American Women Modernists Robert Henri,Marian

Wardle,Sarah Burns,Brigham Young University. Museum of Art,2005 The seven essays included in this volume move beyond the famed Ashcan School to recover the lesser known work of Robert Henri s women students The contributors who include well known scholars of art history American studies and cultural studies demonstrate how these women participated in the modernizing of women s roles during this era *Robert Henri (1865-1929) and His Circle: George Bellows [and Others. Exhibition] December 11, 1964-January 10, 1965 in the Art Gallery of the American Academy of Arts and Letters, New York City American Academy of Arts and Letters,1964* *Beauty in the City* Robert A. Slayton,2017-06-21 Presents a major new interpretation of the Ashcan School of Art arguing that these artists made the working class city at the turn of the century a subject for beautiful art At the beginning of the twentieth century the Ashcan School of Art blazed onto the art scene introducing a revolutionary vision of New York City In contrast to the elite artists who painted the upper class bedecked in finery in front of magnificent structures or the progressive reformers who photographed the city as a slum hopeless and full of despair the Ashcan School held the unique belief that the industrial working class city was a fit subject for great art In *Beauty in the City* Robert A Slayton illustrates how these artists portrayed the working classes with respect and gloried in the drama of the subways and excavation sites the office towers and immigrant housing Their art captured the emerging metropolis in all its facets with its potent machinery and its class ethnic and gender issues By exposing the realities of this new modern America through their art expressed in what they chose to draw not in how they drew it they created one of the great American art forms A delight for the eyes a treat for city lovers and a fine example of how historians can use art *Beauty in the City* will enrich such fields as urban history art history the history of New York City and America in the twentieth century Robert Slayton has identified a group of artists who saw in the gritty details of city life real beauty and social meaning Hasia R Diner author of *Roads Taken The Great Jewish Migrations to the New World and the Peddlers Who Forged the Way* A century ago the Ashcan painters created an art that was of by and for urban Americans in all their exhilarating pluralism Robert Slayton analyzes and celebrates their accomplishment in a work that combines brilliant scholarship and a profound passion for his subject To his great credit he reveals the beauty already there Michael Kazin author of *War Against War The American Fight for Peace 1914 1918* With great narrative skill and finely drawn characters Robert Slayton paints a vivid picture of New York and the art world in the early twentieth century He reminds us that these artists and the city they inhabited continue to influence our perspective about class about gender about race a century later This book is a wonderful vibrant look at a forgotten part of our history Terry Golway author of *Machine Made Tammany Hall and the Creation of Modern American Politics* *Robert Henri (1865-1929) and His Circle* ,1965 **Robert Henri (1865-1929) and His**

Boylan, 2017-04-20 Arriving in New York City in the first decade of the twentieth century six painters Robert Henri John Sloan Everett Shinn Glackens George Luks and George Bellows subsequently known as the Ashcan Circle faced a visual culture that depicted the urban man as a diseased body under assault Ashcan artists countered this narrative manipulating the bodies of construction workers tramps entertainers and office workers to stand in visual opposition to popular political and commercial cultures They did so by repeatedly positioning white male bodies as having no cleverness no moral authority no style and no particular charisma crafting with consistency an unspectacular man This was an attempt both radical and deeply insidious to make the white male body stand outside visual systems of knowledge to resist the disciplining powers of commercial capitalism and to simply be with no justification or rationale Ashcan Art Whiteness and the Unspectacular Man maps how Ashcan artists reconfigured urban masculinity for national audiences and reimaged the possibility and privilege of the unremarkable white male body thus shaping dialogues about modernity gender and race that shifted visual culture in the United States **Robert Henri** William Yarrow, 1921 **The Grove Encyclopedia of American Art** Joan M. Peters Richard H.
