Rewriting the Word "God" Romana Huk, 2025 Innovative poetry philosophy theology and new sciences converge in the project of rewriting the word God In *Rewriting the Word God* Romana Huk examines the substantive connections between innovative poetry of the last century and contemporary theology and philosophy Along the way we encounter ten poets who have without abandoning their inherited or chosen faith traditions radically rethought conceptualizations of divinity human ontology and the real From the startlingly proto phenomenological encounters with nature by Gerard Manley Hopkins to the post deconstructive pursuit of oracular speech in Fanny Howe these poets have found inspiration in a wide range of sources from ancient religious texts to modern philosophical movements But what unites them is their willingness to continually change experiment and challenge the status quo both in their religious beliefs and their poetic practice Huk shows how these poets have used their work to explore ultimate questions of life and death meaning and purpose and the relationship between humans and materiality humans and other humans which for these poets sheds light on humanity's relationship with the divine She also highlights the ways in which they have engaged with social and political issues in their poetry to speak out against injustice and oppression *Rewriting the Word God* is a thought provoking and inspiring work that will challenge current perceptions of both religion and poetry from new positions at the intersection of faith art philosophy science literary theory and culture
