**Subsidizing Culture** James T. Bennett, 2017-07-05 In the American mind state subsidization of writers and artists was long associated with monarchies and in later years socialist states The support these regimes gave to intellectuals was understood to come with a cost yet beginning with the New Deal's Federal Writers Art and Theater Projects a new policy consensus asserted that by offering financial support to the arts the federal government was affirming their importance to the nation *Subsidizing Culture* examines the development of and controversies surrounding federal programs that directly benefit writers artists and intellectuals James T Bennett examines four cases of such support the New Deal's Federal Writers Art and Theater Projects the vigorous promotion in the post World War II and early Cold War eras of abstract expressionism and other forms of modern art by the US government the National Endowment for the Arts NEA which has fortified its position as the preeminent arts bureaucracy and the National Endowment for the Humanities the NEA's less embattled twin which funnels monies to scholars Bennett concentrates on the creation of and the debate over these government programs and he gives special attention to the critics who are usually ignored He reminds us that the chorus of anti subsidy voices over the years has included such disparate figures as writers William Faulkner and John Updike artists John Sloan and Wheeler Williams and social critics Jacques Barzun and H L Mencken

**American Culture, American Tastes** Michael Kammen, 2012-10-03 Americans have a long history of public arguments about taste the uses of leisure and what is culturally appropriate in a democracy that has a strong work ethic Michael Kammen surveys these debates as well as our changing taste preferences especially in the past century and the shifting perceptions that have accompanied them Professor Kammen shows how the post traditional popular culture that flourished after the 1880s became full blown mass culture after World War II in an era of unprecedented affluence and travel He charts the influence of advertising and opinion polling the development of standardized products shopping centers and mass marketing the separation of youth and adult culture the gradual repudiation of the genteel tradition and the commercialization of organized entertainment He stresses the significance of television in the shaping of mass culture and of consumerism in its reconfiguration over the past two decades Focusing on our own time Kammen discusses the use of the fluid nature of cultural taste to enlarge audiences and increase revenues and reveals how the public role of intellectuals and cultural critics has declined as the power of corporate sponsors and promoters has risen As a result of this diminution of cultural authority he says definitive pronouncements have been replaced by divergent points of view and there is as well a tendency to blur fact and fiction reality and illusion An important commentary on the often conflicting ways Americans have understood defined and talked about their changing culture in the twentieth century

**From My Cold, Dead Hands** Emilie Raymond, 2006-08-18 Charlton Heston is perhaps most famous for his portrayal of Moses in Cecil B DeMille s epic The Ten Commandments and for his Academy Award winning performance in the 1959 classic Ben Hur Throughout his long career Heston used his cinematic status as a powerful moral force to effect social and political change Author Emilie Raymond examines Heston s role as a crusader for individual rights and his evolution into a major American political figure with a pivotal role in the conservative movement Heston s political activities were as varied as they were time consuming He worked with the Kennedy Johnson Nixon Reagan and first Bush administrations He marched in support of black civil rights served as the president of the Screen Actors Guild and helped shape policy for the National Endowment for the Arts before taking on his most high profile position president of the National Rifle Association Over the course of his career Heston became disillusioned with the Democrats he formally registered with the Republican Party in the 1980s arguing that the decision was in keeping with his longtime advocacy of individual rights From My Cold Dead Hands is far more than a biography it is a chronicle of the resurgence of American conservative thought and in particular the birth of neoconservatism Heston s brand of neoconservatism differed from that of the exclusively intellectual wing and he came to represent a previously ignored segment of neoconservatives operating on the basis of more common emotionally oriented concerns The neocons brought new life to the GOP and Raymond convincingly argues that Heston revitalized conservatism in general his image of morality individualism and masculinity lent the conservative

movement credibility with a larger public He effectively campaigned for conservative candidates and causes using his popularity and image to fuel and legitimize his political activities Heston s high degree of political engagement not only paved the way for many of today s Hollywood activists but also helped popularize many of the beliefs of the neoconservative movement A balanced look at Heston and his offscreen work *From My Cold Dead Hands* explains how this charismatic man of conviction propelled his personal beliefs into the political mainstream of America *In the Past Lane* Michael G.

Kammen,1997 Michael Kammen is a major American historian whose books have received the Bancroft and Parkman prizes This book collects his essays on American culture of which he is one of the major historians *Making Peace with the 60s*

David Burner,2021-07-13 David Burner s panoramic history of the 1960s conveys the ferocity of debate and the testing of visionary hopes that still require us to make sense of the decade He begins with the civil rights and black power movements and then turns to nuanced descriptions of Kennedy and the Cold War the counterculture and its antecedents in the Beat Generation the student rebellion the poverty wars and the liberals war in Vietnam As he considers each topic Burner advances a provocative argument about how liberalism self destructed in the 1960s In his view the civil rights movement took a wrong turn as it gradually came to emphasize the identity politics of race and ethnicity at the expense of the vastly more important politics of class and distribution of wealth The expansion of the Vietnam War did force radicals to confront the most terrible mistake of American liberalism but that they also turned against the social goals of the New Deal was destructive to all concerned Liberals seemed to rule in politics and in the media Burner points out yet they failed to make adequate use of their power to advance the purposes that both liberalism and the left endorsed And forces for social amelioration splintered into pairs of enemies such as integrationists and black separatists the social left and mainline liberalism and advocates of peace and supporters of a totalitarian Hanoi *Making Peace with the 60s* will fascinate baby boomers and their elders who either joined denounced or tried to ignore the counterculture It will also inform a broad audience of younger people about the famous political and literary figures of the time the salient moments and above all the powerful ideas that spawned events from the civil rights era to the Vietnam War Finally it will help to explain why Americans failed to make full use of the energies unleashed by one of the most remarkable decades of our history **The New**
