Prevention G. Alan Marlatt,Dennis M. Donovan,2007-12-26 This important work elucidates why relapse is so common for people recovering from addictive behavior problems and what can be done to keep treatment on track It provides an empirically supported framework for helping people with addictive behavior problems develop the skills to maintain their treatment goals even in high risk situations and deal effectively with setbacks that occur The expert contributors clearly identify the obstacles that arise in treating specific problem behaviors review the factors that may trigger relapse at different stages of recovery and present procedures for teaching effective cognitive and behavioral coping strategies **Catalogue**

Edmondson,Hans-Joachim von Kondratowitz,2009-07-20 How can we understand older people as real human beings value their wisdom and appreciate that their norms and purposes both matter in themselves and are affected by those of others Using a life course approach Valuing older people argues that the complexity and potential creativity of later life demand a humanistic vision of older people and ageing It acknowledges the diversity of experiences of older age and presents a range

of contexts and methodologies through which they can be understood Ageing is a process of creating meaning carried out by older people and is significant for those around them This book therefore considers the impact of social norms and political and economic structures on older people s capacities to age in creative ways What real obstacles are there to older people s construction of meaningful lives What is being achieved when they feel they are ageing well This collection aimed at students researchers practitioners and policy makers offers a lively and constructive response to contemporary challenges involving ageing and how to understand it
