Macroeconomic and Structural Adjustment Policies in Zimbabwe Clever Mumbengegwi, 2001-12-17 The policy relevant analysis of this volume examines nearly twenty years of Zimbabwe's macroeconomic and structural adjustment experiences since independence Part One analyses the impact on economic growth inflation employment and labour markets Part Two deals with financial liberalization and the financial turmoil and currency crisis experienced in the wake of reforms Part Three examines trade liberalization and its impact on investment and income distribution Part Four gives sectoral perspectives on the agricultural manufacturing and health sectors Becoming Zimbabwe. A History from the Pre-colonial Period to 2008 Brian Raftopoulos, Alois Mlambo, 2009-09-15 Becoming Zimbabwe is the first comprehensive history of Zimbabwe spanning the years from 850 to 2008 In 1997 the then Secretary General of the Zimbabwe Congress of Trade Unions Morgan Tsvangirai expressed the need for a more open and critical process of writing history in Zimbabwe The history of a nation in the making should not be reduced to a selective heroic tradition but should be a tolerant and continuing process of questioning and re examination Becoming Zimbabwe tracks the idea of national belonging and citizenship and explores the nature of state rule the changing contours of the political economy and the regional and international dimensions of the country's history In their Introduction Brian Raftopoulos and Alois Mlambo enlarge on these themes and Gerald Mazarire's opening chapter sets the pre colonial background Sabelo Ndlovu tracks the history up to WW11 and Alois Mlambo reviews developments in the settler economy and the emergence of nationalism leading to UDI in 1965 The politics and economics of the UDI period and the subsequent war of liberation are covered by Joesph Mtisi Munyaradzi Nyakudya and Teresa Barnes After independence in 1980 Zimbabwe enjoyed a period of buoyancy and hope James Muzondidya's chapter details the transition from buoyancy to crisis and Brian Raftopoulos concludes the book with an analysis of the decade long crisis and the global political agreement which followed Land Reform Under Structural Adjustment in Zimbabwe Sam Moyo, 2000 This study represents a first systematic effort to document Zimbabwe's new land uses during the years of economic crisis the role of the state in promoting them the differentiation associated with them not only between black and white farmers but also among them and the implications of all these for the political economy of the Zimbabwean land question The fact that some of the new land uses avoid redistribution of clearly under utilised large scale commercial farms suggests that the Zimbabwean land question will remain a live political issue for a long time Zimbabwe's Economy Kenneth Mahuni, James Zivanomoyo, Puruweti Siyakiya, Simba Mutsvangwa, 2025-02-17 This book traces the economic history of Zimbabwe from independence to the present day Through a comprehensive historical examination it highlights the short lived successes in the early years after independence and the dwindling colonial economy as well as the economic problems of the decades that followed The authors identify crucial flaws in the country's economic policies and highlight several dilemmas in the implementation of policies that exacerbated the country's deep seated structural problems. The book
