McAdams, 2006 *Undocumented Migration as a Theologizing Experience* Eunil David Cho, 2024-09-02 In *Undocumented Migration as a Theologizing Experience* Eunil David Cho examines how Korean American undocumented young adults tell religious stories to cope with the violence of uncertainty and construct new meanings for themselves Based on in depth interviews guided by narrative inquiry the book follows the stories of ten Korean American DACA Deferred Action for Childhood Arrivals recipients who have found their lives in limbo While many experience narrative foreclosure believing My story is over Cho highlights how telling religious stories enables them to imagine and create new stories for themselves not as shunned outsiders but as beloved children of God Narrative □ State of the Art Michael Bamberg, 2007-03-14 *Narrative State of the Art* which was originally published as a Special Issue of *Narrative Inquiry* 16 1 2006 is edited by Michael Bamberg and contains 24 chapters with a brief introduction by the editor that look back and take stock of developments in narrative theorizing and empirical work with narratives The attempt has been made to bring together researchers from different disciplines with very different concerns and have them express their conceptions of the current state of the art from their perspectives Looking back and taking stock this volume further attempts to begin to deliver answers to the questions i What was it that made the original turn to narrative so successful ii What has been accomplished over the last 40 years of narrative inquiry iii What are the future directions for narrative inquiry The contributions to this volume are deliberately kept short so that the readers can browse through them and get a feel about the diversity of current narrative theorizing and emerging new trends in narrative research It is the ultimate aim of this edited volume to stir up discussions and dialogue among narrative researchers across these disciplines and to widen and open up the territory of narrative inquiry to new and innovative work *Experiencing the Lifespan* Janet Belsky, 2009-10-23 This book explores the lifespan by combining research with a practicing psychologist s understanding of human development from infancy to old age **Second Chances As Transformative Stories Rhd V3 2&3** Kevin M. McLean, 2022 As I sat down to write this chapter about the use of life story methods for capturing cultural historical aspects of LGBTQ identity development I was transported back in time It was a hot summer day in 2004 I had travelled back from the big city where I was attending university to visit my family This was my first summer away from home At that moment my

family and I sat in the parking lot of a diner having just finished breakfast at a local greasy spoon a ritualistic send off before I started my four hour return drive In those moments our car felt unusually cramped My dad was in the back seat with me my mom and brother in the front I didn't have much of an appetite that morning knowing that in mere minutes I would come out to my family as gay On our way out of the restaurant walking to our separate cars I somehow managed to muster up the courage to tell my family there was something important I wanted them to know So there I was in the backseat of the car with a message for my family Looking back on it the message was more like an ultimatum They could learn to love this new version of me as I had done or our routine see you later might be a goodbye This is the beginning of my story both my coming out story and in some ways my life story Thankfully my family is still an important part of this story **Varieties of**

Ethical Excellence Heidi M. Giebel, 2020-11-24 Why do some people achieve ethical excellence while others fail For example how did Gloria Lewis overcome a lifetime of difficulty and go on to found a non profit focused on feeding the homeless while Danny Starrett despite a seemingly ideal childhood became a rapist and murderer Why did some Germans rescue their Jewish neighbors while others stood by One recent study found that four personal variables taken together differentiated Nazi era bystanders from rescuers with startling 96 1% accuracy social responsibility altruistic moral reasoning empathic concern and risk taking traits related to ethical excellences virtues like justice benevolence and courage Drawing from the combined wisdom of classical Socratic and Confucian philosophy recent work in psychology and the lived experience of recognized moral heroes the book focuses on how each of us can work toward ethical excellence becoming more like Lewis and neighbor rescuers than like Starrett and Nazi era bystanders The ancient Socratic and Confucian philosophical traditions offer surprisingly sophisticated advice regarding moral education Because research in psychology helps us assess the

feasibility of cultivating virtue in ourselves and those we influence Ethical Excellence focuses on combining sound philosophical analysis of ethical virtue and related concepts with relevant empirical research on how these concepts are manifested and developed in everyday practice Willpower for example contributes to development of temperance or moderation grit relates to perseverance and empathy is connected to benevolence Finally the study of ethically exceptional people moral heroes or exemplars serves as living proof that ethical excellence is possible and exemplars can provide inspiration to attempt it ourselves and guidance regarding how to do so successfully Relevant stories and excerpts from the author s own interviews with award winning ethical exemplars complement the use of philosophical virtue theory and psychological research on virtue relevant practice Together these three approaches philosophy psychology and biography help to triangulate ethical excellence and its achievement presenting a much clearer and more complete picture than we can get from any one of these methods alone

Cultivating Virtue Nancy E. Snow,2015 Though virtue ethics is enjoying a resurgence the topic of virtue cultivation has been largely neglected by philosophers This book features essays by philosophers theologians and psychologists at the forefront of research into virtue Publisher s description

Hinton,2019-10-16 Stereotypes and the Construction of the Social World explores the complexity of stereotypes guiding the reader through issues of definition and theoretical explanations from psychology and other disciplines The book examines why people use stereotypes which have often been represented as inaccurate rigid and discriminatory If that is what they are then why would people employ such faulty or biased views of others Whilst this book presents a detailed and comprehensive analysis of the psychological research into the individual use of stereotypes it also presents this research within its ideological and historical context revealing the important sociocultural factors in what we mean by stereotypes From the politics of representation and inter group power relations alongside individual social cognitive issues the book provides a comprehensive and cross disciplinary account of stereotypes and stereotyping Featuring a wealth of real world examples it will be essential reading for all students and researchers of stereotypes
