Rivers Tale A Year On The Mekong:

A River's Tale Edward A. Gargan, 2002 The River's Tale is a deeply informed personal chronicle of a remarkable journey down the Mekong River as it runs through China Tibet Burma Laos Thailand Cambodia and Vietnam In it Edward A Gargan tells a stirring tale of adventure that reveals the Mekong's many worlds Beginning in 1998 Gargan was at last able to pursue his long held dream of traveling the three thousand miles of the river and lingering where he wished He was in a sense coming to terms with places and peoples with which he had already linked his life His youthful opposition to the Vietnam War had been the first manifestation of his passionate interest in Asia where he subsequently spent much of his career as a New York Times correspondent His travels show us a kind of modernity settling uneasily on regions still mired in backwardness and poverty and shadows that linger so many years after the end of the Vietnam War We visit Internet cafes in dirt streeted towns near thatched hut villages without electricity The magnificent Angkor Wat a hub of tourism is surrounded by the ruins engendered by Pol Pot's genocidal reign We see plodding mule trains caravanning sacks of opium through Burma on their way to China to be processed and distributed to the West Tibetan horsemen adorned in silver and amber jewelry herd yaks across endless grasslands as their ancestors did though their culture is under siege by the Chinese Vietnamese salesmen scooter around Saigon hawking American soaps passing by outcast children fathered by American soldiers and left behind Buddhism flowers in a Laos ravaged by communism Sex tourism thrives in prosperous Thailand a trade chiefly involving teenagers who pay a deadly price And throughout there is the Mekong shaping landscapes linking cultures sustaining populations showcasing spectacular beauty Edward Gargan is an acutely observant sympathetic guide to a fascinating world and he has written a powerful and lyrical book

When the Rivers Run Dry, Fully Revised and Updated Edition Fred Pearce, 2018-08-28 A new edition of the veteran science writer's groundbreaking work on the world's water crisis featuring all new reporting from the most recent global flashpoints Throughout history rivers have been our foremost source of fresh water for both agriculture and individual consumption but looming water scarcity threatens to cut global food production and cause conflict and unrest In this visionary book Fred Pearce takes readers around the world on a tour of the world's rivers to provide our most complete portrait yet of the growing global water crisis and its ramifications for us all With vivid on the ground reporting Pearce deftly weaves together the scientific economic and historic dimensions of the water crisis showing us its complex origins from waste to wrong headed engineering projects to high yield crop varieties that have saved developing countries from starvation but are now emptying their water reserves Pearce argues that the solution to the growing worldwide water shortage is more efficiency and a new water ethic based on managing the water cycle for maximum social benefit rather than narrow self interest

Going Places Robert Burgin, 2013-01-08 Successfully navigate the rich world of travel narratives and identify fiction and nonfiction read alike with this detailed and expertly constructed guide Just as savvy travelers make use of guidebooks to help navigate the hundreds of countries around the globe smart librarians need

a guidebook that makes sense of the world of travel narratives *Going Places A Reader's Guide to Travel Narratives* meets that demand helping librarians assist patrons in finding the nonfiction books that most interest them It will also serve to help users better understand the genre and their own reading interests The book examines the subgenres of the travel narrative genre in its seven chapters categorizing and describing approximately 600 titles according to genres and broad reading interests and identifying hundreds of other fiction and nonfiction titles as read-alikes and related reads by shared key topics The author has also identified award-winning titles and spotlighted further resources on travel lit making this work an ideal guide for readers advisors as well a book general readers will enjoy browsing

Irrigation in Asia in Figures Food and Agriculture Organization of the United Nations, 1999-01-01 This publication is the fourth of a series of reports prepared within the framework of FAO's AQUASTAT programme aimed at presenting a comprehensive picture of water resources development and irrigation with emphasis on developing countries This volume presents the results of surveys performed in the countries of Asia in 1997 and 1998 relying on country-based statistics A general summary presents a synopsis on water resources development irrigation and drainage in the region and country profiles describe the specific situation of each country

When the Rivers Run Dry Fred Pearce, 2006 It was with the Colorado River that engineers first learned to control great rivers But now the Colorado's reservoirs are two-thirds empty Great rivers like the Indus and the Nile the Rio Grande and the Yellow River are running on empty And economists say that by 2025 water scarcity will cut global food production by more than the current U.S. grain harvest Veteran science correspondent Fred Pearce traveled to more than thirty countries while researching *When the Rivers Run Dry* it is our most complete portrait yet of the growing world water crisis Deftly weaving together the complicated scientific economic and historical dimensions of the crisis he shows us its complex origins from waste to wrong-headed engineering projects to high-yield crop varieties that have kept developing countries from starvation but are now emptying their water reserves And Pearce's vivid reportage reveals the personal stories behind failing rivers barren fields desertification water wars floods and even the death of cultures Finally Pearce argues that the solution to the growing worldwide water shortage is not more and bigger dams but greater efficiency and a new water ethic based on managing the water cycle for maximum social benefit rather than narrow self-interest
