Through the Pillars of Herakles Duane W. Roller,2013-01-11 In this first study of the Greek and Roman exploration for over half a century Duane W Roller presents an important examination of the impact of the Greeks and Romans on the world through the Pillars of Herakles and beyond the Mediterranean Roller chronicles a detailed account of the series of explorers who were to discover the entire Atlantic coast north to Iceland Scandinavia and the Baltic and south into the Africa tropics His account examines these early pioneers and their discoveries and contributes a brand new chapter to the history of exploration Based not only on the literary evidence but also personal knowledge of the areas from the Arctic to west Africa the book looks at the people from the earliest Greeks through the Carthaginians to the Romans and examines their exploration of this vast and largely unfamiliar territory Discussing for the first time the relevance of Iceland and the Arctic to

Greco Roman culture this groundbreaking work is an enthralling and informative read that will be an invaluable study resource for Greek and Roman history courses

Beneath Another Sky Norman Davies, 2017-12-07 He writes history like nobody else He thinks like nobody else He sees the world as a whole with its limitless fund of stories Bryan Appleyard Sunday Times Where have the people in any particular place actually come from What are the historical complexities in any particular place This evocative historical journey around the world shows us Human history is a tale not just of constant change but equally of perpetual locomotion writes Norman Davies Throughout the ages men and women have endlessly sought the greener side of the hill Their migrations collisions conquests and interactions have given rise to the spectacular profusion of cultures races languages and politics that now proliferates on every continent This incessant restlessness inspired Davies's own After decades of writing about European history and like Tennyson's ageing Ulysses longing for one last adventure he embarked upon an extended journey that took him right round the world to a score of hitherto unfamiliar countries His aims were to test his powers of observation and to revel in the exotic but equally to encounter history in a new way Beneath Another Sky is partly a historian's travelogue partly a highly engaging exploration of events and personalities that have fashioned today's world and entirely sui generis Davies's circumnavigation takes him to Baku the Emirates India Malaysia Mauritius Tasmania Tahiti Texas Madeira and many places in between At every stop he not only describes the current scene but also excavates the layers of accumulated experience that underpin the present He tramps round ancient temples and weird museums summarises the complexity of Indian castes Austronesian languages and Pacific explorations delves into the fate of indigenous peoples and of a missing Malaysian airliner reflects on cultural conflict in Cornwall uncovers the Nazi origins of Frankfurt airport and lectures on imperialism in a desert oasis Everything has its history he writes including the history of finding one's way or of getting lost The personality of the author comes across strongly wry romantic occasionally grumpy but with an endless curiosity and appetite for knowledge As always Norman Davies watches the historical horizon as well as what is close at hand and brilliantly complicates our view of the past

Birds of the UK Overseas Territories Roger Riddington, 2020-07-23 An

authoritative guide to birds of the UK Overseas Territories The UK Overseas Territories UKOTs are scattered across the globe Most are small islands or island complexes occurring from the Caribbean to the furthest reaches of the South Atlantic via the Indian and Pacific Oceans In terms of global biodiversity these territories are remarkably significant Among landscapes that range from coral atolls through mangroves and dry forests to the ice sheets of Antarctica the UKOTs support no fewer than 45 species of birds currently considered to be globally threatened They are also home to a third of all the world's breeding albatrosses and nine of the world's 17 species of penguin In a rapidly changing world the UKOTs symbolise global crises in climate and biodiversity Threats faced by their wildlife range from mortality of seabirds at sea through industrial fisheries and on land as a result of introduced ground predators to the utter devastation of hurricanes in the Caribbean which provide a stark reminder of our changing climate The human impact on the wildlife of our planet has been increasing for centuries but the next few decades promise to be critical This book illustrated with maps and colour photos explores the birds and other wildlife of each of the 14 UKOTs with a particular focus on environmental threats and conservation priorities Written by authors with a deep connection to the sites this book represents an important stocktake of the biological richness of these special places in the early 21st century

Outer Hebrides Mark Rowe, 2025-06-19 This new thoroughly updated third edition of Bradt's *Outer Hebrides* is the only up to date guidebook to focus solely on Scotland's Western Isles the islands of Lewis Harris St Kilda Berneray North Uist Benbecula South Uist Eriskay Barra and Vatersay Informed and intimate this guidebook is ideal for people who travel with curious minds to discover places of great cultural historical and wildlife interest The Outer Hebrides is an archipelago of 15 inhabited islands and more than 50 others that are free of human footprint It is perfect for a staycation where you can get off the beaten track switching off from the modern world Huge variations in landscape are found across the islands from Lewisian gneiss which dates back almost three billion years to rugged Harris with its magnificent almost unbroken sands running down its western flanks and the undulating flatness and jagged sea lochs of the Uists Here Gaelic is increasingly spoken driven both by a strong sense of regional identity but also unexpectedly boosted by commitment from many incomers Ancient monuments abound from enigmatic 2 000 year old brochs to Tobha Mor the earliest Christian site on the Outer Hebrides Here too are the Standing Stones of Callanish where a vibrant new visitor centre opens in 2025 and the Uig peninsula where the Lewis Chessmen were uncovered nearly 200 years ago Nature lovers can watch stunning seabird colonies birds of prey seals and red deer or become absorbed in the machair grassy coastal zones that are transformed into glorious carpets of wildflowers in late spring and summer Walkers have an impressive choice of routes while cyclists can enjoy the new Hebridean Way cycle trail Alongside providing all the practical details you could ever need experienced journalist Mark Rowe contextualises your visit with detailed and enlightening background information from geography and geology to art and architecture via extensive coverage of wildlife New elements of this third edition include advice on camping and campervanning a round up of deserted villages and first malt whisky
