Our Common Dwelling:

Our Common Dwelling Lance Newman, 2005-05-12 OurCommonDwelling explores why America's first literary circle turned to nature in the 1830s and 40s. When the New England Transcendentalists spiritualized nature, they were reacting to intense class conflict in the region's industrializing cities. Their goal was to find a secular foundation for their social authority as an intellectual elite. New England Transcendentalism engages with works by William Wordsworth, Henry David Thoreau, Ralph Waldo Emerson, Margaret Fuller, Nathaniel Hawthorne, and others. The works of these great authors, interpreted in historical context, show that both environmental exploitation and conscious love of nature co-evolved as part of the historical development of American capitalism. **American Houses: Literary Spaces of Resistance and Desire**, 2022-08-15

Already in 1854, Henry David Thoreau had declared in *Walden* that "Most men appear never to have considered what a house is." Like Thoreau, many other renowned American writers have considered what houses are and particularly what houses do, and they have created fictional dwellings that function not only as settings but as actual central characters in their works. The volume is specifically concerned with the structure, the organization, and the objects inside houses and argues that the space defined by rooms and their contents influences the consciousness, the imaginations, and the experiences of the humans who inhabit them. Winner of the Spanish Association for American Studies Javier Coy Award 2022 for best edited volume. Contributors are Cristina Alsina, R. Squez, Rodrigo Andr s, Vicent Cucarella, Ramon Arturo Corujo, Mar Gallego, Ian Green, Michael Jonik, Wyn Kelley, Cynthia Lytle, Carme Manuel, Paula Mart n, Salv n, Elena Ortells, Eva Puyuelo, Ure, a Dolores Resano, and Cynthia Stretch. Thoreauvian Modernities Fran ois Specq, Laura Dassow Walls, Michel Granger, 2013-02-01. Does Thoreau belong to the past or to the future? Instead of canonizing him as a celebrant of pure nature apart from the corruption of civilization, the essays in *Thoreauvian Modernities* reveal edgier facets of his work: how Thoreau is able to unsettle as well as inspire, and how he is able to focus on both the timeless and the timely. Contributors from the United States and Europe explore Thoreau's modernity and give a much needed reassessment of his work in a global context. The first of three sections, *Thoreau and Non-Modernity*, views Thoreau as a social thinker who set himself against the modern currents of his day, even while contributing to the emergence of a new era. By questioning the place of humans in the social, economic, natural, and metaphysical order, he ushered in a rethinking of humanity's role in the natural world that nurtured the environmental movement. The second section, *Thoreau and Philosophy*, examines Thoreau's writings in light of the philosophy of his time as well as current philosophical debates. Section three, *Thoreau, Language, and the Wild*, centers on his relationship to wild nature in its philosophical, scientific, linguistic, and literary dimensions. Together, these sixteen essays reveal Thoreau's relevance to a number of fields, including science, philosophy, aesthetics, environmental ethics, political science, and animal studies. *Thoreauvian Modernities* posits that it is the germinating power of Thoreau's thought, the challenge it poses to our own thinking, and its capacity to address pressing issues in a new way that defines his enduring relevance and his modernity.

political views and his book *The Meaning of Conservatism* was a response to the growth of liberalism in the Conservative party. At all times he is concerned to shift the right way from economics towards moral issues such as sex education and censorship laws. Poetic Environmental Activism and Education Amanda Fulford, Victoria Jamieson, 2025-03-25 This book brings together the works of the nineteenth and twentieth century writers Henry David Thoreau and Anna Shepherd. Finding in their work a common approach of poetic forms of writing that enact kinds of environmental activism, the book repositions them in the context of current environmental crises by offering an original resource for supporting poetic environmental activism in educational contexts. Bringing together scholarship from North America and Europe, the book draws on Thoreau and Shepherd's literary and philosophical sources to support a conceptual understanding of education's role in how we think about, understand, and tackle the climate crisis. Chapters trace the idea of poetic environmental activism in Thoreau and Shepherd, applying literary and environmental thought to educational practice and contexts. The book is timely in taking a scholarly approach that explores educational engagements with climate change and focuses on education for environmental sustainability. Advocating for engagement with the climate emergency through the lens of poetic environmental activism, this volume will appeal to postgraduate students, researchers, and scholars involved with sustainability education, philosophy of education, poetic inquiry, and literary theory for environmental action.

Rhetorics, Literacies, and Narratives of Sustainability Peter N. Goggin, 2011-02-23 Touching on topics including conservation efforts in specific locales, social and political constructions of rhetorical place and space, town planning and zoning issues, and rhetorics of environmental remediation and sustainability, this collection provides rhetoricians and environmentalists a window into the discourse on sustainability.

Tracking Thoreau John Dolis, 2005 Arguing against the most recent trend in Thoreau studies, Dolis contends that for Thoreau, nature is primordially a construct; it cannot be understood apart from language through cultural constructions, techniques by means of which the subject composes the object. Both nature and the very nature of nature itself are subject to this single configuration. Subjectivity in turn entails its own technology, its style. It figures out both nature and the composition of its self as well.

Forming Communities of Hope in the Great Unraveling Alan J. Roxburgh, Roy Searle, 2025-05-08 In the midst of a massive unraveling where the churches find themselves disoriented and paralyzed, this book invites leaders to embrace three practices formed out of God's engagements with God's people in Scripture and our traditions that direct us toward forming communities of hope.
