The Russian State and Russian Energy Companies, 1992-2018 Ingerid M. Opdahl, 2020-06-09 The Russian State and Russian Energy Companies analyses the development of relations between the state and five major energy companies and how this shaped Russia's foreign policy in the post Soviet region The book argues that the development of Russia's political economy mattered for foreign policy over the quarter of a century from 1992 to 2018 Energy companies' roles in institutional development enabled them to influence foreign policy formation and they became available as tools to implement foreign policy The extent to which it happened for each company varied with their accessibility to the Russian state Institutional development increased state capacity in a way that strengthened Russia's political regime The book shows how the combined power of several companies in the gas oil electricity and nuclear energy industry was a key feature of Russian foreign policy both in bilateral relationships and in support of Russia's regional position In this way Russia's energy resources were converted to regional influence The book contributes to our understanding of Russia's political economy and its influence on foreign policy and of the formation of policy towards post Soviet states

Business in Post-Communist Russia Mikhail Glazunov, 2013-12-04 It is a widely held idea that Russia has completed its revolution which brought down the Soviet economy and that many companies after privatisation work as typical western companies Another belief is that Russia has adopted a market economy but then reverted to authoritarianism With these two ideas in mind this book discusses the suggestion that the key element of post Soviet economic and political reforms in the last two decades was the redistribution of assets from the state to oligarchs and the new elite It looks at why most Russian companies could not achieve strong long run corporate performance by analysing in detail a range of different Russian companies The book is a useful tool for understanding the future prospects for Russian business

destabilized Russia **Problems of Economic Transition** ,2007-05 **The Conundrum of Russian Capitalism** Ruslan Dzarasov,2013-12-06 The fall of the Soviet Union and the emergence of contemporary Russian capitalism are often all too often read as a juncture with the past In reality Russia s current capitalist system originated in the degenerated Soviet bureaucracy alongside the pressures of global capital From Roman Abramovich to Leonid Mikhelson the reign of the CEO in Russia corporations mirrors the autocracy of the Soviet Union s leaders the Russian tradition of the Cult of Personality lives on The conception of the massive corporations and the autocrats that lead them occurred towards the end of the Soviet Union when the would be owners seized corporate assets and taking advantage of Gorbachev s reforms transformed publicly owned industry into private enterprises with themselves at the helm By comparing the practices of Russian corporate governance labour practices and investment strategies to the typical models of corporate governance and investment behaviour of big firms in the West Ruslan Dzarasov exposes the parallels between the core and the periphery of the capitalist world system Drawing on the theory of Leon Trotsky as well as Immanuel Wallerstein and Robert Brenner this study disrupts many of the myths about Russia s political economy **Rethinking Missio Dei among Evangelical Churches in an Eastern European Orthodox Context** Vladimir Ubeivolt,2016-09-30 Following a paradigm shift in his own personal understanding of mission Vladimir Ubeivolt proposes the adoption of mission principles based on missio Dei to meet the social and spiritual needs of people in Moldova Biblically grounded and insightful the lessons to be learned from this book apply far beyond Eastern Europe Dr Ubeivolt uses his knowledge from six years of research twenty years of pastoral ministry and a lifetime of experience to summarize the landscape of the Moldovan Evangelical and Orthodox churches and their historical approaches to mission His evaluation emphasizes the need for a biblical foundation to mission for Eastern European Evangelical churches This book s message is a timely scholarly reminder of the need to pursue holistic mission if the church of Jesus Christ is to be an authentic and effective vessel to bring transformation to people s lives and society

Revolution and Transition Alexandar Alexandrov,2016 For anyone interested in finding out about Bulgarian cultural policy but is unfamiliar with the processes in the country the entire period from 1995 to 2012 remains utterly inaccessible The relationship between democracy and culture is a central topic of this book History shows that in times of crisis culture is pushed down the list of priorities In such cases stabilizing the economy takes precedence over cultural reforms In Bulgaria this dilemma led to considerable losses in the cultural sector The author Alexander Alexandrov is very familiar with this sector He develops and carries out successful large and small scale cultural projects as well as theater and musical productions Series Miscellanea Bulgarica Vol 24 Subject Politics Bulgarian Studies Cultural Studies **Revolution, Repression, and Revival** Zvi Gitelman,Yaacov Ro'i,2007-11-06 Revolution Repression and Revival enhances our understanding of the Russian Jewish past by bringing together some of the latest thinking by the leading scholars from the former Soviet Union Israel and the United States The book explains the contradictions ambiguities and anomalies of the

Russian Jewish story and helps us understand one of the most complex and unsettled chapters in modern Jewish history

Post-Soviet Political Order Barnett Rubin, Jack Snyder, 2002-11-01 *Post Soviet Political Order* asks what is shaping the institutional pattern of the post Soviet political order what the new order will be like what patterns of conflict are emerging and what can be done about stabilising the region In considering these questions the contributors converge on four common themes the institutional legacy of empire the social processes unleashed by imperial collapse patterns of bargaining within and between states to resolve conflicts arising out of the imperial collapse the impact of the wider international setting on the pattern of post imperial politics Focusing on the former Soviet Union and Eastern European countries the contributors show how strong state institutions are essential if conflict and political instability are to be avoided *Environment and Planning*, 2009 *Marine Fisheries Review*, 2005 **Science in the New Russia** Loren R. Graham, Irina

Dezhina, 2008-05-28 This analysis of Russian science shows how the Russian science establishment was one of the largest in the world boasting a world leading space programme and Nobel prizes However when the Soviet Union collapsed in 1991 the financial supports for the community were eliminated resulting in a brain drain **Russia as a Great Power** Jakob

