Mosquito The Wooden Wonder:

The Mosquito in the USAAF Tony Fairbairn, 2021-12-22 This history of the US s British aircraft acquisition examines the role the USSAF played in reconnaissance special operations and night fighting Air Space Power History On 20 April 1941 a group of distinguished Americans visited the de Havilland Aircraft Company s airfield at Hatfield England The party was there ostensibly to gain an insight into how various US aircraft supplied to Britain were performing as well as to observe some of the latest British products being put through their paces The eighteen types on display included both US and British bombers and fighters But the star of the day was undoubtedly the de Havilland Mosquito Having first flown only a few months earlier the aircraft was demonstrated by none other than Geoffrey de Havilland Striving to impress the trans Atlantic visitors de Havilland provided an outstanding display of speed and manoeuvrability It was a routine that left the Americans in no doubt as to the Mosquito s abilities Following America s entry into WWII formal requests for Mosquitoes began in earnest A steady flow of the photographic reconnaissance version were provided to what would become the USAAF s 25th Bomb Group at Watton England There they served with distinction in a variety of specialist roles A number of these Mosquitoes served with the 492nd Bomb Group at Harrington and were involved in the so called Joan Eleanor project Finally in 1945 the USAAF received much anticipated night fighter Mosquitoes which enjoyed combat success with the 416th Night Fighter Squadron in Italy In this highly illustrated work the author explores the full story of why the Americans wanted Mosquitoes how they went about obtaining them and their noted success and popularity with USAAF units

Mosquito Edward Bishop, 1995 *Mosquito*, 2009 **Mosquito Mayhem** Martin W. Bowman, 2010-11-20 This is the book that puts the flesh on the bones of its reputation as one of the best aircraft of the Second World War Pennant Magazine The flak started about four or five minutes before the target and immediately it was apparent that it was intense and extremely accurate Oboe entailed the pilot flying dead straight and level for ten minutes on the attack run Suddenly a tremendous flash lit up the sky about 50 yards ahead of our nose and exactly at our altitude Within a tenth of a second we were through the cloud of dirty yellowish brown smoke and into the blackness beyond I shall never forget the spontaneous reaction of both my pilot and myself We turned our heads slowly and looked long and deep into one another s eyes no word was spoken no words were needed The Mosquito was probably World War II s most versatile combat aircraft This book contains hundreds of firsthand accounts from many of the two man crews who flew in them pilots and navigators It portrays the dramatic experiences of flying in its many roles as pathfinder night fighter reconnaissance aircraft precision bombing and low level ground attack aircraft It describes many of the RAF s most audacious raids on prime but difficult targets where carpet bombing by heavy bombers was likely to be ineffective and cause unnecessary casualties to civilians It is a remarkable record of the aircraft and the men that flew them **Mosquito: Wooden Wonder** Edward Bishop, 1971 **The wooden wonder ; the story of the De Havilland Mosquito** Edward Bishop, **Mosquito!** Joseph Holliday, 1970 **Mosquito Pathfinder** Steve

Crump, 2025-11-30 Bomber Command faced mounting challenges as poor bombing results and heavy losses strained aircrews to their limits. The formation of the Pathfinders Force marked a turning point introducing improved methods for finding and marking targets. The Mosquito adopted by the Pathfinders played a critical role in this evolution. Steve Crump's interest in 139 Squadron's Mosquito DZ477 began in the 1990s when he discovered it had crashed near his home in Hereford during a 1944 training exercise. His investigation unearthed the aircraft's remarkable history over 60 operational missions involvement in low level target marking and connections to 617 Squadron the iconic Dambusters. Drawing from local memories, official records and firsthand accounts, Crump paints a vivid picture of the challenges faced by the men of 139 and later 627 Squadrons. These elite crews bore immense responsibility leading missions over heavily defended skies to mark targets in Nazi territory. Their precision became even more critical during operations in France where minimizing civilian casualties added complexity. DZ477's story encapsulates the broader narrative of Bomber Command's evolving strategies and the heroism of its crews. Crump's account, enriched by unpublished photographs and combat records, honors the extraordinary efforts of those who flew and fought under extreme pressure to ensure mission success. **De Havilland**

Mosquito Jonathan Falconer, Brian Rivas, 2013-11-01 Nicknamed the wooden wonder, the de Havilland Mosquito was one of the most versatile and successful combat aircraft of the Second World War. Offering insights into the design, construction and operational career of the iconic Mossie, this manual gets under the aircraft's birch and balsa skin to examine its anatomy and describe the painstaking restoration to flight by Avspecs New Zealand of Jerry Yagen's FB26 KA114 and of Victoria Air Maintenance's B35 VR796 in British Columbia, Canada.
