through inconceivable resurgences of this enduring all American species Jack E Davis contrasts the age when native peoples lived beside it peacefully with that when others whether through hunting bounties or DDT pesticides twice pushed *Haliaeetus leucocephalus* to the brink of extinction Filled with spectacular stories of Founding Fathers rapacious hunters heroic bird rescuers and the lives of bald eagles themselves monogamous creatures considered among the animal world s finest parents The Bald Eagle is a much awaited cultural and natural history that demonstrates how this bird s wondrous journey may provide inspiration today as we grapple with environmental peril on a larger scale **Department of State Publication**
