Excerpt from *Our Inland Seas Their Shipping Commerce for Three Centuries* When the land began to show its increase and Indian trade was fostered the lakes and rivers were the natural highways of communication with the outside world and upon their waters were carried the rich products of the wilds On the return trips the light bobbling canoes brought the goods and trinkets of civilization for barter with the natives With increasing trade there appeared larger and beamier boats much more stable to take the place of the Indian canoe and in time the small sailing craft became the economic mode of conveyance Finally the steamboat appeared and with all its fussing and fuming and boiler explosions was soon the popular means of travel There was some degree of certainty in its movements as it was less dependent upon wind and wave When the tide of immigration set in about eighty years ago there followed a rapid development of the material resources of the new land and the expanse of the lakes and the connecting water highways became arteries of an extensive commerce Shipbuilding was greatly stimulated and the steam tonnage was of such size and the cabin accommodations for the comfort and pleasure of passengers so well provided that travel on the lakes was no longer regarded as a hardship to be avoided if other means were at hand The increased size of the steam boats and the march of progress toward the West brought about demands for deeper channels which were met by digging out the navigable streams and the canalization of narrow and shallow rivers The principal ports on the lakes were made safe harbors of refuge lighthouses and other beacons were established to mark dangerous reefs and narrow channels and in more recent years the life saving service and the lake survey have been added as further safeguards to life and treasure As years passed excursions on the lakes became popular and of daily occurrence from the larger ports during the summer months and tourist travel throughout the Fresh water seas was inaugurated There

has been and is still a mighty wave of expansion impelled by a spirit of optimism sweeping over the Great Lakes region commerce continues to grow apace and despite the extension of railroads paralleling every marine highway with a diversion of a portion of the lake traffic to the rail routes the water borne commerce has increased in volume and the vessel interests have prospered About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
