Security Studies For The 1990s

Keith Krause, Michael C. Williams

Security Studies For The 1990s:

Security Studies for the 1990s Richard H. Shultz, Roy Godson, Ted Greenwood, 1993 The United States is grappling with a new security framework to replace the structure of the Cold War era American policymakers face a host of challenges including regional conflicts ethnic tensions and weapons proliferation that commanded little attention in the past And tomorrow is likely to bring new concerns barely on today's horizon Despite these changes the study of national security remains largely a creature of the Cold War The security studies discipline needs to be overhauled But how should it be revised so that tomorrow's citizens and experts are equipped to understand and help manage new challenges One option is to downgrade security studies and divert educational resources elsewhere Another is to redefine the subject to include the study of an all encompassing list of international problems The third choice is to retain basic definitions concepts and subjects while also making significant adjustments Security Studies for the 1990s addresses all three options This book is the first to reexamine security studies in the post Cold War era Scholars and directors from leading security studies programs representing a cross section of viewpoints on foreign affairs discuss what new material needs to be taught and which courses and concepts should be recast Each chapter provides an indepth review of a major security studies course proposing needed changes and a model syllabus Subjects include intelligence policy global environmental problems the causes and termination of wars and collective security A chapter on the teaching of ethics a subject often neglected in the past is also featured BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Challenges to American National Security in the 1990s M. Nacht, A. Nichols, G.H. Quester, J.J. Weltman, 2012-12-06 The decade of the 1990s offers a chance to build a new and better international order What policy choices will this decade pose for the United States This wide ranging volume of essays imaginatively addresses these crucial issues The peaceful revolutions of 1989 1990 in the Soviet Union and Eastern Europe have swept away the foundations of the Cold War The Eastern European nations are free Europe is no longer divided Germany is united The Soviet threat to Western Europe is ending with the collapse of the Warsaw Pact and the withdrawals and asymmetrical cuts of Soviet forces And U S Soviet rivalry in the Third World is giving way to cooperation in handling conflicts as in Iraq and elsewhere Much of course remains uncertain and unsettled What sort of Soviet Union will emerge from the ongoing turmoil with what political and economic system and what state structure How far and how soon will the Eastern European states succeed in developing pluralist democracies and market economies Are the changes irreversible Certainly there will be turmoil backsliding and failures but a return to the Cold War hardly seems likely

The Evolution of International Security Studies Barry Buzan, Lene Hansen, 2009-08-27 International Security Studies ISS has changed and diversified in many ways since 1945 This book provides the first intellectual history of the development of the subject in that period It explains how ISS evolved from an initial concern with the strategic consequences of superpower rivalry and nuclear weapons to its current diversity in which environmental economic human and other

securities sit alongside military security and in which approaches ranging from traditional Realist analysis to Feminism and Post colonialism are in play It sets out the driving forces that shaped debates in ISS shows what makes ISS a single conversation across its diversity and gives an authoritative account of debates on all the main topics within ISS This is an unparalleled survey of the literature and institutions of ISS that will be an invaluable guide for all students and scholars of ISS whether traditionalist new agenda or critical

European Security in the 1990s W. Laqueur,L. Sloss,2013-11-11
Rarely if ever have the political economic and military foundations of the Western Alliance been in such a state of flux Walter Laqueur and Leon Sloss therefore deserve credit not just for the quality of the analysis in this superb book but also for the timeliness of its appearance As Laqueur says in his chapter Touring the Western European Defense Horizon if the likely development of European defense policies is not particularly reassuring at least it gives no grounds for despair The list of problems we face is a daunting one First there is the spiralling cost of defense expenditures particularly in the absence of significant NATO or inter European cooperation This is particularly serious in light of the reluctance to increase or even maintain current expenditures in the midst of Mikhail Gorbachev's peace offensive and the extraordinary changes in Eastern Europe both of which have had a dramatic impact on Western public opinion There is also a problem in the perceived relative economic decline of the United States vis a vis Western Europe and Japan which only exacerbates calls to reduce the number of American troops in Europe Other dangers to the political cohesion and military credibility of the alliance include demographic trends that threaten current manpower levels transatlantic acrimony over the burden sharing issue and political pressures particularly in West Germany toward denuclearization and even neutralism

