Yo, Alejandro - Bilingual Alejandro Gac-Artigas, 2003-02-02. Alejandro es uno más de tantos niños latinoamericanos que tuvieron que enfrentar desde muy pequeños la dramática y particularmente emotiva ruptura que se dio al interior de su familia cuando emigraron hacia los Estados Unidos de América. Hoy siendo ya un joven escribe estas memorias con lenguaje bilingüe para que aporten al conocimiento de todos los otros que están pasando por ese significativo proceso. La incursión en el mundo literario de este precoz escritor ya había encontrado merecida resonancia en los diferentes premios y becas que le han sido otorgados con anterioridad. Este libro es realmente inspirador porque refleja la intensa lucha interior de su protagonista quien ha sabido integrarse plenamente a la nueva realidad pero sin perder lo más auténtico de sus raíces culturales.

El Niño Raul Candelario Mejia, 2009-05. Mucho se ha escrito sobre los niños mucho se seguirá escribiendo y a pesar de eso o tal vez por eso no es posible penetrar más allá de la fisiología o la anatomía. En un intento desesperado de asomarse a su pensamiento se inventó la psicología que en general ha resultado útil pero no es todo lo que puede definir a los niños. No existe en el mundo alguien que sepa lo que es un niño lo que piensa su forma de ver y concebir las cosas el mecanismo en que se basa su razonamiento lógico su personal percepción del mundo que le circunda o la esencia y razón de sus actos. Nada se sabe tampoco sobre la forma en que se elaboran sus juicios de valor. Lo que aquí se consigna no es otra cosa que una opinión que se suma a las miles que existen. Debe tomarse únicamente como lo que es sin más pretensión que compartirla con tantos y tantos amorosos padres que sufren la angustiosa sensación de estar fallando en la conducción de

sus hijos o la de no saber que hacer También pudiera ser de alguna utilidad a todos aquellos padres que están plenamente convencidos de estar haciendo las cosas bien de no equivocarse Este texto fue escrito sin tildes ni otros caracteres especiales para evitar errores con el navegador Nelson Textbook of Pediatrics Robert Kliegman, 2004 Accompanying CD ROM

guidance of Eugenia Proa o and Ernesto Mu oz in the classroom were driven by theories and their beliefs about what would work best for university students to be engaged and motivated in learning a foreign language It was a time to explore and experiment with more innovative techniques There was just so much potential This time of experimentation and exploration that Eugenia Proa o and Ernesto Mu oz did show great potential for the students and teachers We reflected on our daily teaching practices and re formed the practice to be more conducive to language I Peter Lindo was learning what was happening in Ecuador and could see the potential that this had for the world To help bring healing unity wisdom knowledge understanding and love

Alejandro Cortazar,Laura M. Martins,2014-03-17 Presenting and interrogating an array of texts and discourses this collection brings into focus a broad range of topics whose common denominator is the intersection between cultural productions and politics in different moments of the history of Latin America and Spain From the struggles of class distinction identity and community in 19th and 20th century and contemporary Latin America as explored in photography literature and film to how political and sexual transgressions from medieval times to the present are portrayed in Hispanic literature and the ways that canonical and non canonical texts in Spain have been defying hegemonic power relations in the 20th century and beyond This volume provides fresh approaches from well established scholars as well as from a new generation of researchers whose

works enlighten the reader about the rich facets of such intersections This publication also offers a background to pursue further research in these areas and to serve the general public interested in Latin American and Spanish literary and cultural studies and those seeking a greater understanding of social and economic change in both Latin America and Spain specifically issues of inclusion and citizenship the constraints on state power in the neoliberal era the strategies used by texts to create subjects that are not bound to conventional identity formations and the challenges and possibilities of subverting the gaze of the institutional spectator
