The Empire of the Raj R. Blyth, 2003-04-15 British India as a result of history geopolitics and its unique status within the Empire controlled a chain of overseas agencies that stretched from southern Persia to eastern Africa This book examines how as the relative importance of British interests steadily eclipsed those of India throughout the region Indian sub imperial impulses clashed with the relentlessly advancing metropole The nature of the struggle over political control between Britain and Indian reveals differences in perception and approach during a period of profound change in Anglo Indian relations

Our Foreign Policy Legacy Bisheshwar Prasad, 1965 Britain and Tibet 1765-1947 Julie G. Marshall, 2005 This bibliography is a record of British relations with Tibet in the period 1765 to 1947 As such it also involves British relations with Russia and China and with the Himalayan states of Ladakh Lahul and Spiti Kumaon and Garhwal Nepal Sikkim Bhutan and Assam in so far as British policy towards these states was affected by her desire to establish relations with Tibet It also covers a subject of some importance in contemporary diplomacy It was the legacy of unresolved problems concerning Tibet and its borders bequeathed to India by Britain in 1947 which led to border disputes and ultimately to war between India and China in 1962 These borders are still in dispute today It also provides background information to Tibet s claims to independence an issue of current importance The work is divided into a number of sections and subsections based on chronology geography and events The introductions to each of the sections provide a condensed and informative history of the period and place the books and article in their historical context Most entries are also annotated This work is therefore both a history and a bibliography of the subject and provides a rapid entry into a complex area for scholars in the fields of international relations and military history as well as Asian history **Intelligence Studies in Britain and the US**

Seton-Watson, 1945 **'Guilty Women', Foreign Policy, and Appeasement in Inter-War Britain** Julie V.

Gottlieb, 2016-02-07 British women were deeply invested in foreign policy between the wars This study casts new light on the turn to international affairs in feminist politics the gendered representation and experience of the Munich Crisis and the profound impression made by female public opinion on PM Neville Chamberlain in his negotiations with the dictators The Cameron-Clegg Coalition and Britain's Role in the World Timothy J. Oliver, 2021-09-15 This is the first in depth study of the

foreign and defence policies of the Coalition a government that saw the Conservatives restored to power for the first time since the Iraq War and the Liberal Democrats enter government for the first time It explores the idea of Britain as a Great Power since 1945 to show how the Coalition's policies fitted into wider historical understandings of Britain's role in the world Drawing on a range of evidence from the time of the Coalition it shows that this period was one of continued change in British foreign policy The Coalition conducted the first strategic defence review since 1998 significantly reduced the funding allocations for defence and foreign affairs raised overseas aid spending to record levels engaged in overseas military action in two sovereign states and were denied a chance to participate in another as well as a wide array of other policies This book argues that evaluating these events and the historical background of the Coalition is critical to understanding the current crises gripping British politics

Britain, the US and China's Anti-Soviet Stance in the Cold War Bruno Pierri, 2023-08-04 This book shows how international trade was a key part of the classic Western policy of containment towards the Soviet Union in the Cold War in the late 1970s Trade and containment may summarise the new relation that communist China moulded with the capitalistic West in the late 1970s Ideology had become less important and a rapprochement between the PRC People's Republic of China and the Western powers over trade with the purpose of isolating and weakening the common Russian rival was practically unavoidable Within a relatively short span of time the balance of power in the Indo Pacific area had been reversed Simply put Beijing's market was too big to be ignored and the Atlantic allies collaborated sometimes even competing with each other to allow China access to the centres of world finance However the Western powers had not realised that Beijing would never pursue alignment with them On the contrary the increased trading and financial linkage with capitalistic countries gave China room to manoeuvre enabling it to play the Western states off against each other This book will be of much interest to students of Cold War Studies Chinese history foreign policy and international relations

US Consular Representation in Britain Since 1790 Nicholas M Keegan, 2018-03-08 In its early years the United States Consular Service was a relatively amateurish organization often staffed by unsuitable characters whose appointments had been obtained as political favours from victorious presidential candidates a practice known as the Spoils System Most personnel changed every four years when new administrations came in This compared unfavourably with the consular services of the European nations but gradually by the turn of the twentieth century things had improved considerably appointment procedures were tightened up inspections of consuls and how they managed their consulates were introduced and the separate Consular Service and Diplomatic Service were merged to form the Foreign Service The first appointments to Britain were made in 1790 with James Maury becoming the first operational consul in the country at

