Modern Masters Of Kyoto The Transformation Of Japanese Painting Traditions:

Modern Masters of Kyoto Michiyo Morioka, Paul Berry, 1999 *Modern Masters of Kyoto* presents more than eighty examples of Kyoto nihonga hanging scrolls screens and an album dating from the 1860s to the 1940s Featuring two exceptionally original artists Tsuji Kako 1870 1931 and his pupil Tomita Keisen 1879 1936 the volume includes works by their predecessors their contemporaries and their successors Collectively their works demonstrate the evolution of Kyoto nihonga in the late nineteenth and early twentieth centuries The book introduces Western readers to a range of Kyoto artists from the most famous to the talented but relatively unknown Their often visually stunning paintings provide a window from which to glimpse both the past and the modern in Japanese art BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *Kyoto Visual Culture in the Early Edo and Meiji Periods* Morgan Pitelka, Alice Y. Tseng, 2016-05-20 The city of Kyoto has undergone radical shifts in its significance as a political and cultural center as a hub of the national bureaucracy as a symbolic and religious center and as a site for the production and display of art However the field of Japanese history and culture lacks a book that considers Kyoto on its own terms as a historic city with a changing identity Examining cultural production in the city of Kyoto in two periods of political transition this book promises to be a major step forward in advancing our knowledge of Kyoto's history and culture Its chapters focus on two periods in Kyoto's history in which the old capital was politically marginalized the early Edo period when the center of power shifted from the old imperial capital to the new warriors capital of Edo and the Meiji period when the imperial court itself was moved to the new modern center of Tokyo The contributors argue that in both periods the response of Kyoto elites emperors courtiers tea masters municipal leaders monks and merchants was artistic production and cultural revival As an artistic cultural and historical study of Japan's most important historic city this book will be invaluable to students and scholars of Japanese history Asian history the Edo and Meiji periods art history visual culture and cultural history Making Modern Japanese-Style Painting Chelsea Foxwell, 2015-07-20 The Western discovery of Japanese paintings at nineteenth century world's fairs and export shops catapulted Japanese art to new levels of international popularity With that popularity however came criticism as Western writers began to lament a perceived end to pure Japanese art and a rise in westernized cultural hybrids The Japanese response nihonga a traditional style of painting that reframed existing techniques to distinguish them from Western artistic conventions Making Modern Japanese Style Painting explores the visual characteristics and social functions of nihonga and traces its relationship to the past its viewers and emerging notions of the modern Japanese state Chelsea Foxwell sheds light on interlinked trends in Japanese nationalist discourse government art policy American and European commentary on Japanese art and the demands of export The seminal artist Kano Hogai 1828 88 is one telling example originally a painter for the shogun his art eventually evolved into novel eerie images meant to satisfy both Japanese and Western audiences Rather than simply absorbing Western approaches nihonga as practiced by Hogai and others broke

with pre Meiji painting even as it worked to neutralize the rupture By arguing that fundamental changes to audience expectations led to the emergence of nihonga a traditional interpretation of Japanese art for a contemporary international market Making Modern Japanese Style Painting offers a fresh look at an important aspect of Japan s development into a modern nation

Faith and Power in Japanese Buddhist Art, 1600-2005 Patricia J. Graham, 2007-09-30 Faith and Power in Japanese Buddhist Art explores the transformation of Buddhism from the premodern to the contemporary era in Japan and the central role its visual culture has played in this transformation Although Buddhism is generally regarded as peripheral to modern Japanese society this book demonstrates otherwise Its chapters elucidate the thread of change over time in the practice of Buddhism as revealed in temple worship halls and other sites of devotion and in imagery representing the religion s most popular deities and religious practices It also introduces the work of modern and contemporary artists who are not generally associated with institutional Buddhism and its canonical visual requirements but whose faith inspires their art The author makes a persuasive argument that the neglect of these materials by scholars results from erroneous presumptions about the aesthetic superiority of early Japanese Buddhist artifacts and an asserted decline in the institutional power of the religion after the sixteenth century She demonstrates that recent works constitute a significant contribution to the history of Japanese art and architecture providing evidence of Buddhism s compelling presence at all levels of Japanese society and its evolution in response to the needs of new generations of supporters

Painting Circles John Szostak, 2017-01-16 Painting Circles addresses the changing professional milieu of artists in early 20th century Japan particularly the development of new social roles and networks and how these factors informed the development of artistic identity The focus of the study is the Nihonga painter Tsuchida Bakusen 1887 1936 who in 1918 founded an exhibition collective the Kokuga Society in response to increasing dissatisfaction with the nation s government sponsored exhibition salon The study examines efforts by Bakusen and company to establish an independent position vis vis the arts establishment by demonstrating their reflexive knowledge of Western modernist art movements on the one hand and on the other by showing their deep commitment to preserving traditional Japanese painting themes media and techniques into the 20th century

