Feminist Encounters with Legal Philosophy Maria Drakopoulou, 2013-12-17 Presenting feminist readings of texts from the legal philosophical and jurisprudential canon the papers collected here offer an interdisciplinary and critical challenge to established modes of reading law Feminist approaches to law usually take the

form of either critical engagements with legal doctrine legal concepts and ideas or critical assessments of the effects that specific areas of law have upon the lives of women This collection however although rooted in feminist legal scholarship takes the established canon of legal texts as the object of inquiry Taking as their common starting point the fact that legal texts are plural and open to multiple readings all the contributions in this collection offer subversive but supplementary interpretations of the legal canon In this respect however they do not merely sustain an array of feminist styles and theories of reading revealing and re appropriating the plural space of legal interpretation they seek to open a hitherto unexplored arena for a feminist politics of law **Feminist Encounters with Legal Philosophy** is a thoroughly researched interdisciplinary collection that will interest students and scholars of Law Philosophy and Feminism **Air and Darkness** David Drake, 2015-11-03 **Air and Darkness** an intriguing and fantastic adventure is both an independent novel and the gripping conclusion of the *Books of the Elements* a four volume set of fantasies set in Carce an analog of ancient Rome by David Drake Here the stakes are raised from the previous novels in an ultimate conflict between the forces of logic and reason and the forces of magic and the supernatural During the extraordinary time in which this story is set the supernatural is dominant The story is an immensely complex journey of adventure through real and magical places Corylus a soldier emerges as one of the most compelling heroic figures in contemporary fantasy Battling magicians spirits gods and forces from supernatural realities Corylus and his companions from the family of the nobleman Saxa especially Saxa s impressive wife Hedia and his friend and Saxa s son Varus must face constant deadly and soul destroying dangers climaxing in a final battle not between good and evil but in defense of logic and reality **Sanctuary** Dini N.
