*The Art of Symbolic Resistance* Joanne N. Smith Finley, 2013-09-12 Against the background of the 2009 riots July 2009 this book provides a longitudinal study of contemporary Uyghur identities and Uyghur Han relations Previous studies considered China s Uyghurs from the perspective of the majority Han state or people Conversely *The Art of Symbolic Resistance* considers Uyghur identities from a local perspective based on interviews

conducted with group members over nearly twenty years Smith Finley rejects assertions that the Uyghur ethnic group is a creation of the Chinese state suggesting that contemporary Uyghur identities involve a complex interplay between long standing intra group socio cultural commonalities and a more recently evolved sense of common enmity towards the Han This book advances the discipline in three senses from a focus on sporadic violent opposition to one on everyday symbolic resistance from state to local representations and from a conceptualisation of Uyghurs as victim to one of creative agent

**Chieftains into Ancestors** David Faure, Ts'ui-p'ing Ho, 2013-03-12 Chinese history has always been written from a centrist viewpoint largely ignoring the local histories that were preserved for generations in the form of oral tradition through myths legends and religious ritual Chieftains into Ancestors describes the intersection of imperial administration and chieftain dominated local culture Observing local rituals against the backdrop of extant written records it focuses on examples from the southwestern Hunan Guangxi Yunnan and southwestern Guangdong provinces The authors contemplate the crucial question of how one can begin to write the history of a conquered people whose past has been largely wiped out Combining anthropological fieldwork with historical textual analysis they dig deep for the indigenous voice as they build a new history of China's southwestern region one that recognizes the ethnic religious and gendered transformations that took place in China's nation building process

**The Oxford Handbook of Chinese Cinemas** Carlos Rojas, Eileen Chow, 2013-04-25 What does it mean for a cinematic work to be Chinese Does it refer specifically to a work's subject or does it also reflect considerations of language ethnicity nationality ideology or political orientation Such questions make any single approach to a vast field like Chinese cinema difficult at best Accordingly The Oxford Handbook of Chinese Cinemas situates the term more broadly among various different phases genres and distinct national configurations while taking care to address the consequences of grouping together so many disparate histories under a single banner Offering both a platform for cross disciplinary dialogue and a mapping of Chinese cinema as an expanded field this Handbook presents thirty three essays by leading researchers and scholars intent on yielding new insights and new analyses using three different methodologies Chapters in Part I investigate the historical periodizations of the field through changing notions of national and political identity all the way from the industry's beginnings in the 1920s up to its current forms in contemporary Hong Kong Taiwan and the global diaspora Chapters in Part II feature studies centered on the field's taxonomical formalities including such topics as the role of the Chinese opera in technological innovation the political logic of the Maoist film and the psychoanalytic formula of the kung fu action film Finally in Part III focus is given to the structural elements that comprise a work's production distribution and reception to reveal the broader cinematic apparatuses within which these works are positioned Taken together the multipronged approach supports a wider platform beyond the geopolitical and linguistic limitations in existing scholarship Expertly edited to illustrate a representative set of up to date topics and approaches The Oxford Handbook of Chinese Cinemas provides a vital addition to a burgeoning field still in its formative stages

Litzinger, 2016-08-04 Even as China is central to the contemporary global economy its socialist past continues to shape its capitalist present This volume s contributors see contemporary China as haunted by the promises of capitalism the institutional legacy of the Maoist regime and the spirit of Marxist resistance China s development does not result from historical imperatives or deliberate economic strategies but from the effects of discrete practices the contributors call protocols which stem from an overlapping mix of socialist and capitalist institutional strategies political procedures legal regulations religious rituals and everyday practices Analyzing the process of urbanization and the ways marginalized communities and migrant workers are positioned in relation to the transforming social landscape the contributors show how these protocols constitute the Chinese national imaginary while opening spaces for new emancipatory possibilities Offering a nuanced theory of contemporary China s hybrid political economy Ghost Protocol situates China s development at the juncture between the world as experienced and the world as imagined Contributors Yomi Braester Alexander Des Forges Kabzung Rachel Leng Ralph A Litzinger Lisa Rofel Carlos Rojas Bryan Tilt Robin Visser Biao Xiang Emily T Yeh

