Property and Community Gregory S. Alexander, Eduardo M. Penalver, 2010-01-21 Property and Community fills a major gap in the legal literature on property and its relationship to community The essays included differ from past discussions including those provided by law and economics by providing richer accounts of community By and large prior discussions by property theorists treat communities as agglomerations of individuals and eschew substantive accounts of justice favoring what Charles Taylor has called procedural conceptions These perspectives on ownership obscure the possibility that the community might have a moral status that differs from neighboring owners or from non owning individuals This book examines a variety of social practices that implicate community in its relationship to property These practices range from more obvious property based communities like Israeli kibbutzim to surprising examples such as queues Aspects of law and community in relationship to legal and social institutions both inside and outside of the United States are discussed Alexander and Pe alver seek to mediate the distance between abstract theory and mundane features of daily life to provide a rich textured treatment of the relationship between law and community Instead of defining community in abstractly theoretical terms they approach the subject through the lens of concrete institutions and social practices In doing so they not only enrich our empirical understanding of the relationship between property and community but also provide important insights into the concept of community itself

[The Theatre of Death](#) P J Klemp, 2016-10-19 This book discusses some rituals of justice such as public executions printed responses to the Archbishop of Canterbury s execution speech and King Charles I s treason trial in early modern England Focusing on the ways in which genres shape these events multiple voices I analyze the rituals genres and the diverse perspectives from which we must understand them The execution ritual like such cultural forms as plays and films is a collaborative production that can be understood only and only incompletely by being alert to the presence of its many participants and their contributions Each of these participants brings a voice to the execution ritual whether it is the judge and jury or the victim executioner sheriff and other authorities spiritual counselors printer or spectators and readers And each has at least one role to play No matter how powerful some institutions and individuals may appear none has a monopoly over authority and how the events take shape on and beyond the scaffold The centerpiece of the mid seventeenth century s theatre of death was the condemned man s last dying utterance This study focuses on the words and contexts of many of those final speeches including King Charles I s 1649 Archbishop William Laud s 1645 and the Earl of Strafford s 1641 as well as those of less well known royalists and regicides Where we situate ourselves to view hear and comprehend a public execution through specific participants eyes ears and minds or accounts shapes our interpretation of the ritual It is impossible to achieve a singular carefully indoctrinated meaning of an event as complex as a state sponsored public execution Along with the variety of voices and meanings the nature and purpose of the rituals of justice maintain a significant amount of consistency in a number of eras and cultural contexts Whether the focus is on the trial and execution of the Marian martyrs English royalists in the 1640s and 1650s or the Restoration s regicides the events draw on a set of cultural expectations or conventions Because rituals of justice are shaped by diverse voices and agendas with the participants scripts and counterscripts converging and colliding they are dramatic moments conveying profound meanings Published by University of Delaware Press Distributed worldwide by Rutgers University Press
