Other Gospels:

The Other Gospels Bart D. Ehrman, Zlatko Pleše, 2014 Ehrman and Pleše present a rare compilation of over 40 ancient gospel texts and textual fragments that do not appear in the New Testament *The Other Gospels*, 2013-11-20 Bart Ehrman the New York Times bestselling author of *Misquoting Jesus* and a recognized authority on the early Christian Church and Zlatko Pleše a foremost authority on Christian Gnosticism here offer a valuable compilation of over 40 ancient gospel texts and textual fragments that do not appear in the New Testament This comprehensive collection contains Gospels describing Jesus's infancy ministry Passion and resurrection and includes the controversial manuscript discoveries of modern times such as the Gospel of Thomas and the most recent Gospel to be discovered the Gospel of Judas Iscariot Each translation begins with a thoughtful examination of important historical literary and textual issues in order to place the Gospel in its proper context This volume is an invaluable resource for anyone interested in early Christianity and the deeper meanings of these apocryphal Gospels

Dictionary of Jesus and the Gospels Joel B. Green, Scot McKnight, I. Howard Marshall, 1992-02-18 Edited by Joel B Green Scot McKnight and I Howard Marshall this reference work encompasses everything relating to Jesus and the Gospels

Four Other Gospels John Dominic Crossan, 2008-03-01 The four canonical gospels are long set in established sequence as Matthew Mark Luke and John This book is about four other gospels the Gospel of Thomas the Secret Gospel of Mark the Gospel of Peter and Egerton Papyrus 2 These four other gospels have generally been regarded as mere digests or collages of the canonical gospels whereas in fact as Professor Crossan persuasively shows the four others hold within their mutilated fragments independent or earlier traditions than those tradition has canonized Four Other Gospels proposes a spectrum of relations between the canonical gospels and these others This spectrum ranges from the Gospel of Thomas which is a parallel and independent tradition to Egerton Papyrus 2 on which both John and Mark are dependent to the Secret Gospel of Mark on which Mark directly and John indirectly are dependent and on to the Gospel of Peter which contains an original Passion Resurrection source used by all four of the canonical gospels but which submitted to their eventual ascendancy by attempting a harmonization between it and them and placed the new complex under the authority and authorship of Simon Peter Four Other Gospels does not propose a new or alternative canon The canon is a fact both of history and of theology But the thesis of this book is that anyone who takes the four other gospels seriously and thoughtfully will never again be able to read the four canonical gospels in quite the same way A new light has been shed

The Other Gospels Ron Cameron, 1982-01-01 This new anthology of gospel literature contains texts that are not part of the New Testament but are of great importance for the study of Christian origins Some of these apocryphal gospels are from the Nag Hammadi library made available only recently The sixteen texts constitute what remains of the non canonical gospels from the first and second centuries They transmit saying of Jesus and relate stories about Jesus

How Many Gospels? Moreno Dal Bello, 2015-08-12 How many Gospels Just how many gospels are there that a person can believe safely place their trust in and

rightly consider themselves saved of God Five Ten Twenty Or perhaps hundreds Just how many gospels are there that God will lead a person to believe ie grant the gift of faith to believe How many gospels are there to which God signs His name and calls My power unto salvation These are questions that strike right at the heart of the whole issue of doctrine of what the true Gospel is and who it is that can rightly judge themselves saved It is important to realise at the outset that what a person believes about Jesus provides an immediate indication of which Jesus they believe in and therefore which gospel they hold to