Liverpool At one point there was a network of up to ninety US consular offices throughout the UK stretching from the Orkney Islands to the Channel Islands Nowadays there is only the consular section in the embassy and the consulates general in Edinburgh and Belfast

The British Pacific Fleet Experience and Legacy, 1944-50 Jon Robb-Webb, 2016-03-16 The British Pacific Fleet was formed in October 1944 and dispatched to fight alongside the USN in the Central Pacific under Admiral Nimitz Deploying previously unpublished documents this book reveals how relations between the UK and US forces developed from a starting point of barely repressed suspicion to one where both navies came to understand each other and eventually find a remarkable bond Born out of a shared experience of Kamikaze attacks extended operations against bitterly hostile shores the pooling of knowledge and experience the two navies underpinned the diplomatic moves in both Washington and London The book carries the legacy of this experience through to the next Anglo American participation in war Korea It illustrates and explains how and why certain lessons were incorporated into the composition behaviour and structure of the post war Navy It demonstrates the significance of what was learned from the USN by the RN and by USN from the RN As well as examining the background to the largest fleet the Royal Navy ever put to sea the book also charts its effects on Anglo American relations multinational operations alliance building and the ways naval forces are shaped by and in turn shape politics It addresses a period of rapid technological development that witnessed profound changes in the international system and which raised fundamental questions of what navies were for and how should they operate and organize themselves In so doing the study illustrates how the experience of a few long months at the end of the war in the Pacific would cast a long shadow over these issues in the very different circumstances of the post war world

June 1940, Great Britain and the First Attempt to Build a European Union Andrea Bosco, 2016-06-22 June 2016 represents a significant moment in British history The decision to leave the European Union at the most critical period since its existence could bring unpredictable and far reaching consequences both for the United Kingdom and the Union itself June 1940 was also a turning point in British history On the afternoon of 16 June a few hours before the French Government opted for the capitulation Churchill made on behalf of the British Government an offer of indissoluble union When a sceptical Churchill put forward to the British Cabinet the text of the declaration drafted by Jean Monnet Sir Arthur Salter and Robert Vansittart he was surprised at the amount of support it received The Cabinet adopted the document with some minor amendments and de Gaulle who saw it as a means of keeping France in the war telephoned Reynaud with the proposal for an indissoluble union with joint organs of defence foreign financial and economic policies a common citizenship and a single War Cabinet The proposal however never reached the table of the French Government The spirit of capitulation embodied in Weygand and Ptain prevailed and France submitted herself to the German will for the second time in seventy years After the Munich crisis Great Britain had to face the danger of another European war with the inevitable loss of the Empire and it was at this point that the country first began to favour the application of the federalist principle to Anglo French relations In this conversion to

federalism a fundamental role was played by the Federal Union the first federalist movement organised on a popular basis The contribution of Federal Union to the development of the federal idea in Great Britain and Europe was to express and organise the beginning of a new political militancy and it represented the first step of a historical process the overcoming of the nation State the modern political formula which institutionalises the political division of mankind This study principally examines the first eighteen months of the Federal Union during which time it was able to raise itself to the attention of the general public and the political class as the heir of the League of Nations Union The research is based on extensive unpublished archival material found across the globe from London Oxford Brighton and Edinburgh to Washington Paris and Geneva

Britain and the United States in Greece Spero Simeon Z. Paravantes, 2020-10-15 For the first time Britain and the United States in Greece provides an in depth analysis of Anglo American diplomacy in Greece from 1946 to 1950 After Word War II as Europe floundered economically British Prime Minister Clement Attlee looked to disengage Britain from some of its broad international obligations and increase American support for its new foreign agenda One place he sought to do so was in Greece Spero Simeon Z Paravantes reveals how the relationship between Britain and the US developed in this formative period arguing that Britain used the fast escalating tensions of the Cold War to direct US policy in Greece and encourage the Americans to take a more active role effectively taking Britain s place in the region In the process Paravantes sheds new light on how the American experience in Greece contributed to the formulation of the Truman Doctrine and the containment of communism the structure of Greek institutions and ultimately the birth of the Cold War Drawing on a wide range of sources from Britain the US Greece and the Balkans this book is essential reading for all scholars looking to gain fresh insight into the complex origins of the Cold War 20th century Anglo American relations and the history of modern Greece
