Cadegan, 2013-09-15 Until the close of the Second Vatican Council in 1965 the stance of the Roman Catholic Church toward the social cultural economic and political developments of the twentieth century was largely antagonistic Naturally opposed to secularization skeptical of capitalist markets indifferent to questions of justice confused and appalled by new forms of high and low culture and resistant to the social and economic freedom of women in all of these ways the Catholic Church set itself up as a thoroughly anti modern institution Yet in and through the period from World War I to Vatican II the Church did engage with react to and even accommodate various aspects of modernity In *All Good Books Are Catholic Books* Una M

Cadegan shows how the Church's official position on literary culture developed over this crucial period. The Catholic Church in the United States maintained an Index of Prohibited Books and the National Legion of Decency founded in 1933 lobbied Hollywood to edit or ban movies, pulp magazines and comic books that were morally suspect. These regulations posed an obstacle for the self-understanding of Catholic American readers, writers and scholars. But as Cadegan finds, Catholics developed a rationale by which they could both respect the laws of the Church as it sought to protect the integrity of doctrine and also engage the culture of artistic and commercial freedom in which they operated as Americans. Catholic literary figures including Flannery O'Connor and Thomas Merton are important to Cadegan's argument, particularly as their careers and the reception of their work demonstrate shifts in the relationship between Catholicism and literary culture. Cadegan trains her attention on American critics, editors and university professors and administrators who mediated the relationship among the Church, parishioners and the culture at large.

Dangerous Spaces D. Marvin Jones, 2016-10-24 An eye-opening unapologetic explanation of what racial profiling is in modern-day America: systematic targeting of communities and placing of suspicion on populations on the basis of not only ethnicity but also certain places that are linked to the social identity of that group. In 21st-century post-civil rights era America, race has become complex and intersectional. It is no longer simply a matter of color: black versus white contends author D. Marvin Jones but equally a matter of space or geographies of fear which he defines as spaces in which different groups are particularly vulnerable to stereotyping by law enforcement: blacks in the urban ghetto, Mexicans at the functional equivalent of the border, Arabs at the airport. *Dangerous Spaces: Beyond the Racial Profile* demonstrates how society has constructed a set of threat narratives in which certain widespread problems: immigration, drugs, gangs and terrorism, for example, have been racialized and explains the historical and social origins of these racializing threat narratives. The book identifies how these narratives have led directly to relentless profiling that results in arrest, deportation, massive surveillance or even death for members of suspect populations. Readers will come to understand how the problem of profiling is not merely a problem of institutional bias and individual decision-making but also a deeply rooted cultural issue stemming from the processes of meaning-making and identity construction.
