Our Descent from Israel Hew B. Colquhoun,1940 Judaica Ludwig Rosenberger,1971 *A History of the Apocalypse* Catalin Negru,2023-01-20 Religion For thousands of years this thing has dictated which people should live and which people should die what shape our buildings should have or what colors our garments should contain what food people should eat or what words people should speak If religion is the opium of the masses then beliefs about the end of the world are like overdoses People touched by such beliefs no longer rely on a hidden personal and intimate god contemplated upon from the safe distance of the beating human heart They live with the promise of divine intervention at a grand scale on the current coordinates of space and time This can be an exceptional motivator and a game changer in terms of civil obedience both at an individual and collective level In the name of an immediate and palpable deity people can commit shocking cruelties However such belief can also account for some of the most exceptional social developments in human history

Religious Thoughts Catalin Negru,2023-02-27 In every belief system spiritual entities have been labeled as good if they have acted in favor to people and as evil if they have threatened their existence Furthermore protective actions and dangerous actions have been classified as such based on the beholder s level of understanding of order and chaos Evil entities spread chaos that endangers people s existence while good entities create order that preserves human life