**Qing Colonial Enterprise** Laura Hostetler, 2005-12-15 In Qing Colonial Enterprise Laura Hostetler shows how Qing China 1636 1911 used cartography and ethnography to pursue its imperial ambitions She argues that far from being on the periphery of

developments in the early modern period Qing China both participated in and helped shape the new emphasis on empirical scientific knowledge that was simultaneously transforming Europe and its colonial empires at the time Although mapping in China is almost as old as Chinese civilization itself the Qing insistence on accurate to scale maps of their territory was a new response to the difficulties of administering a vast and growing empire Likewise direct observation became increasingly important to Qing ethnographic writings such as the illustrated manuscripts known as Miao albums from which twenty color paintings are reproduced in this book These were intended to educate Qing officials about various non Han peoples so that they could govern these groups more effectively Hostetler s groundbreaking account will interest anyone studying the history of the early modern period and colonialism [Marginalization in China](#) Joseph Tse-Hei Lee,Lida V. Nedilsky,2009-06-22 Bringing together historians sociologists and political scientists this volume documents persistent prejudices against consistently marginal groups in China and the moral claims they have mustered in response **Religion, Ethnicity, and Gender in Western Hunan during the Modern Era** Paul R. Katz,2021-08-19 This book explores how beliefs and practices have shaped the interactions between different ethnic groups in Western Hunan as well as considering how religious life has adapted to the challenges of modern Chinese history Combining historical and ethnographic methodologies chapters in this book are structured around changes that occurred during the interaction between Miao ritual traditions and religions such as Daoism with particular focus on the commonalities and differences seen between Western Hunan and other areas of Southwest China In addition investigation is made into how gender and ethnicity have shaped such processes and what these phenomena can teach about larger questions of modern Chinese history As such this study transcends existing scholarship on Western Hunan which has stressed the impact of state policies and elite agendas by focusing instead on the roles played by ritual specialists Such findings call into question conventional wisdom about the standardization of Chinese culture as well as the integration of local society into the state by means of written texts Religion Ethnicity and Gender in Western Hunan during the Modern Era will prove valuable to students and scholars of history ethnography anthropology ethnic studies and Asian studies more broadly **Minzu as Technology** Lei Hao,2023-09-15 This book provides a unique ethnographic approach to the understanding of ethnogenesis in the Chinese context with a particular focus on how it is being reshaped in the post 2000s era It reinterprets the Chinese concept of ethnicity or minzu by investigating its evolution in relation to the proliferation of media technologies In an era characterized by digital connectivity the quest for ethnic identity has taken on new dimensions Ethnic groups like the Sibe community from Xinjiang are now extending beyond the state s traditional interpretations of minzu Leveraging the power of media technology they are articulating and expressing their ethnic identities in new and personalised ways These developments have led to the emergence of what this book terms networked ethnicity a fresh manifestation of ethnic identity formation in the era of social media The pivotal question this book attempts to answer is How does an ethnic group in China today understand its identity and what role does technology and media play

in that process This exploration offers a critical perspective on the complex interplay between digital technology individual agency and ethnic identity formation This study will be of interest to scholars of cultural studies Chinese society ethnic studies and media studies or anyone keen to understand the changing landscape of ethnic identity in the digital age

Religious Economies in Secular Context Rano Turaeva, Michael Brose, 2023-12-09 This edited collection is one of the few sociological and anthropological studies of Halal markets The chapters inquire into the legal and religious aspects of Halal markets in non Muslim contexts or the countries where the label Halal matters and is not taken for granted as it is the case in most of the Muslim world where it is an accepted norm In many countries Halal has become a type of brand used to market food and cosmetic products This is an effective marketing strategy because it appeals directly to Muslims but also increasingly to non Muslims who seek pure fresh products In this case Halal implies attributes similar to other brands where quality and purity is guaranteed such as Fair Trade Bio or organic in the US and Europe but with the additional appeal to prospective Muslim consumers that it satisfies Islamic norms The book consists of contributions on Halal economies in non Muslim societies dealing with such dilemmas as rational thinking and halal philosophy within various fields of halal economy such as regulation production marketing service delivery and consumption
