis brings together the research and discussion of more than 70 physicians and scientists from the U S and around the world Its articles were originally presented at an AOA workshop held at Duke University in November 1996

Osteonecrosis Kyung-Hoi Koo,Michael A. Mont,Quanjin Cui,Lynne C. Jones,2025-01-17 Osteonecrosis is a disease caused by reduced blood flow to bones in the joints including the hip knee shoulder and ankle The disease which is usually progressive and leads to joint failure occurs in young adults aged from their twenties to their fifties The pathogenesis of osteonecrosis is still unclear and treatment remains controversial This book provides up to date and comprehensive information on the pathophysiology etiology diagnosis classification and treatment of osteonecrosis The role of various imaging modalities is considered and both non surgical and surgical treatment approaches are clearly explained The contributions all from experts in the field are based on presentations at leading international meetings during the past 10 years and on peer reviewed papers The book will be of interest not only to clinical practitioners but also to those engaged in basic research
