Rolandsen**

Rivers Of Blood A Comparative Study Of Government Massacres:

Rivers of Blood Brenda K. Uekert, 1995-07-17 *Rivers of Blood* offers a glimpse into the brutal world of state terrorism. In this innovative study, the author explores the strategies, targets, and motives of terror by reviewing the conditions surrounding government massacres. By introducing an innovative typology of massacres and a classification of terror strategies, the author develops a structural approach to the study of state terror, thus challenging the viewpoint that state terrorism is a situational or reactionary phenomenon. Case studies of government massacres such as those occurring in China (Tiananmen), Iraq (Halabja), and El Salvador (San Salvador) are included. Each case study includes a discussion on the historical, political, and social climate preceding the massacre. *Rivers of Blood* is a welcome addition to the literature on state terrorism. Theatres Of Violence

Philip Dwyer, Lyndall Ryan, 2012-04-01 Massacres and mass killings have always marked, if not shaped, the history of the world, and as such are subjects of increasing interest among historians. The premise underlying this collection is that massacres were an integral, if not accepted, part until quite recently of warfare and that they were often fundamental to the colonizing process in the early modern and modern worlds. Making a deliberate distinction between massacre and genocide, the editors call for an entirely separate and new subject under the rubric of Massacre Studies, dealing with mass killings that are not genocidal in intent. This volume offers a reflection on the nature of mass killings and extreme violence across regions and across centuries and brings together a wide range of approaches and case studies. *World Terrorism: An Encyclopedia of Political Violence from Ancient Times to the Post-9/11 Era* James Ciment, 2015-03-10 First Published in 2015. This collection holds three volumes. Terrorism is a term that defies easy definition, and its meaning has also changed over the course of history. Because this encyclopedia aims at comprehensiveness across time, geography, and the conceptual landscape, it applies the broadest definition of terrorism: the use of violence or the threat of violence to effect political change through fear in which the victims are the violence. The encyclopedia is divided into six parts. **Human remains and mass violence**

Jean-Marc Dreyfus, Élisabeth Anstett, 2016-05-16 This electronic version has been made available under a Creative Commons BY-NC-ND open access license. This book outlines for the first time in a single volume the theoretical and methodological tools for a study of human remains resulting from episodes of mass violence and genocide. Despite the highly innovative and contemporary research into both mass violence and the body, the most significant consequence of conflict, the corpse, remains absent from the scope of existing research. Why have human remains hitherto remained absent from our investigation, and how do historians, anthropologists, and legal scholars, including specialists in criminology and political science, confront these difficult issues? By drawing on international case studies, including genocides in Rwanda, the Khmer Rouge, Argentina, Russia, and the context of post-World War II Europe, this ground-breaking edited collection opens new avenues of research. Multidisciplinary in scope, this volume will appeal to readers interested in an understanding of mass violence's aftermath, including researchers in history, anthropology, sociology, law, politics, and modern warfare. The research program leading to

this publication has received funding from the European Research Council under the European Union's Seventh Programme FP 2007 2013 ERC Grant Agreement n 283 617

The Politics of Human Rights Andrew Vincent, 2010-07-08 *The Politics of Human Rights* provides a systematic introductory overview of the nature and development of human rights. At the same time it offers an engaging argument about human rights and their relationship with politics. The author argues that human rights have only a slight relation to natural rights and they are historically novel. In large part they are a post 1945 reaction to genocide which is in turn linked directly to the lethal potentialities of the nation state. He suggests that an understanding of human rights should nonetheless focus primarily on politics and that there are no universally agreed moral or religious standards to uphold them; they exist rather in the context of social recognition within a political association. A consequence of this is that the 1948 Universal Declaration is a political not a legal or moral document. Vincent goes on to show that human rights are essentially reliant upon the self-limitation capacity of the civil state. With the development of this state certain standards of civil behaviour have become for a sector of humanity slowly and painfully more customary. He shows that these standards of civility have extended to a broader society of states. At their best human rights are an ideal civil state vocabulary. The author explains that we comprehend both our own humanity and human rights through our recognition relations with other humans principally via citizenship of a civil state. Vincent concludes that the paradox of human rights is that they are upheld to a degree by the civil state but the point of such rights is to protect against another dimension of this same tradition: the nation state. Human rights are essentially part of a struggle at the core of the state tradition.

