Our Generation:

Managing Human Resources for the Millennial Generation William I. Sauser, Ronald R. Sims, 2013-02-01 The purpose of this book is to explore the talents work styles attitudes and issues that members of the Millennial generation are bringing with them as they enter the workforce The Millennial generation is a roughly 20 year cohort of young people whose leading edge members were born in 1982 and graduated high school in 2000 These are the young adults who began entering college the military and the workplace during the present decade and who will continue to do so for perhaps another decade more The Millennial generation has been exposed during their formative years to a unique variety of historical cultural economic and technological changes that have shaped their particular attitudes and values preferred social interaction styles beliefs about what is proper in the workplace and personal concerns and desires Millennials are bringing their unique perspectives into their places of employment where at times they clash with those of the older generations who are already established there

Not What You Think Michael McAfee, Lauren Green McAfee, 2019-06-11 Not What You Think blows the dust off dated misperceptions of the Bible and engages the problems of this book head on the parts that make modern readers squeamish skeptical and uncertain If you re skeptical about the Bible you re not alone The Bible is seen by many contemporary readers as intolerant outdated out of step with societal norms at best and a tool of oppression at worst In this earnest and illuminating read millennial thought leaders and aspiring theologians Michael and Lauren McAfee are here to say fair enough But they re also here to raise a few questions of their own What if we cleared the deck on our preconceptions of the Bible and encountered it anew What if we came with the understanding that our questions are welcome And what if the Bible presents less of a system to figure out and more of a story to step into a story with more surprising plot twists than we might think Michael and Lauren spent their childhoods in church and Sunday school they spent part of their twenties finding their way in the world in New York City and today they re shaping their careers while pursuing doctoral studies in theology and ethics Along the way they ve had to wrangle very real questions both their own and of their friends about why where and how the most controversial book in history fits in our world today Join Michael and Lauren as they explore the nature of the Bible an ancient mosaic of story literature history and poetry and what it means for this generation and its relationship with God Ultimately Not What You Think is an invitation to come and see and be surprised

Yesterday's Reflections Albert F. Schmid, 2013-02-22 In *Yesterday's Reflections* author Albert F. Schmid invites us to consider the various holidays that are celebrated throughout the year He provides interesting facts about each holiday and includes the religious origins of them where relevant because many of our holidays have a religious connection He also explains important points about the holidays such as why Easter is always on a Sunday and why Thanksgiving is always on the fourth Thursday in November In addition he includes devotionals on topics ranging from Contentment to God Is Where Love Is Each devotional includes the pertinent Scriptures a story to illustrate the point being made and Schmid's comments For example *The Rear View Mirror* tells the story of Grace who remembers her father's advice for driving in the snow find a

snow plow and follow it When she encounters a blizzard she does this an hour later the driver stops to make certain she is all right as he had plowed a large parking lot was moving on to the next business and was concerned when he noticed that she was following him We often become comfortable thinking that we can just follow the snow plow when in truth we need to learn to trust God and let Him lead the way Yesterdays Reflections is an inspiring collection that reminds us that we are Christs ambassadors and that God expects each of us to live and act as though He is making His appeal through us The best sermons are not preached they are lived *Just Caring* Leonard M. Fleck,2009 What does it mean to be a just and caring society when we have only limited resources to meet unlimited health care needs Do we believe that all lives are of equal value Is human life priceless Should a just and caring society refuse to put limits on health care spending In *Just Caring* Leonard Fleck reflects on the central moral and political challenges of health reform today He cites the millions of Americans who go without health insurance thousands of whom die prematurely unable to afford the health care needed to save their lives Fleck considers these deaths as contrary to our deepest social values and makes a case for the necessity of health care rationing decisions The core argument of this book is that no one has a moral right to impose rationing decisions on others if they are unwilling to impose those same rationing decisions on themselves in the same medical circumstances Fleck argues we can make health care rationing fair in ways that are mutually respectful if we engage in honest rational democratic deliberation Such civic engagement is rare in our society but the alternative is endless destructive social controversy that is neither just nor caring

Washington State Wilderness Act of 1983 United States. Congress. Senate. Committee on Energy and Natural Resources. Ofgem's retail market review Great Britain: Parliament: House of Commons: Energy and Climate Change Committee,2011-07-25 The Energy and Climate Change Committee believes that energy companies found to have mis sold electricity and gas deals should pay compensation to consumers The Committee is concerned that customers may be pressured into switching supplier on the door step without proper consideration of the options when confronted with a vast array of complex tariffs and a hard sell Figures from Ofgem suggest that up to 40% of consumers who switch do not end up with a better deal The report also raises concerns about the propensity for energy

prices to rise like a rocket and fall like a feather the growing complexity of tariffs and the market dominance of the Big Six vertically integrated energy companies The MPs single out recent price increases from ScottishPower for particular criticism Customers who use the least energy will be hit the hardest from August when the increases are put into effect providing an apparent incentive for higher consumption when energy companies are now supposed to be helping consumers become energy efficient Electricity and gas tariffs are now so complex that even the Energy Minister admitted he got confused when trying to switch The Committee is worried that a lot of people are simply bamboozled by their bills and the vast array of different tariffs on offer The industry should address these problems immediately without waiting for Ofgem or the Government to act
