**The British National Bibliography** Arthur James Wells, 2009 **French for Success** Philip Ejikeme, 2016-04-15 FRENCH FOR SUCCESS is conceived to facilitate rapid mastery of the rules governing French grammar It is the fruit of reflections on simple but reliable methods that will enable the non Francophone to acquire a mindset similar to that of the Francophone To do that we strive to simplify the conjugation of verbs which is what makes the French language appear to be difficult Accordingly verbs are placed into categories instead of groups depending on their patterns of conjugation Each category has a conjugation formula A category is a group of verbs that share similar conjugation patterns in all tenses While traditionally the radical of a verb is repeated six times in a conjugation the concept exposed in these manuals seeks to use a radical once unless it is impossible to do so as in irregular verbs and replace it with other radicals of the same category As you will discover verbs in the same categories share the same six endings which remain unchanged Examples of radicals are aim from aimer parl from parler cout from couter or donn from donner The groupings and their distinctive features are explained Understanding that conjugation is just a matter of arrangement of verb endings and knowing which verbs that belong together makes learning French much easier Category A comprises over 4000 verbs and one can learn their conjugation in less than 10 minutes The curious might wonder why we prefer categories to groups Currently there are three main groups namely the first group which comprises verbs ending in er the second group which is composed of verbs ending in ir and the third group composed of verbs ending in re The first group alone the er group comprises about 13 different groups of verbs the radicals of which cannot mutually replace one another We reduce them to 8 For instance donn aim parl and cout can replace one another but cannot replace c d or c d from c der or jett and jet from jeter etc although they all end in er and belong to the first group In the second group while fini finir agi agir and b ni b nir are mutually replaceable they cannot replace sor sortir par partir men mentir cour courir secour secourir or vien and ven venir We think that placing in the same group verbs whose patterns of conjugation have nothing to do with one another can lead to confusion Similarly in group

3 which comprises verbs ending in re while attendre vendre rendre perdre can replace one another in a conjugation they cannot replace prendre comprendre and mouvoir dissoudre and couler do not even share common patterns of conjugation Themes are selected to facilitate visual recognition Where possible nouns adjectives and adverbs are grouped in a manner that help the learner distinguish the gender and number or show them how those parts of speech are formed The manuals are divided into four volumes for the progressive acquisition of the rules of French Grammar While Book 1 introduces such basics as articles gender masculine feminine and nouns prepositions numbers professions book 2 seeks to consolidate the knowledge acquired earlier Other tenses are examined in greater details Progressively the users build their confidence as they learn to construct correct sentences