The Many Gospels of Jesus Philip Wesley Comfort, Jason Driesbach, 2008-03-16 In the wake of The DaVinci Code and the recent discovery of The Gospel of Judas there has been an increased interest in the ancient books commonly known as the Gnostic Gospels This volume compares the Gnostic Gospels with the four gospels in the Bible *The Apocryphal Gospels* Simon Gathercole, 2021-04-22 A new translation of the oldest non canonical Christian gospels In the early years of Christianity several groups produced hidden or apocryphal gospels alternative versions of the story of Christ Sometimes these texts complemented the four canonical gospels of the New Testament sometimes they subverted them and often they were completely different Here in the widest selection of non canonical gospels gathered in one volume which also includes two modern forgeries we see the young Jesus making live birds from clay hear his secret words of wisdom discover gnostic cosmologies and witness the Harrowing of Hell Preserved by their readers and attacked by their detractors these gospels shine a fascinating light on the early Christian Church Translated with an Introduction by Simon Gathercole *The Apocryphal Gospels* Bart Ehrman, Zlatko Pleše, 2011-07-21 Bart Ehrman the New York Times bestselling author of *Misquoting Jesus* and a recognized authority on the early Christian Church and Zlatko Pleše here offer a groundbreaking multi lingual edition of the Apocryphal Gospels one that breathes new life into the non canonical texts that were once nearly lost to history In *The Apocryphal Gospels* Ehrman and Pleše present a rare compilation of over 40 ancient gospel texts and textual fragments that do not appear in the New Testament This essential collection contains Gospels describing Jesus's infancy ministry Passion and resurrection as well as the most controversial manuscript discoveries of modern times including the most significant Gospel discovered in the 20th century the Gospel of Thomas and the most recently discovered Gospel the Gospel of Judas Iscariot For the first time ever these sacred manuscripts are featured in the original Greek Latin and Coptic languages accompanied by fresh English translations that appear next to the original texts allowing for easy line by line comparison Also each translation begins with a thoughtful examination of key historical literary and textual issues that places each Gospel in its proper context The end result is a resource that enables anyone interested in Christianity or the early Church to understand better than ever before the deeper meanings of these apocryphal Gospels *The Apocryphal Gospels* is much more than an annotated guide to the Gospels Through its authoritative use of both native text and engaging accurate translations it provides an unprecedented look at early Christianity and the New Testament This is an indispensable volume for any reader interested in church history antiquity ancient languages or the Christian faith **Connecting Gospels**

Francis Watson, Sarah Parkhouse, 2018 This collection argues that scholarship should focus on the entire field of early Christian gospel literature rather than limiting attention to the canonical four Each contributor thematically compares canonical and non canonical gospels *Gospels before the Book* Matthew Larsen, 2018-07-02 What does it look like to read the texts we now call the gospels like first and second century readers There is no evidence of anyone regarding the gospel as a book published by an author until the end of the second century So put differently what does it mean to read the gospels before the book For centuries the ways people discuss the gospels have been shaped by later ideas that have more to do with the printing press and modern notions of the author than ancient writing and reading practices In *Gospels before the Book* Matthew D C Larsen challenges several subtle yet problematic assumptions about authors books and publication at work in early Christian studies He then explores a host of under appreciated elements of ancient textual culture such as unfinished texts accidental publication post publication revision and the existence of multiple authorized versions of the same work Turning to the gospels he argues that the earliest readers and users of the text we now call the Gospel according to Mark treated it not as a book published by an author but as an unfinished open and fluid collection of notes hypomnēmata In such a scenario the Gospel according to Matthew would not be regarded as a separate book published by a different author but as a continuation of the same unfinished gospel tradition Similarly it is not the case that of the five different endings in the textual tradition we now call the Gospel according to Mark one is right and the others are wrong Rather each represents its own effort to fill a perceived deficiency in the gospel Larsen offers a new methodological framework for future scholarship on early Christian gospels *The four gospels, and Acts of the Apostles*, 1867 **The Gospel of the Lord** Michael F. Bird, 2014-08-22 In this book through a distinctive evangelical and critical approach Michael Bird explores the historical development of the four canonical Gospels He shows how the memories and faith of the earliest believers formed the Gospel accounts of Jesus that got written and in turn how these accounts further shaped the early church Bird's study clarifies the often confusing debates over the origins of the canonical Gospels Bird navigates recent concerns and research as he builds an informed case for how the early Christ followers wrote and spread the story of Jesus the story by which they believed they were called to live The Gospel of the Lord is ideal for students or anyone who wants to know the story behind the four Gospels Watch an interview with Michael Bird from our Eerdmans Author Interview Series [Fortress Introduction to the Gospels](#) Mark Allan Powell, 1998 This book is designed to provide essential information in a convenient format for anyone beginning the historical study of the Christian Gospels With clarity and verve Mark Allan Powell describes the contents and structure of the Gospels their distinctive characteristics and their major themes An introductory chapter surveys the political religious and social world of the Gospels methods of approaching early Christian texts the genre of the Gospels and the religious character of these writings Included also are comments on the Gospels that are not found in the New Testament Special features map illustrations and more than two dozen special topics provide information that is important for the
