Other Policy The Influence Of Policies On Technology Choice And Small Enterprise Development

Frances Stewart, Henk Thomas, Ton de Wilde

Other Policy The Influence Of Policies On Technology Choice And Small Enterprise Development:

Policies for Small Enterprises Gerhard Reinecke, Simon White, International Labour Office, 2004 Many governments in developing countries are making efforts to support the development of micro and small enterprises MSEs as they recognise their important role in employment creation and poverty reduction However millions of people who work in MSEs are paid low incomes have little or no social protection and are exposed to dangerous working conditions This paradox stems from a policy and regulatory environment that should help the development of MSEs and improve the quality of jobs provided by them but in practice often establishes biases and stifles growth Based on studies carried out in Chile Guinea Pakistan Peru South Africa Tanzania and Vietnam this book looks beyond MSE promotion initiatives to analyse the overall policy and regulatory environment It examines the impact of national business laws and taxation labour regulations trade and finance policies identifies common problems and presents major principles for reform More than simply helping to create more jobs this approach aims to help to create more jobs of better quality *A.I.D. Research and Development Abstracts*, 1992

Technology, Competitiveness and Radical Policy Change Jörg Meyer-Stamer, 2005-07-22 This volume investigates the limited effectiveness of technology policy in the inward oriented industrialization model of the past It looks at the political structures that compromise the transition to the development model and the restructuring effort within Brazilian industrial firms

Engineering Unesco, 2010-01-01 This report reviews engineering s importance to human economic social and cultural development and in addressing the UN Millennium Development Goals Engineering tends to be viewed as a national issue but engineering knowledge companies conferences and journals all demonstrate that it is as international as science The report reviews the role of engineering in development and covers issues including poverty reduction sustainable development climate change mitigation and adaptation It presents the various fields of engineering around the world and is intended to identify issues and challenges facing engineering promote better understanding of engineering and its role and highlight ways of making engineering more attractive to young people especially women Publisher s description *The Other Policy* Frances Stewart, Henk Thomas, Ton de Wilde, 1990 Foreign aid to developing countries often favours inappropriate technologies This book reviews the policies promoting appropriate technology and identifies positive programmes of action that could be instituted at a national level

Rule of Experts Timothy Mitchell, 2002-11-18 Can one explain the power of global capitalism without attributing to capital a logic and coherence it does not have Can one account for the powers of techno science in terms that do not merely reproduce its own understanding of the world Rule of Experts examines these questions through a series of interrelated essays focused on Egypt in the twentieth century These explore the way malaria sugar cane war and nationalism interacted to produce the techno politics of the modern Egyptian state the forms of debt discipline and violence that founded the institution of private property the methods of measurement circulation and exchange that produced the novel idea of a national economy yet made its accurate representation impossible the

stereotypes and plagiarisms that created the scholarly image of the Egyptian peasant and the interaction of social logics horticultural imperatives powers of desire and political forces that turned programs of economic reform in unanticipated directions Mitchell is a widely known political theorist and one of the most innovative writers on the Middle East He provides a rich examination of the forms of reason power and expertise that characterize contemporary politics Together these intellectually provocative essays will challenge a broad spectrum of readers to think harder more critically and more politically about history power and theory

Technology and Transition Abdelkader Djeflat, Girma Zawdie, 2014-01-14 The Maghreb countries had a promising start in economic growth after independence For the most part they thrived on industrialisation by import substitution but unfortunately this strategy left them with macroeconomic and structural imbalances which together have effectively constrained their ability to compete in the world economic system and to catch up with the rapidly changing global techno economic circumstances Issues relating to aspects of technology transfer to the Maghreb strategies for technological and resource development and the integration of education and R D systems with the productive systems of the economies in the region are discussed along with relevant cases from Mexico China South Korea India and Bangladesh

Report of the Director-General International Labour Organisation. African Regional Conference, International Labour Office, 1993