Politics and Violence in Eastern Africa David M. Anderson, Øystein H. Rolandsen, 2017-10-02 Over the fifty years between 1940 and 1990 the countries of eastern Africa were embroiled in a range of debilitating and destructive conflicts starting with the wars of independence but then incorporating rebellion, secession and local insurrection as the Cold War replaced colonialism. The articles gathered here illustrate how significant, widespread and dramatic this violence was. In these years violence was used as a principal instrument in the creation and consolidation of the authority of the state and it was also regularly and readily utilised by those who wished to challenge state authority through insurrection and secession. Why was it that eastern Africa should have experienced such extensive and intensive violence in the fifty years before 1990? Was this resort to violence a consequence of imperial rule, the legacy of oppressive colonial domination under a coercive and non-representative state system? Did essential contingencies such as the Cold War provoke and promote the use of violence? Or was it a choice made by Africans themselves and their leaders, a product of their own agency? This book focuses on these turbulent decades exploring the principal conflicts in six key countries: Kenya, Uganda, Sudan, Ethiopia, Somalia and Tanzania. This book was published as a special issue of the *Journal of Eastern African Studies*.

The Arms Dynamic in World Politics Barry Buzan, Eric Herring, 1998 Presented as a successor to the Cold War era book *An Introduction to Strategic Studies*, this volume explores issues of military security through a framework that links the issues of technology and world politics. Arguing that the

technological aspect of the global strategic environment is partway through a centuries long process of transformation sped up by the advent of the information age the authors examine such issues as different levels of industrial development on security what they argue is the relative infrequency of the use of force between states the use of military threats such as mass destruction concepts that military means create problems in themselves such as fear of war and insecurity and finally ways in which regulatory schemes such as disarmament can be put to use to solve some of those problems Paper edition unseen 22 50 Annotation copyrighted by Book News Inc Portland OR

State Terrorism in Latin America Thomas C. Wright, 2007 Set in the larger context of the evolution of international human rights this cogent book examines the tragic development and ultimate resolution of Latin America's human rights crisis of the 1970s and 1980s Thomas Wright focuses especially on state terrorism in Chile under General Augusto Pinochet 1973 1990 and in Argentina during the Dirty War 1976 1983 The author probes the background of these regimes the methodology of state terrorism and the human rights movements that emerged in urgent response to the brutality of institutionalized torture murder and disappearance He also discusses the legacies of state terrorism in the post dictatorial period particularly the bitter battle between demands for justice and the military's claim of impunity Central to this struggle was the politics of memory as two radically different versions of the countries recent history clashed had the militaries conducted legitimate wars against subversion or had they exercised terrorism based on a misguided concept of national security The book offers a nuanced exploration of the reciprocal relationship between state terrorism and its legacies on one hand and international human rights on the other When the Chilean and Argentine militaries seized power the international human rights lobby was too weak to prevent the massive toll of state terrorism But the powerful worldwide response to these regimes ultimately strengthened international human rights treaties institutions and jurisprudence paving the way for the Rwanda and Yugoslavia genocide tribunals and the International Criminal Court Indeed Chile and Argentina today routinely try and convict former repressors in their own courts This compelling history demonstrates that the experiences of Chile and Argentina contributed to strengthening the international human rights movement which in turn gave it the influence to affect the outcome in these two South American countries Ironically the brutal regimes of Chile and Argentina played the major role in transforming a largely dormant international lobby into a powerful force that today is capable of bringing major repressors from anywhere in the world to justice These intertwined themes make this book important reading not only for Latin Americanists but for students of human rights and of international relations as well

Native America and the Question of Genocide Alex Alvarez, 2014-03-14 Did Native Americans suffer genocide This controversial question lies at the heart of Native America and the Question of Genocide After reviewing the various meanings of the word genocide author Alex Alvarez examines a range of well known examples such as the Sand Creek Massacre and the Long Walk of the Navajo to determine where genocide occurred and where it did not The book explores the destructive beliefs of the European settlers and then looks at topics including disease

war and education through the lens of genocide Native America and the Question of Genocide shows the diversity of Native American experiences postcontact and illustrates how tribes relied on ever evolving and changing strategies of confrontation and accommodation depending on their location the time period and individuals involved and how these often resulted in very different experiences Alvarez treats this difficult subject with sensitivity and uncovers the complex realities of this troubling period in American history

