Novels and Arguments Zahava Karl McKeon,1982 In this absorbing study the first comprehensive exploration of the rhetoric of the novel Zahava Karl McKeon investigates the complex interrelations of critical poetics grammars dialectics and rhetorics to devise a systematic means of dealing with the structure of prose works as communicative objects Using the vocabulary and conceptual resources of Aristotle and Cicero she pursues this exploration to discover the kinds of arguments

that characterize novels to find a way of distinguishing novels from other discursive wholes and to discriminate different genres of the novel McKeon's arguments are supplemented by readings of a variety of texts including the novels and stories of Gunter Grass John Fowles Robert Coover and Flannery O'Connor The World of Chance; A Novel William Dean Howells, 2025-08-31 Reproduction of the original The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage *The Academy and Literature* Charles Edward Cutts Birch Appleton, Charles Edward Doble, James Sutherland Cotton, Charles Lewis Hind, William Teignmouth Shore, Alfred Bruce Douglas, Ellis Ashmead-Bartlett, Thomas William Hodgson Crosland, 1899 **Centennial Essays on Joseph Conrad's Chance**, 2015-11-24 When Joseph Conrad's novel *Chance* appeared in serial form in the New York Herald in 1912 and in book form in 1914 it established the author's financial security for the first time Following years of struggle to reach a wide audience for his fiction Conrad benefitted from the American marketing of this novel for the women readers of romance Aggressive advertising promoted the writer's new focus on a female protagonist and Conrad's division of the story's location between land and sea The novel proved popular and lucrative Yet in spite of its economic success *Chance* remains one of Conrad's less well known narratives This fresh new collection of essays from both young and established scholars opens up a lively critical debate taking *Chance* beyond the status of best selling romance In a striking re-evaluation of the novel these writers examine *Chance*'s innovative narrative strategies its up to the minute commentary on female politics contemporary ethics as well as its antecedents in classical debate and the significance of Conrad's last use of his seaman narrator Marlow *Chance and the Modern British Novel* Julia Jordan, 2010-06-03 *Chance* and its representation in literature has a long and problematic history It is a vital aspect of the way we experience the world and yet its function is frequently marginalised and downplayed Offering a new reading of the development of the novel during the mid twentieth century Jordan argues that this simple novelistic paradox became more pressing during a period in which chance became a cultural scientific and literary preoccupation through scientific developments such as quantum mechanics and the uncertainty principle the influence of existential philosophy the growth of gambling and the uncertainty provoked by the Second World War In tracing the novel's representation of chance during this crucial period we see both the development of the novel and draw wider conclusions about the relationship between narrative and the contingent the arbitrary and the uncertain While the novel had historically rejected marginalised or undermined chance during this period it becomes a creative and welcome co-contributor to the novel's development as writers such as Samuel Beckett B.S. Johnson Henry Green and Iris Murdoch show **The Last Book** John Williams, 2007-08-27 There have been many attempts to explain life For the most part they are variants on a religious or mystical theme These provide a purpose to life but not the purpose of life A full rational explanation of our existence based on our rapidly accumulating scientific knowledge has eluded us until now The explanation of life which is offered in this book

draws on three main components evolution genetics and psychology However something exists in our mind which stops us from seeing clearly what is already before us Once this block is removed we can view life objectively and see it as a special form of information which has arisen through evolution Information is identified as the unifying entity of the universe which is inherent in the spatial arrangement of matter This book relates these findings to our world and our lives It sets out in rational terms where we came from how we got here and finally reveals our destiny www.thelastbook.co.uk *Genetics and the Novel* Paul Hamann-Rose,2024-03-13 *Genetics and the Novel* Reimagining Life Through Fiction argues that literary fiction has reimagined life in the age of genetics The new genetic paradigm has proposed to rewrite core assumptions about such fundamental aspects of life as the nature of kinship and biological connection human environmental relations or the link between biology and art Investigating major texts of genetic fiction by A S Byatt Ian McEwan Simon Mawer and Margaret Atwood this monograph offers the first systematic study of how these assumptions about life itself have been renegotiated through the contemporary novel s engagement with genetic science This book identifies a significant new phase in the novel s aesthetic exploration of life and demonstrates that the novel emerges as the cultural form uniquely positioned to engage both the imaginative and concrete challenges raised by genetic science for the lifeworlds of the new millennium [The Second Chance Book Club](#) Stephanie Butland,2025-03-27 PRE ORDER NOW THE POIGNANT AND UNFORGETTABLE NEW NOVEL FROM THE AUTHOR OF FOUND IN A BOOKSHOP AND LOST FOR WORDS Dear Ms Blythe We are dealing with an estate of which you may be a beneficiary Please send any documents in your possession that relate to your birth and adoption September is at her wits end There s never enough money to support her boyfriend and herself September has nothing to look forward to Then the letter comes September has inherited a house from a great aunt she never knew she had It would make sense to sell it But when sees the place the orange gate the garden the tree the bumblebee door knocker she doesn t want to let it go Not yet Then the members of the book club arrive and she begins to discover the story of the family she didn t know And to make new friends September feels safe here But money alone can t bring contentment September is just at the start of a journey full of surprises shocks and opportunities if she s brave enough Readers loved FOUND IN A BOOKSHOP Absolutely adored this book my favourite this year I devoured this book in one day as I just couldn t put it down A very touching book heart warming and well written I highly recommend it So assured and gentle full of compassion and replete with astute observations of human nature and behaviour Carys Bray Delightful and original Katie Fforde [Nabokov on the Heights](#) Maxim D., Shraye,2025-04-29 Since 1997 author and scholar Maxim D Shraye has been offering seminars on Vladimir Nabokov the great Russian American immigrant writer at Boston College This volume features essays by undergraduate and graduate students which originated in the Nabokov seminar as well as scholarship by Boston College faculty who work on Nabokov The essays cover a broad thematic and intellectual terrain and showcase cutting edge Nabokov scholarship and criticism The topics include but are not limited to translingualism sexuality Cold War politics food studies
