China and Post-Socialist Development Bolesta, Andrzej,2014-11-19 The re emergence of China as an economic superpower during its systemic transition is an astonishing phenomenon China and Post Socialist Development is the first comprehensive attempt to frame China s advancements within the context of the East Asian developmental miracle against the background of post socialist transformation asking how has it happened and where does China go from here In this book the author argues that as China transits from central planning to market it tries to imitate the institutions and policies of Japan and South Korea during their high growth periods of the second half of the twentieth century China s approach broadly in opposition to the neo liberal doctrine has brought impressive results leading the author to make important predictions about the future This book is for everybody who is interested in China development and post socialist transformation

Transformations in the Brazilian and Korean Processes of Capitalist Development between the Early 1950s and the Mid-2010s: From Global Capital Accumulation to Late Industrialisation Nicolás Grinberg, 2023-10-16

Challenging mainstream nation centred theories of economic development Nicol s Grinberg examines the specificities of capitalist development in Brazil and South Korea by starting from their modes of participation in the international division of labour and hence in the production of surplus value on a global scale Contrary to those theories he does not consider these as resulting simply from the economic policies of nation states and their associated political institutions nor from local class struggle dynamics or geopolitical developments Rather drawing on key insights from Marx s critique of political economy his analysis begins by recognising that the process of capitalist development is global in terms of its economic dynamics and historical trends and national only in its political and institutional forms of realisation State mediated patterns of economic development and institutional change in Brazil and Korea as well as the intra and inter state political processes through which these have come about are then considered mediations in the conformation and reproduction of the nationally differentiated uneven process of capital s valorisation on a global scale

Economic Crisis and Corporate Restructuring in Korea Stephan Haggard, Wonhyuk Lim, Euysung Kim, 2003-02-26 Asian business conglomerates have clearly been successful agents of growth mobilizing capital borrowing technology from abroad and spearheading Asia s exports However these firms have long had a number of organisational and financial weaknesses including heavy reliance on debt that make them vulnerable to shocks Nowhere was this more true than in Korea where the large corporate groups known as chaebol have dominated the economic landscape This collection of essays by leading political scientists and economists provides a comprehensive look at the chaebol problem in the wake of the Asian financial crisis The authors consider the historical evolution of the chaebol and their contribution to the onset of economic turmoil in 1997 The book analyses the government s short run response to corporate and financial distress and outlines an agenda for longer term reform of the financial system corporate governance and the politics of business government relations

Industry Policy in Taiwan and Korea in the 1980s Heather Smith, 2000-01-01 This is a very good piece of research As a book it is important because it focuses on important conceptual and empirical issues namely the role of government and industrial policy in promoting rapid economic growth and particularly the case of Taiwan as an exemplar of rapid industrial development The author convincingly refutes the view that sector specific industrial policy was an important source of Taiwan s rapid industrial growth in the 1980s Hugh T Patrick Columbia University US Dr Smith takes Taiwan and Korea as case studies to address fundamental questions concerning the rapid growth and subsequent financial

crisis in East Asia were the Taiwan and Korean governments interventionist in the 1980s did industry policy play a role in the financial crisis of 1997 1998 Heather Smith has put together a comprehensive discussion of strategic industry policy She analyses at length the fascinating connection between the growth of the chaebol in Korea its links to the government and to the financial sector and the unravelling of the financial crisis in Korea Her analysis throws light on the fundamental strength that Taiwan has shown throughout the crisis These are fascinating and important questions vital to the economics profession and of interest to the enormous contingent of economic commentators following the East Asian crisis Ron Duncan Australian National University Australia The growth in global competitiveness and interdependence has led to an increased interest in the role of industrial policy in achieving economic growth objectives Heather Smith reignites the contentious debate of the role of the state using East Asian economic development in general with particular emphasis on Taiwan and Korea Using quantitative techniques the author analyses the view that industry policy interventions were a necessary factor explaining Taiwan's economic performance in the 1980s

Political Conflict and Development in East Asia and Latin America Richard Boyd, Galjart Benno, Tak-Wing Ngo, 2007-01-24 Long run processes of socio economic change generate prodigious problems of social conflict and social control and governments responsible for these processes must therefore manage the resultant conflict Consequently the success or failure of a government's management of such conflicts is a crucial factor in development outcomes This volume investigates the political struggle for development specifically in two vital regions East Asia and Latin America This analysis calls into question the dominant emphasis on institutional and cultural bases for stable growth A careful historical account of the two regions is presented which permits the rigorous testing of conventional wisdoms regarding development Of importance to a broad range of academics in the spheres of development studies politics political economy and sociology this book will also make an interesting read for those with a general interest in these areas

The Age of Aryamehr Roham Alvandi, 2018-07-15 Fully incorporates Pahlavi Iran into the global history of the 1960s and 70s when Iran mattered far beyond its borders The reign of the last Shah of Iran Mohammad Reza Pahlavi 1941 79 marked the high point of Iran's global interconnectedness Never before had Iranians felt the impact of global political social economic and cultural forces so intimately in their national and daily lives nor had Iranian actors played such an important global role on battlefields barricades and in board rooms far beyond Iran's borders Iranian intellectuals technocrats politicians workers artists and students alike were influenced by the global ideas movements markets and conflicts that they also helped to shape From the launch of the Shah's White Revolution in 1963 to his overthrow in the popular revolution of 1978 79 Iran saw the longest period of sustained economic growth that the country had ever experienced An entire generation took its cue from the shift from oil consumption to oil production to dream of and aspire to a modernized Iran and the history of Iran in this period has tended to be presented as a prologue to the revolution Those histories usually locate the political social and cultural origins of the revolution firmly within a national context into which global actors intruded as

Iranian actors retreated While engaging with that national narrative this volume is concerned with Iran's place in the global history of the 1960s and 70s It examines and highlights the transnational threads that connected Pahlavi Iran to the world from global traffic in modern art and narcotics to the embrace of American social science by Iranian technocrats and the encounter of European intellectuals with the Iranian Revolution
