Macroeconomics Rudiger Dornbusch, Stanley Fischer, Richard Startz, 2014-02-16. Dornbusch, Fischer, and Startz has been a long-standing leading intermediate macroeconomic theory text since its introduction in 1978. This revision retains most of the text's traditional features, including a middle-of-the-road approach and very current research, while updating and simplifying the exposition. A balanced approach explains both the potential and limitations of economic policy. *Macroeconomics* employs a model-based approach to macroeconomic analysis and demonstrates how various models are connected with the goal of giving students the capacity to analyze current economic issues in the context of an economic frame of reference. The only

pre requisite continues to be principles of economics
