Seeing From An Unprotected Perspective:

Women and Justice for the Poor Felice Batlan, 2015-04-16 This book re-examines fundamental assumptions about the American legal profession and the boundaries between professional lawyers, lay lawyers and social workers. Putting legal history and women's history in dialogue, it demonstrates that nineteenth-century women's organizations first offered legal aid to the poor and that middle-class women functioning as lay lawyers provided such assistance. Felice Batlan illustrates that by the early twentieth-century male lawyers founded their own legal aid societies. These new legal aid lawyers created an imagined history of legal aid and a blueprint for its future in which women played no role and their accomplishments were intentionally omitted. In response, women social workers offered harsh criticisms of legal aid leaders and developed a more robust social work model of legal aid. These different models produced conflicting understandings of expertise, professionalism, the rule of law, and ultimately the meaning of justice for the poor. Communication Perspectives on HIV/AIDS for the 21st Century Timothy Edgar, Seth M. Noar, Vicki S. Freimuth, 2009-04-09 Reflecting the current state of research into the communication aspects of HIV/AIDS, this volume explores AIDS-related communication scholarship moving forward from the 1992 publication *AIDS: A Communication Perspective*. Editors Timothy Edgar, Seth M. Noar, and Vicki S. Freimuth have developed this up-to-date collection to focus on today's key communication issues in the HIV/AIDS epidemic. Chapters herein examine the interplay of the messages individuals receive about AIDS at the public level as well as the messages exchanged between individuals at the interpersonal level. Acknowledging how the face of HIV/AIDS has changed since 1992, the volume promotes the perspective that an understanding of effective communication through both mediated and interpersonal channels is essential to winning the continued battle against AIDS. Issues addressed here include social stigma associated with the disease, social support, and those living with HIV/AIDS and the current state of HIV testing. Parent-child discussions surrounding HIV/AIDS and safer sexual behavior and cultural sensitivity relating to developing HIV prevention and sex education programs. The effectiveness of health campaigns to impact attitudes, norms, and behavior as well as the current state of entertainment education and its ability to contribute to HIV prevention. News media coverage of HIV/AIDS and the impact of the agenda-setting function on public opinion and policy making. Health literacy and its importance to the health and well-being of those undergoing HIV treatment. The role of technological innovations, most notably the Internet, used for both prevention interventions as well as risky behavior. The volume also includes exemplars that showcase the diversity of approaches to health communication used to combat the HIV/AIDS epidemic. These cases include interpersonal and mass communication mediums, traditional along with new media, and technology research by academics and practitioners, individual as well as community-based approaches, work based in the United States and internationally, and campaigns directed at at-risk HIV-positive as well as general populations. With new topics, new contributors, and a broadened scope, this book goes beyond a revision of the 1992 volume to reflect the current state of communication research on HIV/AIDS across

key contexts It is designed for academics researchers practitioners and students in health communication health psychology and other areas of AIDS research As a unique examination of communication research it makes an indelible contribution to the growing knowledge base of communication approaches to combating HIV AIDS **Unsafe Home** Limor
