Crow, 2005 Catalog of an exhibition held at the Metropolitan Museum of Art New York Dec 20 2005 Apr 2 2006 and the Museum of Contemporary Art Los Angeles May 14 Sept 4 2006 **Robert Rauschenberg's 'Combines' - Masterpieces of the New Sensibility - Between Abstract Expressionism and Pop Art** Sonja Longolius, 2005-07-18 Seminar paper from the year 2004 in the subject English Language and Literature Studies Culture and Applied Geography grade 1 7 Free University of Berlin John F Kennedy Institut language English abstract For a thorough understanding of the development of the American art scene in the 1950s and 1960s it is essential to have a close look on the early work of the forerunner Robert Rauschenberg whose art bridged the way between Abstract Expressionism and Pop Art In this context it is equally important to analyze Susan Sontag's essays on art and style from the mid 1960s which had a precursory function in the art critic world and promoted a new kind of sensibility to the audience To understand the development of Rauschenberg's art concept which was breathtakingly new at its time it is inevitable to look at his artistic career and the different influences on his work from artistic models teachers and fellow artists Additionally an analysis of the 1950s and 1960s art scene and the change of the audience's reception are equally necessary to recognize the significance of Rauschenberg's work for its time and beyond Sontag was one of the first critics to fully acknowledge the importance of Rauschenberg's ideas for the development of the American art scene Her essay collection is thus in itself a pioneer work of a new kind of art criticism Rauschenberg's artwork as well as Sontag's essays on the arts challenged people's perspective on art and its functions Even though Sontag only directly refers twice to Rauschenberg's artwork in her essay collection *Against Interpretations* her ideas of the new kind of art of the late 1950s and early 1960s nevertheless strongly correspond to Rauschenberg's art concept The artist and the art critic thus paved the way for a new understanding of art and its reception Robert Rauschenberg, 2005

the period 1959-69. In the face of Rauschenberg's avowals of his own literalism and insistence on his art as facts, this book gathers generous evidence of the poetic, metaphorical, allusive, associative and connotative dimensions of the artist's oeuvre as identified by Surrealists and thus extrapolates new readings from Rauschenberg's key works on that basis. By viewing Rauschenberg's art against the expansion of the cultural influence of the United States in Europe in the period after the Second World War and the increasingly politicized activities of the Surrealists in the era of the Algerian War of Independence, 1954-62, *Robert Rauschenberg and Surrealism* shows how poetic inference of the artist's work was turned towards political interpretation. By analysing Rauschenberg's art in the context of Surrealism and drawing from it new interpretations and perspectives, this volume simultaneously situates the Surrealist movement in 1960s American art criticism and history.

Robert Rauschenberg: Paintings, Drawings and Combines, 1949-1964. February - March 1964. [An Exhibition Catalogue. With Reproductions and a Portrait.] Robert Rauschenberg, 1964. **Robert Rauschenberg**, 1964. The Ascent of Rauschenberg Carolyn Russo, 2025-10-14. Take flight with postmodern artist Robert Rauschenberg in this tribute to his space and aviation art featuring art history and 150 fascinating images. Most famous for his groundbreaking Combines painting and sculpture hybrids that often incorporated everyday objects, American artist Robert Rauschenberg (1925-2008) created within a range of mediums including collage, performance, photography and printmaking. But a connective tissue through it all was his fascination with flight. *The Ascent of Rauschenberg* explores the flight motif across his work spanning birds, insects, aviation, spaceflight, sensory experiences and metaphors for his own life. More than 150 images reveal the vibrant scope of his work from lithographs inspired by the Apollo 11 launch that NASA invited him to witness and document to a Combine featuring a taxidermied eagle that evokes Roman mythology. Nine accompanying essays reflect on his many flight themes and subtleties that might otherwise be overlooked. The book also includes archival photographs and personal papers from the Robert Rauschenberg Foundation. Considered a forerunner of several artistic movements, most notably pop art, Rauschenberg was one of the most influential artists of his time. This gorgeous volume engages with his work at an intimate level and through a distinctive lens, revealing an artist deeply mesmerized by the innovation of flight within nature, technology and art. By observing Rauschenberg's work through the prism of flight, *The Ascent of Rauschenberg* refracts to reveal the depth and dazzle of an unparalleled career. **Robert Rauschenberg** Robert Rauschenberg, 2011. Robert Rauschenberg's engagement with photography began in the late 1940s under the tutelage of Hazel Larsen Archer at Black Mountain College in North Carolina. This exposure or experience was so great that for a time Rauschenberg was unsure whether to pursue painting or photography as a career. Instead, he chose both and found ways to fold photography into his Combines, maintaining a practice

of photographing friends and family documented the evolution of artworks and occasionally dramatized them by inserting himself into the picture frame As Walter Hopps wrote The use of photography has long been an essential device for Rauschenberg's melding of imagery and a vital means for Rauschenberg's aesthetic investigations of how humans perceive select and combine visual information Without photography much of Rauschenberg's oeuvre would scarcely exist The artist himself affirmed I've never stopped being a photographer This volume gathers and surveys for the first time Rauschenberg's numerous uses of photography This publication includes portraits of friends such as Cy Twombly Jasper Johns Merce Cunningham and John Cage studio shots photographs used in the Combines and Silkscreen paintings photographs of lost artworks and works in process This allows us to re-imagine almost the entirety of the artist's output in light of his always inventive uses of photography while also supplying previously unseen glimpses into his social milieu of the 1950s and early 60s Painter sculptor printmaker and photographer Robert Rauschenberg 1925-2008 provided a crucial bridge between Abstract Expressionism and Pop art After studying at Black Mountain College under Josef Albers Rauschenberg moved to New York where he formed close allegiances with Jasper Johns and Cy Twombly began his groundbreaking Combines collaborated with the Merce Cunningham Dance Company and co-launched the non-profit Experiments in Art and Technology Considered one of the most innovative artists of his era he died in 2008

The Great Migrator Hiroko Ikegami, Robert Rauschenberg, 2010 Unlike other writers who have viewed the export of American art during the 1950s and 1960s as another form of Cold War propagandizing and famous American artists as cultural imperialists Ikegami sees the global rise of American art as a cross-cultural phenomenon in which each art community Rauschenberg visited was searching in different ways for cultural and artistic identity in the midst of Americanization Rauschenberg's travels and collaborations established a new kind of transnational network for the postwar art world prefiguring the globalization of art before the era of globalization
