Othello As Tragedy Jane Adamson,1980-10-30 Jane Adamson analyses Othello and assesses the title character's complex tragedy

Shakespeare Against War Robert White,2024-05-31 Whilst Shakespearean drama provides eloquent calls to war more often than not these are undercut or outweighed by compelling appeals to peaceful alternatives conveyed through narrative structure dramatic context and poetic utterance Placing Shakespeare's works in the history of pacifist thought Robert White argues that Shakespeare's plays consistently challenge appeals to heroism and revenge and reveal the brutal futility of war White also examines Shakespeare's interest in the mental states of military officers when their ingrained training is tested in love relationships In imagery and themes war infiltrates love with problematical consequences reflected in Shakespeare's comedies histories and tragedies alike Challenging a critical orthodoxy that military engagement in war is an inevitable and necessary condition White draws analogies with the experience of modern warfare showing the continuing relevance of Shakespeare's plays which deal with basic issues of war and peace that are still evident

Shakespeare: The Play of History G. Holderness,J. Turner,1987-01-01

Shakespeare's Soliloquies Wolfgang Clemen, 1987 Twenty seven soliloquies are examined in this work illustrating how the spectator or reader is led to the soliloquy and how the drama is continued afterwards **Dance of the Nomad** Ann McCulloch, 2010-11-01 The notebooks of A D Hope are a portrait of the contradictory essence of the poet's intellect and character Shot through with threads of self awareness and revelation Hope imbued his notebooks with irony and humour forming them as a celebration of the joy and terror of human existence Stripped of intimate revelation the entries give witness to Hope's view that art is a superior force in the creation of new being and values and a guide for the conduct of our lives Seeking to find pathways through the maze of an intellectual life this is a profound and timely contribution to Australia's literary scholarship Ann McCulloch's analysis of this thematic selection of Hope's notebooks reveals him to be relentless in his experimentation with ideas Revealing the originality of his thinking and the astonishing range of his reading and interests this edition is a testament to the intellect of one of Australia's towering literary figures Shakespeare Survey Stanley Wells, 2002-11-28 The first fifty volumes of this yearbook of Shakespeare studies are being reissued in paperback **British Book News**, 1981 **Shakespeare Against Apartheid** Martin Orkin, 1987 The Properties of Othello James L. Calderwood, 1989 James L Calderwood is surely among the liveliest and most insightful Shakespearean critics writing today In this book he offers an extended meditation on Othello employing the concept of property as a way of examining the play According to Calderwood property lines in Shakespeare's Venice divide women from men black from white outsiders from insiders barbaric Turks from civilized Christians land from money and monologue from dialogue Most of all these lines draw a magic circle around the idealized identity of the Moor Making use of theorists such as Bakhtin and Lacan Calderwood demonstrates Othello's semiotics of self as possessive self capitalizer of an inviolate I and marital capitalist who tags Desdemona with a personal mine that helps materialize and mirror his inner value Yet under the ministrations of Shakespeare and Iago property dissolves the boundaries it draws between inner and outer self and other owner and owned Chapters on barbarism and the evils of nobility the status of women the role of iterance in defining and destroying identities and the mediating metadramatics of Iago suggest how the commercial associations of property ownership investment exchange alienation not only inform the action of Othello but reveal its artistic properties as well Innocent Victims R.S. White, 1986-01-01 This is a revised version of the book which was privately published by the author in 1982 At the time the book was widely welcomed by Shakespearean scholars as a trenchant scholarly and highly original contribution to the field of Shakespearean studies The book's argument is that a full response to Shakespearean tragedy has to take account of the fate of the victims as well as of the tragic heroes and this thesis is illustrated and developed by a consideration of Lavinia Lucrece and the children in Richard III Macbeth and King John and to the three principal Shakespearean tragic victims Ophelia Desemona and Cordelia *Meridian*, 1982 Shakespearean Criticism, 1984 **Shakespeare Studies**, 1988
