William McDonald Victoria's Minister of Lands announced a rural settlement scheme for the Little Desert in Victoria's far north west. The conservation campaign that ensued was one of unprecedented vehemence and sophistication. It cost McDonald his parliamentary seat and consigned the Little Desert Settlement Scheme to oblivion. The Little Desert dispute was a watershed in Australian environmental politics. Suburban activists, scientists, amateur naturalists, economists, and bureaucrats banded together to oppose McDonald's ill-conceived scheme. It marked the beginning of a new consciousness of nature and the concept of biological diversity was voiced in the halls of parliament for the first time. In *Defending the Little Desert*, Libby Robin offers a sensitive account of the unlikely coalition of forces that assembled to save the Little Desert. This beautifully written account of the campaign perhaps the earliest expression of ecological consciousness in Australia will be read by all Australians interested in conservation and the environment in participatory political processes and in public science.

**Combat and Morale in the North African Campaign** Jonathan Fennell, 2011-02-17 Military professionals and theorists have long understood the relevance of morale in war. Montgomery the victor at El Alamein said following the battle that the more fighting I see the more I am convinced that the big thing in war is morale. Jonathan Fennell, in examining the North African campaign through the lens of morale, challenges conventional explanations for Allied success in one of the most important and controversial campaigns in British and Commonwealth history. He introduces new sources, notably censorship summaries of soldiers' mail and an innovative methodology that assesses troop morale not only on the evidence of personal observations and official reports but also on contemporaneously recorded rates of psychological breakdown, sickness, desertion, and surrender. He shows for the first time that a major morale crisis and stunning recovery decisively affected Eighth Army's performance during the critical battles on the Gazala and El Alamein lines in 1942.

*Bibliography of the History of Medicine*, Fighting the People's War Jonathan Fennell, 2019-01-24 Fighting the People's War is an unprecedented panoramic history of the citizen armies of the United Kingdom, Australia, Canada, India, New Zealand, and South Africa, the core of the British and Commonwealth armies in the Second World War. Drawing on new sources to reveal the true wartime experience of the ordinary rank and file, Jonathan Fennell fundamentally challenges our understanding of the War and of the relationship between conflict and socio-political change. He uncovers how fractures on the home front had profound implications for the performance of the British and Commonwealth armies, and he traces how soldiers' political beliefs, many of which emerged as a consequence of their combat experience, proved instrumental to the socio-political changes of the postwar era. Fighting the People's War transforms our understanding of how the great battles were won and lost, as well as how the postwar societies were forged.
