Our Family Portrait:

Leaving Home Herbert Anderson, Kenneth R. Mitchell, 1993-01-01 The authors demonstrate that leaving home is a significant part of forming an individual identity and a natural aspect of maturing. It is also a lifelong process but one that is desirable and appropriate for both the one who leaves and the ones left behind. However, understanding the process requires care, and this book helps clarify what is at stake in the complex ordinary process of leaving home.

Graphic Embodiments Lisa DeTora, Jodi Cressman, 2021-03-08 Comics and other graphic narratives powerfully represent embodied experiences that are difficult to express in language. A group of authors from various countries and disciplines explore the unique capacity of graphic narratives to represent human embodiment as well as the relation of human bodies to the worlds they inhabit. Using works from illustrated scientific texts to contemporary comics across national traditions, we discover how the graphic narrative can shed new light on everyday experiences. Essays examine topics that are easily recognized as anchored in the body as well as experiences like migration and concepts like environmental degradation and compassion that emanate from or impact on our embodied states. *Graphic Embodiments* is of interest to scholars and students across various interdisciplinary fields including comics studies, gender and sexuality studies, visual and cultural studies, disability studies, and health and medical humanities.

Mahanay Brothers Carole Mahanay, 2017-07-19 A farm family in Texas sent all six of its sons into military service between December 7, 1941, and November 22, 1963. Its only son-in-law also served. This is not a narrative about men who battled on foreign soil. Some never left the American continent, none ever fired a shot at the enemy. But these seven steadfastly served their nation between those two dates of infamy. Thus, their stories are of no less importance than those of men who fought overseas. Their stories tell of adventure, a mother's broken heart, a father's sadness, and the loneliness of brides left behind.

Servants of Globalization Rhacel Parreñas, 2015-08-26 *Servants of Globalization* offers a groundbreaking study of migrant Filipino domestic workers who leave their own families behind to do the caretaking work of the global economy. Since its initial publication, the book has informed countless students and scholars and set the research agenda on labor migration and transnational families. With this second edition, Rhacel Salazar Parreñas returns to Rome and Los Angeles to consider how the migrant communities have changed. Children have now joined their parents. Male domestic workers are present in significantly greater numbers. And perhaps most troubling, the population has aged, presenting new challenges for the increasingly elderly domestic workers. New chapters discuss these three increasingly important constituencies. The entire book has been revised and updated, and a new introduction offers a global comparative overview of the citizenship status of migrant domestic workers. *Servants of Globalization* remains the defining work on the international division of reproductive labor.
