Compendium Peter Ellyard,2023-03-03 THRIVING IN THE 21ST CENTURY Humans have a unique capability to both understand their situation in the world and to envision and act to realise their aspirations in the emerging world And most of us would welcome knowing how we can become ever more skilful at both understanding and shaping the future of our emerging world so that we can thrive in it The 21st century is very different from the 20th century Globalisation the greatest economic prosperity uplifting machine humanity has ever invented and mass education are combining to sweep humanity into an emerging interdependent global village It is creating a global educated middle class that will number 5 billion in 2030 In this emerging world a world where our future prosperity will be increasingly based on metaphysical wealth on what we know 20th century nation first competitive win lose mindsets and agendas can no longer work These now yesteryear mindsets will instead undermine our best endeavours including making our future ever more climate and pandemic safe Humanity is now beginning to learn that it now has no option but to adopt planet first collaborative win win values and mindsets if it wishes to shape our emerging global village so that it can become liveable for all ever more prosperous harmonious inclusive sustainable healthy and secure Meeting these challenges successfully will require that humanity innovates for itself a new future knowledge curriculum so that it can economically thrive in a sustainable and humane manner Peter Ellyard has asked the question what would be the contents of such a curriculum In The Future Knowledge Compendium A Curriculum for Thriving in the 21st Century he has sought to answer this question **Future Publics**

Michael K. MacKenzie,2021-06-11 Scholars have often claimed that democracies whatever their virtues are functionally short sighted The evidence is clear we have been unable to manage many long term issues including climate change nuclear waste disposal natural disaster preparedness infrastructure maintenance and budget deficits If voters and influential actors such as interest groups and corporations have dominant short term interests it may be difficult for elected politicians to act in the long term interests of society even if they think that it would be the right thing to do To solve long term problems do we need

political systems that are less democratic or even authoritarian This idea which Michael K MacKenzie calls the democratic myopia thesis is a sort of conventional wisdom it is an idea that scholars and pundits take for granted as a truth about democracy without subjecting it to adequate critical scrutiny In Future Publics MacKenzie challenges this conventional wisdom and articulates a deliberative democratic theory of future regarding collective action Specifically MacKenzie argues that each part of the democratic myopia problem can be addressed through democratic rather than authoritarian means At a more fundamental level once we recognize that democratic practices are world making activities that empower us to make our shared worlds together they should also be understood as future making activities Despite the short term dynamics associated with electoral democracy MacKenzie asserts that we need more inclusive and deliberative democracies if we are going to make shared futures that will work for us all

Building Your Life on the principles of God: The Solid foundation Anthony Bright Atwam,2014 Lord please continue to have mercy on humanity You have made provisions for everything we need in this world and the world to come Yet many people although desire good life are suffering some are confused others are desperate families are broken down our nation is struggling to cope many people are lost in spiritual matters and sin In this book the author's main argument is that God in his unfailing love for humanity has already provided what people are frantically seeking in life What people need to do is to turn

to the Holy Scriptures for guidance This book can be of such help You see when life is calm our foundations don t seem to matter But when crisis come our foundations are tested In this book the author also argues that it is a waste of time and effort for people to build their lives on a faulty foundation Jesus describes God s principles as a solid foundation for people to build their lives on We are strangers in this world therefore we need someone who knows the journey of life to guide us God is the creator of this world and He alone knows the in and out of this world His principles provide guidance for a perfect life The attempts by some groups of people to suppress the knowledge of God in the society have not been very helpful in many ways although they could not succeed For example these people could not provide the society with any viable alternative guiding principles on how people should live their lives This has led many people to turn to wrong sources for guidance sometimes with very little success or no success at all leading to a life of despair hopelessness and failure Because of this suppression of God s word there seems to be famine in our society famine of truth famine of the word of God There is also darkness in our society many people are confused and some do not know what to do with their lives But the word of God is light its gives understanding it gives hope it provides guidance on spiritual matters the salvation of the human soul and solutions to all our problems Sometimes life is easier and beautiful if you know what to do in any situation you find yourself Many people desire a good family life peace joy hope self discipline strength encouragement a connection with a higher being that transcends human existence and meaning to life in their spiritual quest As you read this book know that I am praying for you for all these blessings in Jesus name amen Anthony Bright Atwam According to scripture the church is the salt and the light of this world But the church seems to have locked the resources God has given her to be given to the world in the room and has put the keys in her pocket while the world is suffering One of the things the church needs to do is to start to unpack and release the resources God has given her to meet the needs of postmodern spiritual quest Anthony Bright Atwam
