Secular Congregation:

The Congregation in a Secular Age (Ministry in a Secular Age Book #3) Andrew Root, 2021-01-19 Churches often realize they need to change But if they re not careful the way they change can hurt more than help In this culmination of his well received *Ministry in a Secular Age* trilogy leading practical theologian Andrew Root offers a new paradigm for understanding the congregation in contemporary ministry He articulates why congregations feel pressured by the speed of change in modern life and encourages an approach that doesn t fall into the negative traps of our secular age Living in late modernity means our lives are constantly accelerated and calls for change in the church often support this call to speed up Root asserts that the recent push toward innovation in churches has led to an acceleration of congregational life that strips the sacred out of time Many congregations are simply unable to keep up which leads to burnout and depression When things move too fast we feel alienated from life and the voice of a living God *The Congregation in a Secular Age* calls congregations to reimagine what change is and how to live into this future helping them move from relevance to resonance Organized Secularism in the United States Ryan T. Cragun, Christel Manning, Lori L. Fazzino, 2017-11-07 There has been a dramatic increase in the percentage of the US population that is not religious However there is to date very little research on the social movement that is organizing to serve the needs of and advocate for the nonreligious in the US This is a book about the rise and structure of organized secularism in the United States By organized secularism we mean the efforts of nonreligious individuals to build institutions networks and ultimately a movement that serves their interests in a predominantly religious society Researchers from various fields address questions such as What secularist organizations exist Who are the members of these organizations What kinds of organizations do they create What functions do these organizations provide for their members How do the secularist organizations of today compare to those of the past And what is their likely impact on the future of secularism For anyone trying to understand the rise of the nonreligious in the US this book will provide valuable insights into organized efforts to normalize their worldview and advocate for their equal treatment in society *The Sacred Secular* Dottie Escobedo-Frank, Rob Rynders, 2016-10-18 *The Sacred Secular* examines cultural spaces where people are experiencing something sacred These places are not in the church They re in yoga studios neighborhood potlucks and TED Talks Dottie Escobedo Frank and Rob Rynders see lessons for the church in these spaces They see new ways we can convey to people that the church is uniquely sacred and significant and that Jesus is for them These glimpses into the sacred secular will inspire creative church leaders to set aside their assumptions about what church looks like *The Sacred Secular* nurtures empowerment creativity spiritual movement and the courage to embody the sacredness and substance of our faith Many of us in the church including clergy feel we have more in common with the spiritual but not religious than we have with lots of church folks these days We are just as spiritually hungry and thirsty as ever but we re open to finding God in surprising places and spaces including secular ones This beautifully written book is all about that phenomenon I think you re going to

Religion and Secular Modernity in Russian Christianity, Judaism, and Atheism Ana Siljak,2024-11-15 Religion and Secular Modernity in Russian Christianity Judaism and Atheism is a multifaceted account of the engagement between religion and the secular in Russia s Christian Jewish and atheist traditions Ana Siljak brings together an interdisciplinary group of leading scholars to present unique perspectives on the secularization dynamic in Russia and the Soviet Union telling stories about theologians sects churches poets and artists From the Jewish Christian priest Alexander Men to the cross dressing poet Zinaida Gippius to the Soviet promoter of Yiddish theater Solomon Mikhoels Religion and Secular Modernity in Russian Christianity Judaism and Atheism gives a voice to a variety of actors who have grappled with the possibilities of faith and unbelief in an industrialized modern and seemingly secular world Now more than ever as one narrative of Russia s religious history dominates official Russian accounts alternative perspectives of the relationship between Russian religion and secularism should be highlighted and emphasized **Congregations in America** Mark Chaves,2009-07-01 This book provides a comprehensive overview of the most significant form of collective religious expression in America local congregations Among its more surprising findings the book reveals that despite media focus on the political and social activities of religious groups the arts are far more central to the workings of congregations *Freedoms, Faiths and Futures*

Andrew Singleton, Mary Lou Rasmussen, Anna Halafoff, Gary Bouma, 2021-04-08 How do contemporary teenagers experience and understand religious spiritual gender and sexual diversity How are their experiences mediated by where they go to school their faith and their geographic location Are their outlooks materialist religious spiritual or do they have hybrid identities *Freedoms Faiths and Futures Teenage Australians on Religion Sexuality and Diversity* offers powerful insight into how teenagers make sense of the world around them Drawing on rich data from a major national study this book creates new ways of understanding the complexity of young people's lives and how school education covering diversity best addresses their world This book argues that school education focused on worldviews is founded on ways of thinking about young people that do not reflect the complexities of Generation Z's everyday experiences of diversity and their interactions with each other It argues that certain kinds of education in schools can play a significant role in developing religious literacy tolerance and positive attitudes to diversity

Marguerite Bourgeoys and Montreal, 1640-1665 Patricia Simpson, 1997 St Marguerite Bourgeoys 1620 1700 canonized in 1982 is a key figure in Canadian and religious history as a founder of Montreal and of the international order the Congregation de Notre Dame de Montreal one of the first uncloistered religious communities

Faith Seeking Action Gregory P. Leffel, 2007-06-01 In *Faith Seeking Action* author Gregory Leffel links a description of the church as a global movement with a description of contemporary social movements that are actively challenging today's societies such as the environmental global justice and identity movements Not surprisingly Christian communities and communities of social activists share much in common as they each work to enrich their societies It is natural then to ask what missionally concerned Christians may learn from social movements about the public role of their churches the connection of their beliefs to social change and the mobilization of their people It can also be asked how these often divided communities may find ways to collaborate around common actions rooted in such shared values as peace justice life and the integrity of the environment Building on growing interest in the field of missiology and its missional church concept Leffel has created a dialog between the church as a social actor and social movements Along with introducing movement theory to mission studies Leffel introduces a new way of addressing the issues involved in the church's engagement with society a concept he calls *missio ecclesiology* Of interest to those seeking vital ways to live out their faith in the world missiologists missional church leaders and street level workers alike this work fuels fresh thinking about the church's role in cultural and social change