Fogel,2013 The modern histories of China and Japan are inexorably intertwined Their relationship is perhaps most obvious in the fields of political economic and military history but it is no less true in cultural and art history Yet the traffic in artistic practices and practitioners between China and Japan remains an understudied field In this volume an international group of scholars investigates Japan's impact on Chinese art from the mid nineteenth century through the 1930s Individual essays address a range of perspectives including the work of individual Chinese and Japanese painters calligraphers and sculptors as well as artistic associations international exhibitions the collotype production of artwork and the emergence of a modern canon *Newsletter, East Asian Art and Archaeology* ,1998 **Printing Landmarks** Robert Goree,2022-03-07 Printing Landmarks tells the story of the late Tokugawa period's most distinctive form of popular geography meisho zue Beginning with the publication of Miyako meisho zue in 1780 these monumental books deployed lovingly detailed illustrations and informative prose to showcase famous places meisho in ways that transcended the limited scope quality and reliability of earlier guidebooks and gazetteers Putting into spellbinding print countless landmarks of cultural significance the makers of meisho zue created an opportunity for readers to experience places located all over the Japanese archipelago In this groundbreaking multidisciplinary study Robert Goree draws on diverse archival and scholarly sources to explore why meisho zue enjoyed widespread and enduring popularity Examining their readership compilation practices illustration techniques cartographic properties ideological import and production networks Goree finds that the appeal of the books far from accidental resulted from specific choices editors and illustrators made about form content and process Spanning the fields of book history travel literature map history and visual culture Printing Landmarks provides a new perspective on

The complex and coherent development of Japanese art during the course of the nineteenth century was inadvertently disrupted by a political event the Meiji Restoration of 1868 Scholars of both the preceding Edo 1615 1868 and the succeeding Meiji 1868 1912 eras have shunned the decades bordering this arbitrary divide thus creating an art historical void that the former view as a period of waning technical and creative inventiveness and the latter as one threatened by Meiji reforms and indiscriminate westernization and modernization Challenging Past and Present to the contrary demonstrates that the period 1840 1890 as seen progressively rather than retrospectively experienced a dramatic transformation in the visual arts which in turn made possible the creative achievements of the twentieth century The first group of chapters takes as its theme the diverse cultural currents of the transitional period particularly as they applied to art The second section deals with the inconsistent yet determinedly pragmatic courses pursued by artists entrepreneurs and patrons to achieve a secure footing in the uncertain terrain of early Meiji Further chapters look at how painters and sculptors sought to absorb and integrate foreign influences and reinterpret their own stylistic mediums Ozu Kathe Geist, 2022-06-28 Based on a close reading of Japanese director Yasujiro Ozu's extant films this book provides insights into the ways the director created narrative structures and used symbolism to construct meaning in his films Against critics insistence that Ozu was indifferent to plot and unlikely to use symbols Geist demonstrates otherwise revealing the director's subtle iconographic paradigms Her incisive understanding of the historical and cultural context in which the films were conceived amplifies her analysis of the films structure and meaning Ozu A Closer Look guides the reader through Ozu's early silent films and his sound films made during Japan's wars in Asia and the subsequent American Occupation then takes up specific themes relevant to his later better known films These themes include religion gender and the influence of traditional Japanese painting Geist also examines the impact that Ozu's films had on specific directors in Europe America and Japan Intended for film scholars students and fans of the director this book provides fresh insights into the director's films and new challenges for those who study him Kathe Geist has woven an elegantly textured tapestry in this illuminating survey of Ozu's films and their endless sense of pattern rhythm and cultural renewal Melding form narrative iconography and context the book traces old and new patterns of meaning and critical debate Alastair Phillips University of Warwick author of the BFI Film Classic on Tokyo Story 2022 Ozu A Closer Look provides one of the most comprehensive and meticulous analyses so far on Ozu Yasujiro With her great attention to small textual details along with intertextual and contextual comparisons Geist achieves a significant reinterpretation of the director's work opening up new possibilities in future Ozu studies Woojeong Joo Nagoya University author of The Cinema of Ozu Yasujiro Histories of the Everyday **Imagined Neighbors** Frank Feltens, 2024-07-30

Welches Bild von China hatten japanische K nstler vom sp ten 17 Jahrhundert als ihr Land sich gegen die Welt abschottete

bis zur Öffnung im Zuge der Modernisierung ab der Mitte des 19. Jahrhunderts. Der Band untersucht vorrangig Darstellungen in der japanischen Malerei vom späten 17. bis zum 20. Jahrhundert, die China als realen Ort ebenso wie als imaginäres gelobtes Land zeigen. In drei Essays renommierter japanischer Kunsthistorikerinnen und über fünfzig Katalogeinträgen zu außergewöhnlichen Werken werden die komplexen Reaktionen der Kunst Japans auf die chinesische Kunstgeschichte und Kultur offenbar. Eine Handvoll wissenschaftlicher Studien hinterfragt in jüngerer Zeit das etablierte Narrativ, das moderne Japan habe sich allein am Westen orientiert. Diese verbreitete Vorstellung von einem ausschließlich westlich inspirierten heutigen Japan thematisiert *Imagined Neighbors*. Mit einem nuancierteren Ansatz bemüht sich der Band, die schwierige Auseinandersetzung zwischen Alt und Neu im Zuge der Neuerfindung des modernen Nationalstaats Japan zu verstehen.

