, 1876 Eugene Onegin Alexander Pushkin, 1998-09-10 Eugene Onegin is the master work of the poet whom Russians regard as the fountainhead of their literature Set in 1820s imperial Russia Pushkin's novel in verse follows the emotions and destiny of three men Onegin the bored fop Lensky the minor elegiac and a stylized Pushkin himself and the fates and affections of three women Tatyana the provincial beauty her sister Olga and Pushkin's mercurial Muse Engaging full of suspense and varied in tone it also portrays a large cast of other characters and offers the reader many literary philosophical and autobiographical digressions often in a highly satirical vein Eugene Onegin was Pushkin's own favourite work and it shows him attempting to transform himself from a romantic poet into a realistic novelist This new translation seeks to retain both the literal sense and the poetic music of the original and capture the poem's spontaneity and wit The introduction examines several ways of reading the novel and text is richly annotated ABOUT THE SERIES For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford's commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more **The American Booksellers Guide** , 1868 **The Beginnings of Critical Realism in America** Vernon Parrington, 2017-09-29 This final volume of Vernon Louis Parrington's Pulitzer Prize winning study deals with the decay of romantic optimism It shows that the cause of decay is attributed to three sources stratifying of economics under the pressure of centralization the rise of mechanistic science and the emergence of a spirit of skepticism which with teachings of the sciences and lessons of intellectuals has resulted in the questioning of democratic ideals Parrington presents the movement of liberalism from 1913 to 1917 and the reaction to it following World War I He notes that liberals announced that democratic hopes had not been fulfilled the Constitution was not a democratic instrument nor was it intended to be and while Americans had professed to create a democracy they had in fact created a plutocracy Industrialization of America under the leadership of the middle class and the rise of critical attitudes towards the ideals and handiwork of that class are examined in great detail Parrington's interpretation of the literature during this time focuses on four divisions of development the conquest of America by the middle class the challenge of that overlordship by democratic agrarianism the intellectual revolution brought about by science and the appropriation of science by the middle class and the rise of detached criticism by younger intellectuals A new introduction by Bruce Brown highlights Parrington's life and explains the importance of this

Consuming Knowledge: Studying Knowledge Use in Leisure and Work Activities Steven D. Silver, 2012-12-06 It is difficult to overstate the importance of personal consumption both to individual consumers and to the economy While consumers are recognized as valuing market goods and services for the activities they can construct from them in the frameworks of several disciplines consequences of the characteristics of goods and services they use in these activities have not been well studied In the discourse to follow I will contrast knowledge yielding and conventional goods and services as factors in the construction of activities that consumers engage in when they are not in the workplace Consumers will be seen as deciding on non work activities and the inputs to these activities according to their objectives and the values and cumulated skills they hold I will suggest that knowledge content in these activities can be efficient for consumer objectives and also have important externalities through its effect on productivity at work and economic growth The exposition will seek to elaborate these points and contribute to multi disciplinary dialogue on consumption It takes as its starting point the contention that consumption is simultaneously an economic and social psychological process and that integration of content can contribute to explanation
