L. Stevenson,2019-08-07 At last a complete new edition of the poetry of Robert Louis Stevenson During his lifetime Stevenson published A Child s Garden of Verses 1885 Penny Whistles Underwoods 1887 and Ballads 1890 There were also various private press adventures in poetry with his stepson Lloyd Osbourne and the posthumous Songs of Travel 1895 and New Poems 1918 This new edition contains these collections and also some of Stevenson s printed and manuscript poems that have never been published in any collection The edition also identifies and restores various poems assembled by Stevenson in his Notebooks many of which were mutilated by members of The Boston Bibliophile Society The editor Roger Lewis has carefully studied Stevenson s manuscripts and letters identifying many variants in individual poems and in orders of his collections as well as in the editorial procedures of a

succession of RLS's literary associates who claimed to be fulfilling his intentions or acting on his authority. The ordering of this edition will follow Stevenson's own final arrangement over unauthorised editorial rearrangements or strict considerations of chronology. Complete and accurate dates of composition and publication of individual poems and of collections are given wherever possible. Appendices include bibliographical description and location for manuscript and printed sources of all poems in the edition; poems in process; how Stevenson sketched and revised during composition; notebooks; bibliographical history and significance; chronology and ordonnance of poetic units. There are also explanatory and textual notes. Scots poems are glossed and annotated using *The Concise Scots Dictionary* and web resources of the SNDA. A substantial introduction covers the publishing histories of individual volumes and literary influences, placing emphasis on Stevenson as a Scottish poet and arguing for his best verse to be considered.

Vaughan Williams on Music Ralph Vaughan Williams, 2008 Concert audiences have an enduring affection for the music of Ralph Vaughan Williams, a composer of dance, symphony, opera, song, hymnody and film music. Serious scholarship on his music is currently enjoying a revival. 2008 marks the 50th anniversary of Vaughan Williams passing. This collection brings together a host of lively writings, some for the first time and many for the first time since their initial publication, by one of the most articulate, beloved and engaging English composers. Making available essays, articles, broadcasts and speech transcripts from 1901-1958, *Vaughan Williams on Music* exemplifies the multi-faceted nature of his contributions: active supporter of amateur music and English music; a leader in the folksong revival; educator, performer and polemicist. Vaughan Williams was one of the cultural giants of his day, a figure of iconic stature whose influence stretched far beyond musical circles; his friendships with Bertrand Russell and G. M. Trevelyan and his tireless work on behalf of a variety of organizations and causes, from Jewish refugees to the Third Programme, gave him a unique place in British national life. He also had a powerful influence in the United States at a time when the international relationship was approaching its zenith. Through all these perspectives, the words are unmistakably those of a practicing composer, a young composer at the turn of the last century trying to find his own musical voice amid widely diverse stylistic influences of the dominant and successful figures of Brahms, Strauss and Tchaikovsky, and a mature composer in the mid-century having found that glorious voice which continues to resound across the globe. The volume will be an important contribution to the literature, not only on British music but also on nineteenth and twentieth-century British cultural and intellectual life as a whole, placing Vaughan Williams' political and aesthetic thought in a broader cultural perspective.