The Politics of Painting Asato Ikeda, 2018-05-31. This book examines a set of paintings produced in Japan during the 1930s and early 1940s that have received little scholarly attention. Asato Ikeda views the work of four prominent artists of the time: Yokoyama Taikan, Yasuda Yukihiko, Uemura Shōen, and Fujita Tsuguharu through the lens of fascism, showing how their seemingly straightforward paintings of Mount Fuji, samurai, beautiful women, and the countryside supported the war by reinforcing a state ideology that justified violence in the name of the country's cultural authenticity. She highlights the politics of apolitical art and challenges the postwar labeling of battle paintings, those depicting scenes of war and combat, as uniquely problematic. Yokoyama Taikan produced countless paintings of Mount Fuji as the embodiment of Japan's national body and spirituality, in contrast to the modern West's individualism and materialism. Yasuda Yukihiko located Japan in the Minamoto warriors of the medieval period, depicting them in the Yamato-e style, which is defined as classically Japanese. Uemura Shōen sought to paint the quintessential Japanese woman, drawing on the Edo-period *bijin-ga* (beautiful women genre) while alluding to *noh* aesthetics and wartime gender expectations. For his subjects, Fujita Tsuguharu looked to the rural snow country, where it was believed authentic Japanese traditions could still be found. Although these artists employed different styles and favored different subjects, each maintained close ties with the state and presented what he considered to be the most representative and authentic portrayal of Japan. Throughout, Ikeda takes into account the changing relationships between visual iconography, artistic style, and its significance by carefully situating artworks within their specific historical and cultural moments. She reveals the global dimensions of wartime nationalist Japanese art and opens up the possibility of dialogue with scholarship on art produced in other countries around the same time, particularly Nazi Germany and Fascist Italy. *The Politics of Painting* will be welcomed by those interested in modern Japanese art and visual culture and war art and fascism. Its analysis of painters and painting within larger currents in intellectual history will attract scholars of modern Japanese and East Asian studies.

In Pursuit of Universalism Alicia Volk, 2010 Volk's impressive study rethinks the East West binary often reiterated in discussions of Japanese modernism by reinserting local aspects into the universalizing tendencies of modernism itself The book makes an important contribution to the growing literature on modern Japanese art history by providing an alternative comparative framework for understanding the global development of modernism that decenters Euro America Rigorously historical in her critique Volk destabilizes our understanding of the Japanese experience of modernity through the prism of Yorozu's singular vision of the self leaving us questioning conventional wisdom and contented to wobble Gennifer Weisenfeld Duke University In Volk's affectingly stunning and deeply reflective study of the Japanese artist Yorozu Tetsugor's work between 1910-1930 we have a profoundly historical reminder of how modernism everywhere struggled to meet the demands of the new with the readymades of received artistic practices In this study of Yorozu's utopian universalist project Volk has imaginatively broadened our understanding of the modernist moment and perceptively captured its global program to unify art and life contemporary culture and history Harry Harootyan author of *Overcome by Modernity: History, Culture, and Community in Interwar Japan*

East Asian Art History in a Transnational Context Eriko Tomizawa-Kay, Toshio Watanabe, 2019-03-29 This is the first comprehensive English language study of East Asian art history in a transnational context and challenges the existing geographic temporal and generic paradigms that currently frame the art history of East Asia This pioneering study proposes an important new framework that focuses on the relationship between China Japan and Korea By reconsidering existing concepts of East Asia and examining the porousness of boundaries in East Asian art history the study proposes a new model for understanding trans local artistic production in particular the mechanics of interactions at the turn of the 20th century

Japanese Painting and National Identity Victoria Weston, 2004 This is the first monograph in English to address the art and philosophy of a group of painters regarded as seminal figures in the development of modern Japanese painting Led by the outspoken and widely published art critic Okakura Tenshin a group of mostly Tokyo based painters took on nothing less than the modernization of traditional Japanese painting The painters who looked to Okakura Tenshin as their leader saw themselves not just as artists but as servants of the nation Their task they believed was to give expression to the vitality of Meiji Japan while also helping to shape public opinion at home and abroad Thus they chose themes purposefully redolent with what they identified as Japanese cultural values they experimented with painting techniques based on tradition yet
