## **Robespierre Great Lives Observed:**

**Great Lives Observed Jefferson**, 1971      Robespierre Peter McPhee, 2012-03-13 For some historians and biographers Maximilien Robespierre 1758-94 was a great revolutionary martyr who succeeded in leading the French Republic to safety in the face of overwhelming military odds. For many others he was the first modern dictator, a fanatic who instigated the murderous Reign of Terror in 1793-94. This masterful biography combines new research into Robespierre's dramatic life with a deep understanding of society and the politics of the French Revolution to arrive at a fresh understanding of the man, his passions and his tragic shortcomings. Peter McPhee gives special attention to Robespierre's formative years and the development of an iron will in a frail boy conceived outside wedlock and on the margins of polite provincial society. Exploring how these experiences formed the young lawyer who arrived in Versailles in 1789, the author discovers not the cold, obsessive Robespierre of legend but a man of passion with close but platonic friendships with women. Soon immersed in revolutionary conflict, he suffered increasingly lengthy periods of nervous collapse correlating with moments of political crisis. Yet Robespierre was tragically unable to step away from the crushing burdens of leadership. Did his ruthless uncompromising exercise of power reflect a descent into madness in his final year of life? McPhee reevaluates the ideology and reality of the Terror: what Robespierre intended and whether it represented an abandonment or a reversal of his early liberalism and sense of justice.

**Robespierre**, 1967      HOW ROBESPIERRE'S HOSTILITY TOWARD TRADITIONAL RELIGION LED TO THE TERROR Nuray Bamanie, 2025-04-20      Robespierre George F. E. Rudé, 1967 The great lives observed series combines the intimacy of autobiography, the immediacy of eyewitness observation, and the comparative objectivity of modern scholarship. In Robespierre, George Rude presents Robespierre's own words, the views of his contemporaries, and analyses in retrospect by leading historians to create a three-fold perspective.

**The World of the French Revolution** Robert R. Palmer, 2016-06-10 This book examines the European world before 1789, recounts the history of the revolution in France itself, and then explores its monumental impact on European society. The book focusses on the causes of this impact and discusses the levels of thinking, communication, social, political, and economic conditions in France at the time which combined to make the revolution possible and which were similar to those developments elsewhere in Europe.

**Freedom's Moment** Paul M. Cohen, 2007-12-01 What kind of freedom and what kind of individual has the French Revolutionary tradition sought to propagate? Paul Cohen finds a distinctly French articulation of freedom in the texts and lives of eight renowned cultural critics who lived between the eighteenth century and the present day. Arranged not according to the lives and times of its protagonists but to the narrative themes and structures they held in common, Cohen's study discerns a single master narrative of liberty in modern France. He captures these radicals whose tradition bids them to resist the authority of power structures and public opinion. They denounce bourgeois and utilitarian values, the power of Church and State, and the corrupting influence of everyday politics, and they dream of a revolutionary rupture, a fleeting instant of sometimes violent

but always meaningful transgression An eloquent and insightful work on French political culture Freedom's Moment also helps explain how France even as it has oscillated between political stagnation and crisis has held onto its faith that liberty equality and fraternity remain within its grasp Examines the ideas of Rousseau Robespierre Stendahl Michelet Bergson Peguy Sartre and Foucault A Concise History of the French Revolution Sylvia Neely,2008 This concise yet rich introduction to the French Revolution explores the origins development and eventual decline of a movement that defines France to this day Through an accessible chronological narrative Sylvia Neely explains the complex events conflicting groups and rapid changes that characterized this critical period in French history She traces the fundamental transformations in government and society that forced the French to come up with new ways of thinking about their place in the world ultimately leading to liberalism conservatism terrorism and modern nationalism Throughout the author focuses on the essential political events that propelled the Revolution at the same time deftly interweaving the intellectual social diplomatic military and cultural history of the time Neely explains how the difficult choices made by the royal government and the revolutionaries alike not only brought on the collapse of the Old Regime but moved the nation into increasingly radical policies to the Terror and finally to the rise of Napoleon Bonaparte Written with clarity and nuance this work offers a deeply knowledgeable understanding of the political possibilities available at any given moment in the course of the Revolution placing them in a broad social context All readers interested in France and revolutionary history will find this an engaging and rewarding read British Working-class Movements and Europe, 1815-48 Henry Weissner,1975 **The Death Penalty** James J. Megivern,1997 A comprehensive history of the death penalty in the West that provides more material on capital punishment in Western Christian history than is available in any other work in English **The Biography Book** Daniel S.
