The Other Side of Death J. Sidlow Baxter,1997-03-01 Baxter presents a study of heaven hell and life beyond death that addresses the contemporary confusion over universalism New Age spirituality and Eastern mysticism Death - What will we think about the ultimate truth of life..... siddhesh chindarkar , People have a wide range of beliefs and attitudes about death Some may view it as a natural part of life while others may fear it Many religious or spiritual beliefs involve an afterlife while others view death as the end of consciousness Some people may find comfort in knowing that death is a release from suffering while others may find solace in the idea of being reunited with loved ones who have passed away Grief and mourning are common reactions to the death of a loved one and people may also experience feelings of fear anxiety or uncertainty about their own mortality Ultimately people s thoughts and feelings about death are deeply personal and can be influenced by a variety of factors including culture religion and individual life experiences **The Other Side of Death**
