The American Bookseller ,1884 The Publishers Weekly ,1889 American Book Publishing Record ,2004

Catalogue of the Library of the Peabody Museum of Archaeology and Ethnology Peabody Museum of Archaeology and Ethnology. Library,1963 *Reader's Guide to the History of Science* Arne Hessenbruch,2013-12-16 The Reader's Guide to the History of Science looks at the literature of science in some 550 entries on individuals Einstein institutions and disciplines Mathematics general themes Romantic Science and central concepts Paradigm and Fact The history of science is construed widely to include the history of medicine and technology as is reflected in the range of disciplines from which the international team of 200 contributors are drawn Subject Guide to Books in Print ,1997 **Landscape** Barbara Bender,2024-11-01 This book is about the complexity and power of landscape The authors geographers anthropologists and archaeologists explore landscape as something subjective that alters through time and space and that is created by people through their experience and contact with the world around them *The Travels of Cristoforo Buondelmonti and Ciriaco d'Ancona in the Aegean Sea* Eleni Tounta,2024-07-19 This book explores the travels of Cristoforo Buondelmonti and Ciriaco d'Ancona to the Greek lands in the early fifteenth century eastern Mediterranean Drawing on post colonial studies frameworks such as travel writing and imaginative geographies this volume offers an innovative examination of colonial discursive and cultural practices within the Latin dominions in the Greek lands It sheds light on their contributions to the conceptualisation of both the Italian metropolitan space and the Greek identity of the colonised This volume investigates how Cristoforo's and Ciriaco's travel narratives utilised conceptual tools and representation systems of early humanism to support Latin political and economic interests in the eastern Mediterranean It delves into the imaginative geographies of Venetian Crete the islands of the archipelago Constantinople the Byzantine Despotate of the Morea and portrayals of the Ottomans as constructed by the two travelers offering insights into the interaction of Latin humanistic and colonial discourses and the agency of travellers in shaping the colonial space The book will be of value to scholars undergraduate and postgraduate students across various research fields including Renaissance and postcolonial studies travel literature Latin dominions in the Aegean Byzantine and Ottoman histories **Subject Guide to Children's Books in Print 1997** Bowker Editorial Staff,R R Bowker Publishing,1996-09 **The New Testament in Cross-Cultural Perspective** Richard L. Rohrbaugh,2006-10-15 The Bible is not a Western book and the world of the New Testament is not our world The New Testament world was preindustrial Mediterranean and populated mostly by nonliterate peasants who depended on hearing these writings read aloud Only a few of the literate elite were part of the Jesus movement and they knew nothing of either modernity or the Western culture we inhabit today This means that for all North Americans reading the New Testament is always an exercise in cross cultural communication Travelers diplomats and exchange students take great pains to bridge the cultural gaps that cloud mutual understanding But North American readers habitually suspend cross cultural awareness when encountering the Bible The

result is that we unwittingly project our own cultural understandings onto the pages of the New Testament Rohrbaugh argues that to whatever degree we can bridge cultural gaps between ourselves and New Testament writers we learn to value their intentions rather than the meanings we create from their words Rohrbaugh's insightful interpretations of Gospel passages go a long way toward helping to span distances between the New Testament world and the present

Wollstonecraft and Religion Brenda Ayres, 2024-01-16 Ever since Godwin announced to the world in *Memoirs* that Wollstonecraft had had little use for religion most biographers scholars historians and readers have regarded her as an apostate Further the existing scholarly texts fail to demonstrate the pervasiveness of biblical references in *A Vindication of the Rights of Woman* The true tally of scriptural references approaches over 1 100 as identified in this study Wollstonecraft's biblical allusions besides sheer volume are noteworthy because they gave women a biblical basis upon which to contend for better education and occupational opportunities as well as for legal and political independence That the arguments were couched in biblical rhetoric most likely contributed to their initial reception and tolerance of what were incendiary ideas and searing social criticism The recognition and analysis of biblical underpinnings in *Wollstonecraft and Religion* not only of *Rights of Woman* but also of her other publications and letters propose new consideration regarding the Mother of Feminism and her work The chapters that accompany the annotated text of *Rights of Woman* furnish biographical and historical context that offer fresh perspectives about Wollstonecraft's religious convictions and faith many of which have not been published elsewhere *"The" Athenaeum*, 1894 *The Publisher*, 1901 **The Golden Book Magazine**, 1927 History of Psychiatry and Medical Psychology Edwin R. Wallace, John Gach, 2010-04-13 Most of the prefatory issues are extensively elaborated upon in the *Prolegomenon* which also contains the complete references to the texts and authors discussed below Nevertheless the Preface would be grossly incomplete without touching on some of these issues books and scholars Too many of this book's chapters e.g. Mora's Marx's D B Weiner's examine and reference important earlier as well as contemporary general histories of psychiatry and specialized monographs in German French Italian and Spanish Also in his 1968 *Short History of Psychiatry* discussed below Ackerknecht pp xi xii references important nineteenth and earlier twentieth century psychiatric histories in English French and German Such citations will of course not be repeated here Finally thanks to several publishers re editions of dozens of classical psychiatric texts one can consult their bibliographies as well See *Prolegomenon* for references to these splendid series In a rough and ready sense medical history began in classical Greece for example *On Ancient Medicine* While traditionally included in the Hippocratic corpus this text seems more likely to have been written by a non or even anti Hippocratic doctor Moreover the Hippocratic and other schools were hardly as secular as we now suppose *On Epilepsy* for example does not so much declare the prevalent denotation of it as the sacred disease erroneous as it does that it is no more nor less sacred than any other disease *The Literary World*, 1883 **Synopsis: An Annual Index of Greek Studies, 1993, 3** Andrew D. Dimarogonas, 1998-10-28 Presents 12 860 entries listing scholarly

publications on Greek studies Research and review journals books and monographs are indexed in the areas of classical Hellenistic Biblical Byzantine Medieval and modern Greek studies but no annotations are included After the general listings entries are also indexed by journal text name geography and subject The CD ROM contains an electronic version of the book Annotation copyrighted by Book News Inc Portland OR **Outlook** Alfred Emanuel Smith, Francis Walton, 1884

Publishers' Circular and Booksellers' Record of British and Foreign Literature ,1896 *Camels in the Biblical World* Martin Heide, Joris Peters, 2021-10-26 Camels are first mentioned in the Bible as the movable property of Abraham During the early monarchy they feature prominently as long distance mounts for the Queen of Sheba and almost a millennium later the Gospels tell us about the impossibility of a camel passing through a needle's eye Given the limited extrabiblical evidence for camels before circa 1000 BCE a thorough investigation of the spatio temporal history of the camel in the ancient Near and Middle East is necessary to understand their early appearance in the Hebrew Bible *Camels in the Biblical World* is a two part study that charts the cultural trajectories of two domestic species the two humped or Bactrian camel *Camelus bactrianus* and the one humped or Arabian camel *Camelus dromedarius* from the fourth through first millennium BCE and up to the first century CE Drawing on archaeological camel remains iconography inscriptions and other text sources the first part reappraises the published data on the species domestication and early exploitation in their respective regions of origin The second part takes a critical look at the various references to camels in the Hebrew Bible and the Gospels providing a detailed philological analysis of each text and referring to archaeological data and zoological observations whenever appropriate A state of the art evaluation of the cultural history of the camel and its role in the biblical world this volume brings the humanities into dialogue with the natural sciences The novel insights here serve scholars in disciplines as diverse as biblical studies zoo archaeology history and philology