Death Squads in Global Perspective B. Campbell,A. Brenner,2002-10-17 Death squads have become an increasingly common feature of the modern world In nearly all instances their establishment is tolerated encouraged or undertaken by the state itself which thereby risks its monopoly on the use of force one of the fundamental characteristics of modern states Why do such a variety of regimes under very different circumstances condone such activity Death Squads in Global Perspective hopes to answer that question and explain not only their development but also why they can be expected to proliferate in the early 21st century

The Death Marches Daniel Blatman,2011-05-03 In an exploration of a topic nearly neglected in the current history of the Shoah Blatman sets out to explain the effort invested by the Nazi regime in liquidating the remnants of the enemies of the Aryan race before it abandoned the stage of history

Democracies at War against Terrorism S. Cohen,2016-03-28 Numerous democratic nations have been singled out by NGOs for brutality in their modus operandi for paying inadequate attention to civilian protection or for torture of prisoners This book deals with the difficulties faced when conducting asymmetric warfare in populated areas without violating humanitarian law

Tigray: The Hysteresis of War ,2024-11-17 The Tigray War 2020 2022 may have claimed as many as 700 000 lives Fought between the national defence forces of Ethiopia and Eritrea and the Tigray Defence Forces the conflict unleashed horrific atrocities on civilians including widespread massacres The war was shrouded in secrecy due to a communications blackout and a siege on Tigray making it nearly impossible for people in the region to report on events and for the outside world to grasp the scale of the tragedy This book the first in a three part series uncovers Eritrea s concealed role in the war including its involvement in massacres and particularly cruel and inhumane sexual violence These acts were designed not only to terrorise but to break the spirit of the Tigrayan people with the aim of erasing Tigray as an ethnic and cultural group This book also explores how the war has fundamentally altered the Tigray region a transformation that may be difficult to reverse described through the lens of the concept of hysteresis Drawing on a collaborative investigation between universities inside and outside Ethiopia and primarily employing an ethnographic approach the study concludes that genocide may have occurred in Tigray The international community it argues has a duty to investigate these claims

Latin America's Cold War Hal Brands,2012-03-05 For Latin America the Cold War was anything but cold Nor was it the so called long peace afforded the world s superpowers by their nuclear standoff In this book the first to take an international perspective on the postwar decades in the region Hal Brands sets out to explain what exactly happened in Latin America during the Cold War and why it was so traumatic Tracing the tumultuous course of regional affairs from the late 1940s

through the early 1990s Latin America's Cold War delves into the myriad crises and turning points of the period the Cuban revolution and its aftermath the recurring cycles of insurgency and counter insurgency the emergence of currents like the National Security Doctrine liberation theology and dependency theory the rise and demise of a hemispheric diplomatic challenge to U S hegemony in the 1970s the conflagration that engulfed Central America from the Nicaraguan revolution onward and the democratic and economic reforms of the 1980s Most important the book chronicles these events in a way that is both multinational and multilayered weaving the experiences of a diverse cast of characters into an understanding of how global regional and local influences interacted to shape Cold War crises in Latin America Ultimately Brands exposes Latin America's Cold War as not a single conflict but rather a series of overlapping political social geostrategic and ideological struggles whose repercussions can be felt to this day The Singularity of State Repression Alexei

Anisin, 2024-01-23 What sets a single bout of state repression apart from a longer trajectory of political violence Why does state repression of protesters sometimes result in discrete events of violence while in other cases it spurs larger cascades of political violence such as politicide genocide or civil war This book introduces a new framework for state repression and its relationship to different forms of civil resistance It argues that state repression in the modern era of history is an empirical phenomenon that has been marked by singularity Through taking the law of coercive responsiveness as a starting point this book reveals that when political status quos are challenged by civilians states do respond in law like ways but the impact that state repression has on social change is more heterogeneous than previously considered State repression has brought about indeterminate effects and outcomes across space and time Through analyzing event based data featuring 24 variables on a cross national sample of 171 different protest massacres that arose from 1819 2022 this book provides among the more wide reaching comparative inquiries into repression and dissent to date It draws on comparative sequential analysis to identify three different processes in which the sample of cases is matched alongside causal mechanisms and sequence types The mixed methodological approach drawn in this book features quantitative analysis process tracing and qualitative case studies Readers are taken on a journey through tumultuous periods of political violence that range from 19th century massacres in the U S to 1928 Colombia and 1970s Apartheid 1990s China the Arab Spring and contemporary Syria and Myanmar among a diverse range of other cases Along with identifying new quantitative insights into civil resistance strategies and various geographic and temporal dynamics associated with repression the analyses presented in this book offer timely insight into policies that can aid the prevention of human rights violations Prosecuting Corporations for Genocide Michael J.