The Palgrave Encyclopedia of Global Security Studies ,2023-02-15 This encyclopedia provides an authoritative guide intended for students of all levels of studies offering multidisciplinary insight and analysis of over 500 headwords covering the main concepts of Security and Non traditional Security and their relation to other scholarly fields and aspects of real world issues in the contemporary geopolitical world

Critical Security Studies Columba Peoples,Nick Vaughan-Williams,2014-08-27
Critical Security Studies introduces students to the sub field through a detailed yet accessible survey of evolving approaches and key issues This new edition contains two new chapters and has been fully revised and updated Written in an accessible and clear manner Critical Security Studies offers a comprehensive and up to date introduction to critical security studies locates critical security studies within the broader context of social and political theory evaluates fundamental theoretical positions within critical security studies in application to key issues The book is divided into two main parts The first part Approaches surveys the newly extended and contested theoretical terrain of critical security studies Critical Theory Feminism and gender theory Postcolonialism Poststructuralism and Securitization theory The second part Issues then illustrates these various theoretical approaches against the backdrop of a diverse range of issues in contemporary security practices from environmental human and homeland security to border security technology and warfare and the War against

Terrorism This edition also includes new chapters on Constructivist theories Part I and health Part II The historical and geographical scope of the book is deliberately broad and readers are introduced to a number of key illustrative case studies Each of the chapters in Part II concretely illustrate one or more of the approaches discussed in Part I with clear internal referencing allowing the text to act as a holistic learning tool for students This book is essential reading for upper level students of Critical Security Studies and an important resource for students of International Global Security Political Theory and International Relations

Security Studies Arda Özkan,Göktürk Tüysüzoglu,2023-07-10 As an important aspect of human polity the concept of security has an important place and space in politics Though regularly mentioned or referred the concept is rarely given a proper definition usually left in the shadows of politics and policymaking and usually referred as a cause to an effect Within the framework of this book classic modern and post modern security issues are analyzed while also focusing on the classical and diverse conceptual dimensions of security current problems are also evaluated especially in the axis of post modern security studies In security studies a distinction is usually made between classical and post modern approaches but in this study both are considered together One of the important features of this work is that it offers a perspective from Turkish experts on the concept of security in international relations

Security Studies Christopher W. Hughes,Yew Meng Lai,2011-02-18 This reader brings together key contributions from many of the leading scholars in the field offering students an informed overview of the most significant work in security studies The editors chart the development of the key theoretical and empirical debates in security studies in the Cold War and post Cold War periods introducing the ideas of the most influential past masters and contemporary thinkers on security in the UK US and elsewhere The book is divided into five areas What is Security Security Paradigms Security Dimensions and Issues Security Frameworks and Actors The Future of Security In order to guide students through the issues the book has a substantial critical introduction exploring the development of security studies as well as introductory essays that provide an overview of each section highlighting clearly how the readings fit together Suggestions for further reading and key questions for discussion are also included Security Studies is an invaluable resource for all students of security studies and international relations

NATO -- the 1990s ,1993 **Critical Security Studies** Keith Krause,Michael C. Williams,2002-09-11 This text takes issue with arguments that security studies is a discipline of limited use in making sense of the post Cold War world It argues that many of the most interesting theoretical issues in international relations can most usefully be studied through a prism labelled security studies The book combines chapters which provide a variety of critical perspectives on the discipline and address a diverse range of theoretical concerns with chapters that examine such substantive issues as weapons proliferation and the changing meaning of security for actors in the erstwhile conflict between East and West

Ignite the flame of optimism with is motivational masterpiece, **Security Studies For The 1990s** . In a downloadable PDF format (Download in PDF: *), this ebook is a beacon of encouragement. Download now and let the words propel you towards a brighter, more motivated tomorrow.