Trade and Development J. F. J. Toye, 2003-01-01 The essays are of high quality and full of interesting details which is not a surprise given the distinguished group of scholars that contributed this is an impressive collection of essays that adds significantly to the discussion of policies for developing countries in the context of globalization I would strongly recommend it to academics and students interested in development as well as policymakers in developing countries Ricardo A L pez Journal of International Development This book questions what enduring lessons have been learnt about the interdependence of international trade and economic development during the last 50 years Since the end of the Cold War and the advent of the WTO developing countries have been forced to face the choice of whether and to what extent to integrate economically with the rest of the world The key issue of international political economy is emphasized The authors argue that while integration through trade has become increasingly necessary for successful development it rapidly encounters a series of problems that remain to be resolved These range from increasing inequality and instability the vagaries of WTO rules persistent agricultural protection in developed countries through to inadequate finance and new waves of technological innovation Underlying all these concerns however is the deeper question of how much the developing countries can influence the setting of the rules of the international system Trade and Development examines all the major topics in the area of trade and development along with proposals for new directions for UNCTAD The book will be of great interest to academics researchers NGOs and policymakers involved in international and development economics

Development Research and

Development Aid Irene Nørlund,1992 **Globalization of Technology** Prasada Reddy,2009-08-25 Globalization of Technology is a component of Encyclopedia of Technology Information and Systems Management Resources in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias This book on Globalization of Technology provides the essential aspects and fundamentals of Issues in Technology Transfer and Technological Capability Building such as Techno Economic Paradigms and Latecomer Industrialization Knowledge Networks and the Internet Technology Transfer Vehicles Conditions Spillovers and Policy Challenges The Social Implications of Technological Development Industrialization and Innovation as a Collective Process This volume is aimed at the following five major target audiences University and College students Educators Professional practitioners Research personnel and Policy analysts managers and decision makers and NGOs *How Development Projects Persist* Erin Beck,2017-05-18 Erin Beck examines microfinance NGOs working with poor rural women in Guatemala to show how these women creatively and strategically use the NGOs to their own benefit in ways that do not necessarily match the goals of the NGOs demonstrating that development projects are often transformed and persist in unexpected ways **Local Economies in Turmoil** Arni Sverrisson,Meine Pieter Van Dijk,2000-07-14 The main theme is how local economic cultures and economic networks in the South and in Eastern Europe are put under strain by global deregulation and how traditional and not so traditional but locally rooted structures of economic life adjust to deregulation or fail to do so All the contributions written by different authors combine a flexible specialization in clusters approach with original empirical data An Introduction and a concluding chapter by the editors brings out the common issues and conclusions *Rural Livelihoods and Diversity in Developing Countries* Frank Ellis,2000-06-29 Rural families in developing countries make a living by engaging in diverse activities These range from farming to rural trade to migration to distant cities and even abroad This book explores the implications of rural livelihood diversity for key topics in development studies and for poverty reduction policies The livelihoods approach is gaining momentum and this is the first book to set it out in detail *Asian Informal Workers* Santosh K. Mehrotra,Mario Biggeri,2007-01-24 This thoroughly researched volume surveys the nature and extent of informal work in Asia which is a powerful and under studied force in the region After over half a century of development even in the fast growing economies of Asia the formal sector and industrial jobs have grown rather slowly and most non agricultural employment growth has occurred in the informal economy At the same time as this there has been a feminization of informal workers and growth in subcontracted homework Drawing on detailed case studies carried out in five Asian countries two low income India and Pakistan and three middle income Indonesia Thailand and the Philippines where subcontracted production usually by women and children working out of home is now widespread this insightful book acknowledges that home based work is the source of income diversification for poor families but is also the source of exploitation of vulnerable workers and child labour as firms attempt to contain costs This wide ranging and accessible survey edited by key specialists in this field along with an

impressive team of contributors examines the social protection needs of these workers arguing convincingly for public action to promote such work and protect these workers as a possible new labour intensive growth strategy in developing countries

Rural Nonfarm Employment Jean Olson Lanjouw, Peter Lanjouw, 1995 **Global Markets and the Developing Economy** V. FitzGerald, 2003-07-08 E V K FitzGerald takes a fresh approach to the macroeconomics of developing countries based on the influence of global markets on domestic savings private investment firm behaviours employment levels and income distribution He suggests that a Keynesian approach is still relevant today when reformulated to reflect open economies heterogeneous firms poverty reduction objectives and volatile financial markets The study concludes with clear recommendations as to how global capital markets might be reconstructed in order to better support economic development

Zimbabwe Hevina Smith Dashwood, 2000-01-01 Dashwood argues that it was the class interests of the ruling elite of Zimbabwe that explains the failure of the government to devise a coherent socially sensitive development strategy in conjunction with market based reforms
