Our Changing White House:

The White House Patrick Phillips-Schrock, 2015-03-21 Formerly known as the President's House then the Executive Mansion and now for a long time the White House this famous structure has a fascinating architectural history of ongoing change The white painted facade of James Hoban's original structure has been added to and strengthened for more than 200 years and its interior is a repository of some of America's greatest treasures Artists such as Benjamin Latrobe Pierre Antoine Bellange the Herter Brothers Louis Tiffany Charles McKim Lorenzo Winslow Stephane Boudin Edward Vason Jones and a host of others fashioned interiors that welcomed and inspired visitors both foreign and domestic This meticulous history featuring more than 325 photographs diagrams and other illustrations captures each stage of the White House's architectural and decorative evolution **The Nixon White House Redecoration and Acquisition Program** Patrick

Phillips-Schrock, 2016-05-25 A positive legacy of the troubled Nixon administration and one virtually unknown to the American public is the extensive acquisition of valuable art and antiques for the White House and the redecoration of the executive mansion by Pat Nixon With the help of an aggressive curator Clement Conger and a talented interior designer Edward Vason Jones the First Lady quietly erased much of the historic decor of Jacqueline Kennedy's Camelot and introduced an academic look to the State Rooms which endures to this day Nixon marked his presidential territory with a complete renovation of the West Wing a harbinger of the First Lady's plans They implemented a massive fundraising campaign to bankroll the refurbishment which resulted in one of the foremost collections of art art objects furniture paintings and sculpture in America This book presents the never before told story of the Nixons remodeling of the White House motivated by the approaching American Bicentennial and a desire to restore respect to the presidency through the arts **The White House & President's Park**, 2000 **The Hidden White House** Robert Klara, 2013-10-22 The little

known story of the White House's gutting and renovation during the Truman presidency Delightful and informative plenty of entertaining drama Publishers Weekly In 1948 President Harry Truman enjoying a bath on the White House's second floor almost plunged through the ceiling of the Blue Room into a tea party for the Daughters of the American Revolution A handpicked team of the country's top architects conducted a secret inspection of the troubled mansion and after discovering it was in imminent danger of collapse insisted that the First Family be evicted immediately What followed would be the most historically significant and politically complex home improvement job in American history While the Trumans camped across the street at Blair House Congress debated whether to bulldoze the White House completely and the Soviets exploded their first atomic bomb starting the Cold War Robert Klara reveals what has until now been little understood about this episode America's most famous historic home was basically demolished giving birth to today's White House Leaving only the mansion's facade untouched workmen gutted everything within replacing it with a steel frame and a complex labyrinth deep below ground that soon came to include a top secret nuclear fallout shelter The story of Truman's rebuilding of the White House is

a snapshot of postwar America and its first Cold War leader undertaking a job that changed the centerpiece of the country's national heritage. The job was by no means perfect but it was remarkable and until now all but forgotten. Includes photographs. Captivating. From bathtubs to bomb shelters. Klara leaves no piece of crumbling sandstone unturned and is as astute a storyteller as he is a dogged researcher. Denise Kiernan, New York Times bestselling author of *The Last Castle*.

Subcommittee on National Economic Growth, Natural Resources, and Regulatory Affairs, 1999 *Life in the White House* Robert P. Watson, 2012-02-01 This unique perspective on the White House, one of the most readily identifiable structures in the world, brings together the views of librarians, journalists, political advisers, attorneys, researchers, and professors. Filled with anecdotes, little-known facts, and scholarly analysis, the book shows how The People's House has been shaped and molded both architecturally and philosophically by the different administrations over the past 200 years. Erudite and entertaining, *Life in the White House* looks at the social history of the first family, the creation of the president's home, and efforts by first families to carve out a space for the important business of family while preserving the history of their famous residence. This public museum and private residence, which began as the result of a 500 Jefferson-era architectural design contest, now symbolizes one of the world's great superpowers. Lincoln's White House James B. Conroy, 2016-10-15 Co-winner of the 2017 Gilder Lehrman Lincoln Prize, *Lincoln's White House* is the first book devoted to capturing the look, feel, and smell of the executive mansion from Lincoln's inauguration in 1861 to his assassination in 1865. Trump in the White House John Bellamy Foster,2017-10-23 Remember that metaphor about the frog that slowly cooks to death in the pot of increasingly warm water Leftists have used it for years to describe how people can accept dwindling health care fading job opportunities eroding racial and gender equality as long as the loss occurs gradually Now with Donald Trump having slouched off to Washington most of the mainstream media are working overtime to convince us that we can still stand the heat Leave it to John Bellamy Foster one of the world s outstanding radical scholars to expose Trump for who and what he is a neo fascist Just at the boiling point Foster offers us cool logic to comprehend the system that created Trump s moral and political emergency and to resist it In Trump in the White House John Bellamy Foster does what no other Trump analyst has done before he places the president and his administration in full historical context Foster reveals that Trump is merely the endpoint of a stagnating economic system whose liberal democratic sheen has begun to wear thin Beneath a veneer of democracy we see the authoritarian rule that oversees decreasing wages anti science and climate change denialism a dying public education system and expanding prisons and military all powered by a phony populism seething with centuries of racism that never

went away But Foster refuses to end his book in despair Inside his analysis is a clarion call to fight back Protests popular demands coalitions everyone is needed Change can't happen without radical anti capitalist politics and Foster demonstrates that even now with the waters ever warming it may yet be possible to stop the desecration of the Earth to end endless war to create global solidarity with all oppressed people Could a frog do that **Background Studies Prepared by State Committees for the White House Conference on Aging** United States.