Kelly, 2016-02-17 Modern corporations are key participants in the new globalized economy As such they have been accorded tremendous latitude and granted extensive rights However accompanying obligations have not been similarly forthcoming Chief among them is the obligation not to commit atrocities or human rights abuses in the pursuit of profit Multinational corporations are increasingly complicit in genocides that occur in the developing world While they benefit enormously from

the crime they are immune from prosecution at the international level Prosecuting Corporations for Genocide proposes new legal pathways to ensure such companies are held criminally liable for their conduct by creating a framework for international criminal jurisdiction If a state or a person commits genocide they are punished and international law demands such Nevertheless corporate actors have successfully avoided this through an array of legal arguments which Professor Kelly challenges He demonstrates how international criminal jurisdiction should be extended over corporations for complicity in genocide and makes the case that it should be done promptly

International Encyclopedia of Terrorism Martha Crenshaw, John Pimlott, 2015-04-22 This timely reference book places the growing 20th century phenomenon of terrorism in an historical context Starting with the use of assassination in Ancient Greece and including the recent bombing of the American military complex in Dhahran Saudi Arabia this encyclopedia covers the globe in its presentation of all aspects of terrorism history theories of types of and responses to as well methods and techniques There is a chronology of major terrorist events from 1945 an A to Z listing of terrorist groups and leaders a select bibliography and indexes general name and geographical

Africa Air University (U.S.). Library, 1997

Violence Against Muslims in India Saif Samir, This book spans 70 years of the dark history of Anti Muslim violence in India that have caused over tens of thousands of deaths and refugees Violence against Muslims in India is frequently in the form of violent attacks on Muslims by Hindus These attacks are referred to as communal riots in India between the majority Hindus and minority Muslims and have been connected to a rise in Islamophobia

Purify and Destroy Jacques Semelin, 2007-08-17 How can we comprehend the sociopolitical processes that give rise to extreme violence ethnic cleansing or genocide A major breakthrough in comparative analysis Purify and Destroy demonstrates that it is indeed possible to compare the Holocaust the Rwandan genocide and ethnic cleansing in Bosnia Herzegovina while respecting the specificities of each appalling phenomenon Jacques Semelin achieves this in part by leading his readers through the three examples simultaneously the unraveling of which sometimes converges but most often diverges Semelin s method is multidisciplinary relying not only on contemporary history but also on social psychology and political science Based on the seminal distinction between massacre and genocide Purify and Destroy identifies the main steps of a general process of destruction both rational and irrational born of what Semelin terms delusional rationality He describes a dynamic structural model with at its core the matrix of a social imaginaire that responding to fears resentments and utopias carves and recarves the social body by eliminating the enemy Semelin identifies the main stages that can lead to a genocidal process and explains how ordinary people can become perpetrators He develops an intellectual framework to analyze the entire spectrum of mass violence including terrorism in the twentieth century and before Strongly critical of today s political instrumentalization of the genocide notion Semelin urges genocide research to stand back from legal and normative definitions and come of age as a discipline in its own right in the social sciences

This is likewise one of the factors by obtaining the soft documents of this **Rivers Of Blood A Comparative Study Of Government Massacres** by online. Rivers Of Blood A Comparative Study Of Government Massacres Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Rivers Of Blood A Comparative Study Of Government Massacres free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Rivers Of Blood A Comparative Study Of Government Massacres free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly

interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Rivers Of Blood A Comparative Study Of Government Massacres free PDF files is convenient, its important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but its essential to be cautious and verify the authenticity of the source before downloading Rivers Of Blood A Comparative Study Of Government Massacres. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether its classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Rivers Of Blood A Comparative Study Of Government Massacres any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About Rivers Of Blood A Comparative Study Of Government Massacres Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Rivers Of Blood A Comparative Study Of Government Massacres is one of the best book in our library for free trial. We provide copy of Rivers Of Blood A Comparative Study Of Government Massacres in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Rivers Of Blood A Comparative Study Of Government Massacres. Where to download Rivers Of Blood A Comparative Study Of Government Massacres online for free? Are you looking for Rivers Of Blood A Comparative Study Of Government Massacres PDF? This is definitely going to save you time and cash in something you should think about.
