Shuttleworth, 2012-05 In the past year the elected leaders of the government of the United States have taken that nation down a road that can only lead to disaster. The federal government of the United States has borrowed more money in the past year alone than all of the debt accumulated since the nation's founding more than 200 years ago. In the process of bankrupting America the nationally elected leaders have on many occasions literally ignored the Constitution of the United States. The American people are patient; however, their patience has reached the breaking point and as a result BIG changes are just around the corner for America. The book titled *Our 2nd American Revolution Honoring the Sacrifice of our Founders* spells out how the American people will take back their nation beginning on November 2nd 2010. This book includes a Nine Point Plan to Save America from an otherwise certain demise and breaks down step by step what must be done if America is to survive in the future. *Our 2nd American Revolution* is a book about saving America. America has drifted very far away from the fundamental principles that allowed her to become the richest and fastest growing nation ever to have existed. As a result America is on a collision course with certain disaster. The goal of the *Our 2nd American Revolution* is to sound a loud wake up call to all Americans who love their country and cannot bear to see the great American experiment fail. America can be saved if dramatic and bold action is taken soon. However, time is of the essence and the citizens of America must act and act very soon. Tourism in America United States. Congress. Senate. Committee on Commerce, Science, and Transportation. Subcommittee on Competitiveness, Innovation, and Export Promotion, 2012 *Our Constitution and Government; Lessons on the Constitution and Government of the United States for Use in the Public Schools by Candidates for Citizenship* United States. Immigration and Naturalization Service, 1956 Find the Black Box Dr. Ira Williams, 2013-08-12 200 000 preventable deaths each year in the US healthcare system is like having 20 Boeing 747 airliners crashing each week. Things are bad in our nation's healthcare delivery system; people are dying needlessly in hospitals every single day. In *Find the Black Box* author Dr. Ira Williams provides a thorough discussion of the American healthcare system and its inherent problems, offering solutions to create a healthcare system that works. Williams presents a host of facts to show the inadequacies of current healthcare as he answers these questions: What has always been missing in our nation's healthcare delivery system? Why have current efforts failed to change the system that will continue to fail? Why are some of these efforts highly questionable if not illegal? *Find the Black Box* explores the truths behind the continuing increase in medical errors and explains how healthcare in the nation is unorganized, dysfunctional, and chaotic. Williams shows how better healthcare is possible. **Desecration of the Flag**
