Ancient Mesopotamian Materials and Industries Peter Roger Stuart Moorey,1999 This is the first systematic attempt to survey in detail the archaeological evidence for the crafts and craftsmanship of the Sumerians Babylonians and Assyrians in ancient Mesopotamia covering the period ca 8000 300 B C E As creators of some of the earliest farming and urban communities known to us these people were among the first pioneers of many crafts and skills that remain fundamental to modern ways of life Many of the raw materials for crafts had to be imported from outside the river valley of the Tigris and Euphrates providing an unusually sensitive indicator of the commercial and cultural contacts of Mesopotamia In this book Dr Moorey reviews briefly the textual evidence and then goes on to examine in detail the material evidence for a wide range of crafts using stones both common and ornamental animal products from hippopotamus ivory to ostrich egg shells ceramics glazed materials and glass metals and building materials With a comprehensive bibliography this will be a key work of reference for archaeologists and those interested in the early history of crafts and technology as well as for specialist historians of the ancient Near East

Yotvata Lily Singer-Avitz,Etan Ayalon,2023-01-03 This book presents the final report of the excavations at Yotvata the largest oasis in the Arabah Valley conducted by the Sonia and Marco Nadler Institute of Archaeology of Tel Aviv University in 1974 1980 under the direction of Dr Ze'ev Meshel The report covers two central sites a fortified Iron I site and an Early Islamic settlement The Iron I remains consist of an irregular casemate wall surrounding a courtyard The location of this site suggests that the settlement was established in order to protect the water sources and to overlook and supervise the nearby crossroads Based on the relative proximity of the site to Timna it may be concluded that the oasis formed the main source of water and wood for the population involved in copper production in that region The rich finds uncovered at the Early Islamic settlement including a large courtyard building and a nearby bathhouse among other structures point to habitation from the end of the seventh to the early ninth century CE The proximity of the settlement to a sophisticated irrigation system qanat and the administrative economic ostraca discovered at the site suggest that it served as the center of an agricultural estate owned by an elite Muslim family Among the unique finds is a large assemblage of locally produced handmade pottery which is thoroughly studied here The findings from the excavations at the Yotvata oasis have made a major contribution to the study of Early Islamic settlement and material culture in the greater Arabah region and beyond

**Raphael's Ostrich** Una Roman D'Elia,2016-04-27 Raphael's Ostrich begins with a little studied aspect of Raphael's painting the ostrich which appears as an attribute of Justice painted in the Sala di Costantino in the Vatican Una Roman D'Elia traces the cultural and artistic history of the ostrich from its appearances in ancient Egyptian hieroglyphs to the menageries and grotesque ornaments of sixteenth century Italy Following the complex history of shifting interpretations given to the ostrich in scientific literary religious poetic and satirical texts and images D'Elia demonstrates the rich variety of ways in which people made sense of this living monster which was depicted as the embodiment of heresy stupidity perseverance justice fortune gluttony and other virtues and vices Because Raphael was revered as a god of art artists imitated and competed with his ostrich while religious and cultural critics complained about the potential for misinterpreting such obscure imagery This book not only considers the history of the ostrich but also explores how Raphael's painting forced viewers to question how meaning is attributed to the natural world a debate of central importance in early modern Europe at a time when the disciplines of modern art history and natural history were developing The strangeness of Raphael's ostrich situated at the crossroads of art religion myth and natural history both reveals lesser known sides of Raphael's painting and illuminates major cultural shifts in attitudes toward nature and images in the Renaissance More than simply an examination of a single artist or a single subject Raphael's Ostrich offers an accessible erudite and charming alternative to Vasari's pervasive model of the history of sixteenth century Italian art      **The Great Mosque of Damascus** Finbarr Flood,2021-07-26 The celebrated Great Mosque of Damascus was built in the early eighth century by the Umayyad caliph al Walid b Abd al Malik This book provides a detailed study of this Mosque Using textual visual and archaeological evidence the author attempts to reconstruct some of the basic formal and decorative features of the Umayyad mosque to locate it within its broader urban context and to consider its role within al Walid's unprecedented programme of architectural patronage The work explores the intracultural and intercultural functions of religious architecture within an official visual discourse intended to project a distinctive Muslim identity in a manner determined by Umayyad political aspirations It will be of particular interest to those concerned with the relationship between the Umayyad caliphate and Byzantium      **The Princeton Theological Review** ,1926 Includes section Reviews of recent literature      The Not Terribly Good Book of Heroic Failures Stephen Pile,2012-10-04 Last year Stephen Pile attempted to deliver a daring blow to the success ethic that so pervades Western culture To his dismay The Ultimate Book of Heroic Failures sold many copies and even became the Sunday Times Humour Book of the Year Nothing daunted Stephen returns

with a new selection which brings together the very best of his original classic titles *The Book of Heroic Failures* and *The Return of Heroic Failures* The heartwarming news that stays news is that there really is no limit to what humanity can achieve as we move onwards and downwards to ever more immortal and breathtaking feats of incompetence *The Not Terribly Good Book of Heroic Failures* lovingly chronicles the all time heroes who have been so bad at things that they shine as beacons for future generations It is hard not to feel boundless admiration for example for the fifty Mexican convicts who dug an escape tunnel out of their jail and came up in the courtroom where many of them had been sentenced Or for the world s worst tourist who spent three days in New York believing he was in Rome
