Royal Navy Destroyers in Focus Since 1945 Ben Warlow, 2000-08-01 **Ships Monthly**, 2000 *Bibliography of Nautical Books* Alan Obin, 2000-02 This is the 15th annual edition of the Bibliography of Nautical Books a reference guide to over 14 000 nautical publications It deals specifically with the year 2000 *The British Carrier Strike Fleet after 1945* David Hobbs, 2015-10-30 A comprehensive study of the bittersweet post WWII history of British naval aviation will become a standard reference for its subject Firetrench In 1945 the most powerful fleet in the Royal Navy s history was centered on nine aircraft carriers This book charts the post war fortunes of this potent strike force its decline in the face of diminishing resources its final fall at the hands of uncomprehending politicians and its recent resurrection in the form of the Queen Elizabeth class carriers the largest ships ever built for the Royal Navy After 1945 experts prophesied that nuclear weapons would make conventional forces obsolete but British carrier borne aircraft were almost continuously employed in numerous conflicts as far apart as Korea Egypt the Persian Gulf the South Atlantic East Africa and the Far East often giving successive British Governments options when no others were available In the process the Royal Navy invented many of the techniques and devices crucial to modern carrier operations angled decks steam catapults and deck landing aids while also pioneering novel forms of warfare like helicopter borne assault and tactics for countering such modern plagues as insurgency and terrorism This book combines narratives of these poorly understood operations with a clear analysis of the strategic and political background benefiting from the author s personal experience of both carrier flying and the workings of Whitehall It is an important but largely untold story of renewed significance as Britain once again embraces carrier aviation Makes a timely and welcome appearance will make compelling reading for those with serious concern for our naval affairs St Andrews in Focus **Our Falklands War** Geoffrey Underwood, 1983 *British Destroyers & Frigates* Norman Friedman, 2012-10-22 A comprehensive survey of the design history and development of the Royal Navy s greyhounds of the sea WARSHIPS Magazine Since World War II the old categories of destroyer and frigate have tended to merge a process that this book traces back to the radically different Tribal class destroyers of 1936 It deals with the development of all the modern destroyer classes that fought the war looks at the emergency programs that produced vast numbers of trade protection vessels sloops corvettes and frigates then analyzes the pressures that shaped the post war fleet and continued to dominate design down to recent years Written by America s leading authority and featuring photos and ship plans it is an objective but sympathetic view of the difficult economic and political environment in which British designers had to work and benefits from the author s ability to compare and contrast the US Navy s experience Norman Friedman is renowned for his ability to explain the policy and strategy changes that drive design decisions and his latest book uses previously unpublished material to draw a new and convincing picture of British naval policy over the previous seventy years and more Includes photos **Falklands** Mike Critchley, 1982 En engelsk billedreportage d kkende Falklandskrigens f rste tid indtil omkring medio maj 1982 Pr sentations

og pressebilleder **A Hard Fought Ship** John A Rodgaard, 2024-06-30 Here is the exhaustive and exhilarating story of HMS Venomous one of sixty seven V W destroyers built at the end of the Great War that were to play a key role in the struggle to keep the sea lanes open in the Atlantic Home Waters and the Mediterranean during the following war Her story was perhaps the most memorable of all her class When war broke out she was to find herself in the front line as the German blitzkrieg swept across Europe in 1940 and the V Ws made high speed dashes across the Channel to bring troops and civilians back from Calais Boulogne and Dunkirk and prepared for the expected invasion Later that year she and her sister ships escorted the Atlantic convoys which supplied our Russian allies with the weapons to halt the German advance She returned to the Mediterranean and took part in Operation Pedestal to save Malta and as the allies prepared for the landings in North Africa she was ordered to escort the destroyer depot ship HMS Hecla to the invasion beaches When Hecla was torpedoed off the coast off Morocco Venomous fought the attacking U boat and rescued 500 survivors She escorted convoys along the coast of North Africa including the first through convoy from Gibraltar to Alexandria and she joined the invasion force to Sicily during Operation Husky In October 1943 she returned to Britain for a major refit at Falmouth when she was converted to an air target ship for training Barracuda torpedo bombers based at Douglas Isle of Man and then after being transferred to the east coast she was nearly lost in a hurricane before being sent to Kristiansand to accept the surrender of German naval forces Venomous and her sister ships were all scrapped after the War but her extraordinary career during which she fought without cessation is brought to life in this rousing and beautifully told ship biography a fitting memorial to the V Ws and the men who served in them I would rate this as being in the same class as The Cruel Sea for a picture of small ship life in World War Two The Naval Review A portrayal of life on a wartime destroyer with a depth and insight that is possible unequalled by any previously published work Warship Annual This book is outstanding for its detailed insight into the life on not just a single destroyer but by extension life at sea aboard and Royal Navy destroyer The Northern Mariner A Hard Fought Ship is a vivid portrait of a fighting vessel and the men who operated her Warships International Fleet Review Highly recommended to both naval historians and the general public Mariner s Mirror It is an exemplary ship biography where a detailed narrative of the destroyer s exploits are brought to life by a wealth of first hand accounts Navy News This book is a detailed and thrilling account of the life of a typical V W class destroyer Sea Breezes **US Destroyers 1942-45** Dave McComb, 2011-03-15 Few if any 20th century warships were more justly acclaimed than the destroyers of the U S Navy s Fletcher class Admired as they were for their advanced and rakish design it was their record as workhorses of the Pacific War that placed them among the most battle tested and successful fighting ships of all time This title describes the Fletchers and their Allen M Sumner and Gearing class derivatives their machinery armament and construction with a listing of all 343 ships by hull number and builder It features an operational history of the 287 ships commissioned during World War II which traces the evolution of night surface action tactics in the Solomon Islands and the parallel development of the Combat