Hedenskog, Vilhelm Konnander, Bertil Nygren, Ingmar Oldberg, Christer Pursiainen, 2013-07-04 After a period of relative weakness and isolation during most of the 1990s Russia is again appearing as a major security player in world politics This book provides a comprehensive assessment of Russia's current security situation addressing such questions as What kind of player is Russia in the field of security What is the essence of its security policy What are the sources capabilities and priorities of its security policy What are the prospects for the future One important conclusion to emerge is that while Russian foreign policy under Putin has become more pragmatic and responsive to both problems and opportunities the growing lack of checks and balances in domestic politics makes political integration with the West difficult and gives the president great freedom in applying Russia's growing power abroad **The Politics of HIV/AIDS in Russia** Ulla

Pape, 2013-10-01 This book studies the role of civil society organisations in the fight against HIV AIDS in Russia It looks at how Russia's HIV AIDS epidemic has developed into a serious social economic and political problem and how according to the United Nations Programme on HIV AIDS UNAIDS Russia is currently facing the biggest HIV AIDS epidemic in all of Europe with an estimated number of 980 000 people living with HIV in 2009 The book investigates civil society organisations contribution to social change and civil society development in post Soviet Russia and thus situates a specific type of civil society actors into a broader socio political context and questions their ability to represent civic interests particularly in the field of social policy making and health This allows for a better understanding of the dynamics of state society relations in present day Russia and gives insight into the ways HIV AIDS NGOs in Russia have used transnational ties in order to exert influence on domestic policy making in the field of HIV AIDS *The Red Riviera* Kristen Ghodsee, 2005-11-02 This compelling ethnography of women working in Bulgaria's popular sea and ski resorts challenges the idea that women have

consistently fared worse than men in Eastern Europe's transition from socialism to a market economy. For decades, western European tourists have flocked to Bulgaria's beautiful beaches and mountains; tourism is today one of the few successful and expanding sectors of the country's economy. Even at the highest levels of management, employment in the tourism industry has long been dominated by women. Kristen Ghodsee explains why this is and how women working in the industry have successfully negotiated their way through Bulgaria's capitalist transformation while the fortunes of most of the population have plummeted. She highlights how prior to 1989 the communist planners sought to create full employment for all at the same time that they steered women into the service sector. The women given jobs in tourism obtained higher educations, foreign language skills, and experiences working with Westerners, all of which positioned them to take advantage of the institutional changes eventually brought about by privatization. Interspersed throughout *The Red Riviera* are vivid examinations of the lives of Bulgarian women, including a waitress, a tour operator, a chef, a maid, a receptionist, and a travel agent. Through these women's stories, Ghodsee describes their employment prior to 1989 and after. She considers the postsocialist forces that have shaped the tourist industry over the past fifteen years, the emergence of a new democratic state, the small but increasing interest of foreign investors and transnational corporations, and the proliferation of NGOs. Ghodsee suggests that many of the NGOs, by insisting that Bulgarian women are necessarily disenfranchised, ignore their significant professional successes.

A Construction History of Sitka, Alaska, as Documented in the Records of the Russian-American Company Katherine L. Arndt, Richard Austin Pierce, 2003 **Red Leviathan** Ryan Tucker Jones, 2022-05-30. A revealing and authoritative history that shows how Soviet whalers secretly helped nearly destroy endangered whale populations while also contributing to the scientific understanding necessary for these creatures' salvation. The Soviet Union killed over six hundred thousand whales in the twentieth century, many of them illegally and secretly. That catch helped bring many whale species to near extinction by the 1970s, and the impacts of this loss of life still ripple through today's oceans. In this new account based on formerly secret Soviet archives and interviews with ex-whalers, environmental historian Ryan Tucker Jones offers a complete history of the role the Soviet Union played in the whales' destruction. As other countries, especially the United States, Great Britain, Japan, and Norway, expanded their pursuit of whales to all corners of the globe, Stalin determined that the Soviet Union needed to join the hunt. What followed was a spectacularly prodigious and often wasteful destruction of humpback, fin, sei, right, and sperm whales in the Antarctic and the North Pacific, done in knowing violation of the International Whaling Commission's rules. Cold War intrigue encouraged this destruction, but as Jones shows, there is a more complex history behind this tragic Soviet experiment. Jones compellingly describes the ultimate scientific irony: today's cetacean studies benefited from Soviet whaling, as Russian scientists on whaling vessels made key breakthroughs in understanding whale natural history and behavior. And in a final twist, *Red Leviathan* reveals how the Soviet public began turning against their own country's whaling industry, working in parallel with Western environmental

organizations like Greenpeace to help end industrial whaling not long before the world's whales might have disappeared altogether

The Price of Aid David C. Engerman, 2018-02-19 This study of US and Soviet aid efforts in India during the Cold War makes a major contribution towards a necessary discussion of the politics of aid Times Higher Education Debates over foreign aid are often strangely ahistorical Economists argue about how to make aid work while critics bemoan money wasted on corruption ignoring the fundamentally political character of aid The Price of Aid turns the standard debate on its head By exposing the geopolitical calculus underpinning development assistance it also exposes its costs India stood at the center of American and Soviet aid competition throughout the Cold War as both superpowers saw developmental aid as a way of pursuing their geopolitical goals by economic means Drawing on recently declassified files from seven countries David Engerman shows how Indian leaders used Cold War competition to win battles at home eroding the Indian state in the process As China spends freely in Africa the political stakes of foreign aid are rising once again A superb field changing book A true classic Sunil Amrith
