GENDER SIEVE Dr. Chaitali Pal, 2021-09-11 This book is an attempt to understand the conditions of the urban women workforce in India how it varies across regions and how the determinants of women's work influence her varying responses in different regions and urban spatial scales A very important sub theme that is running throughout the book is to examine the linkages and the nature of relationships between urban women's workforce and city size changes especially in the megacities of India Content Women Workers in Urban India An Introduction Kaleidoscopic Connections of Women's Workforce in Urban India Despite Cultural Monolith Effect of Entrenched Cultural Supremacy on Women's Workforce a Case Study of Uttar Pradesh Cultural Drivers of Regional Differences in Indian Workforce Urban Centre Hierarchy and Diverging Workforce trends Megalopolitan Employment and Persistence of Gender Divides Urban Women Workforce in Contemporary India Conclusive Suggestions and Future Implications **Still Straight** Tony Silva, 2021-03-23 Why some straight men have sex with other men Why do some straight men in rural America have sex with other men In *Still Straight* Tony Silva convincingly argues that these men many of whom enjoy hunting fishing and shooting guns are not gay bisexual or just experimenting As he shows these men can enjoy a range of relationships with other men from hookups to sexual friendships to secretive loving partnerships all while strongly identifying with straight culture Drawing on riveting interviews with straight white men who live in rural America Silva explores the fascinating and unexpected disconnect between sexual behavior and identity Some use sex with men to bond with other men in an acceptably masculine way some are not particularly attracted to men but are wary of emotional attachment with women and others view sex with men as opposed to women as a more acceptable form of extramarital sexual behavior Taking us inside the lives of straight white men who have sex with other men *Still Straight* shows us that heterosexuality in rural America is not always in fact what it seems

Women and Work in Globalizing Asia Dong-Sook S. Gills, Nicola Piper, 2003-08-29 This book sheds light on the real experiences of women in different societies exploring the impact of globalization through the changing nature of the labour

of women A comprehensive survey of women and work is provided by using case studies and empirical data collected from throughout Asia and also includes an analysis of Asian immigrants working in the US This book is an invaluable resource accessible to both undergraduate and postgraduate students of women s studies labour relations international political economy and Asian studies Widowhood in an American City Helena Lopata,2017-09-29 Widowhood in an American City focuses on the roles and lifestyles of urban American widows fifty years of age or older These women form a segment of two generations of one society they present a historical instance of people born and brought up under conditions that are not likely to be duplicated Not only the U S but many other countries are undergoing modifications in the degrees and forms of urbanization industrialization and social complexity Helena Znaniecki Lopata argues that the way women re engage society following the death of a husband is different due to their location in the modern social system She notes that the trends in social structure are toward increasingly voluntaristic engagement in achieved functionally oriented social roles that are performed in large groups and contain secondary social relations The cultural background of many societal members prevents the utilization of most resources of the complex urban world restricting them to a small social life space with almost automatically prescribed social relations Those who argue that the elderly are socially isolated contend that this is a result of the natural process of withdrawal of the person and the society from each other These arguments focus on those who are isolated or lonely and those who lack the skills money health and transportation for engaging or re engaging society Lopata s study indicates that this assumption is false for many widows If such people are to be helped a fresh view of the relation between the urban industrial and complex modern world and its residents is required and new action programs must be creatively developed This is a timely ground breaking work that addresses and shatters common myths associated with growing old alone in an urban society **Parliamentary Papers** Great Britain.
