Road To Delphi The Life And Afterlife Of Oracles:

The Road to Delphi Michael Wood, 2003 In this lively and engaging work an erudite eloquent and wide ranging examination of oracles is offered by one of the world's most creative literary critics Road to Delphi: The Life and Afterlife of Oracles Michael Wood, 2004-07-01 Cultures of all epochs have consulted oracles in times of need This fascinating exploration of the enduring popularity of oracles examines how they are interpreted and why Taking examples from literature and history from the oracles at Delphi to those in Macbeth and further still to the works of Kafka and Bob Dylan and even in the film The Matrix Wood combines storytelling and commentary to provide a lively account of humanity s persistent faith in signs which continues to exert an important influence on the course of civilization The Road to Delphi Michael Wood, 2004-07 Cultures of all epochs have consulted oracles in times of need This fascinating exploration of the enduring popularity of oracles examines how they are interpreted and why Taking examples from literature and history from the oracles at Delphi to those in Macbeth and further still to the works of Kafka and Bob Dylan and even in the film The Matrix Wood combines storytelling and commentary to provide a lively account of humanity s persistent faith in signs which continues to exert an important influence on the course of civilization **Life Writing and the End of Empire Emma** Parker, 2024-03-21 The dismantlement of the British Empire had a profound impact on many celebrated white Anglophone writers of the twentieth century particularly those who were raised in former British colonial territories and returned to the metropole after the Second World War Formal decolonisation meant that these authors were unable to go home to their colonial childhoods a historical juncture with profound consequences for how they wrote and recorded their own lives Moving beyond previous discussions of imperial and colonial nostalgia Life Writing and the End of Empire is the first critical study of white memoirists and autobiographers who rewrote their memories of empire across numerous life narratives By focussing on these processual homecomings Emma Parker's study asks what it means to be at home in memories of empire whether in the settler farms of Southern Rhodesia or amidst the neon lights of Shanghai's International Settlement These discussions trace the legacies of empire to the habitations and detritus of everyday life from mansions and modest railway huts to empty swimming pools heirlooms and photograph albums Exploring works by Penelope Lively I G Ballard Doris Lessing and Janet Frame this study establishes new connections between authors usually discussed for their fiction and who have been hitherto unrecognised as post imperial life writers Offering close sustained analysis of autobiographies memoirs travel narratives and autofictions and identifying new subgenres such as speculative life writing this book advances rich new readings of autobiographical narrative By tracing the continuing importance of colonialism to white subjectivity the role of imperial memory in Britain and the ways that these unsettling forces move beneath the surface of modern and contemporary literature this study offers new conceptual insights to the fields of life writing and postcolonial studies The Devil's **Tabernacle** Anthony Ossa-Richardson, 2013-07-21 The Devil's Tabernacle is the first book to examine in depth the

intellectual and cultural impact of the oracles of pagan antiquity on modern European thought Anthony Ossa Richardson shows how the study of the oracles influenced and was influenced by some of the most significant developments in early modernity such as the Christian humanist recovery of ancient religion confessional polemics Deist and libertine challenges to religion antiquarianism and early archaeology Romantic historiography and spiritualism Ossa Richardson examines the different views of the oracles since the Renaissance that they were the work of the devil or natural causes or the fraud of priests or finally an organic element of ancient Greek society The range of discussion on the subject as he demonstrates is considerably more complex than has been realized before hundreds of scholars theologians and critics commented on the oracles drawing on a huge variety of intellectual contexts to frame their beliefs In a central chapter Ossa Richardson interrogates the landmark dispute on the oracles between Bernard de Fontenelle and Jean Fran ois Baltus challenging Whiggish assumptions about the mechanics of debate on the cusp of the Enlightenment With erudition and an eye for detail he argues that on both sides of the controversy to speak of the ancient oracles in early modernity was to speak of one s own historical identity as a Christian Mercury's Wings Richard J. A. Talbert, Fred S. Naiden, 2017-04-27 Mercury's Wings Exploring Modes of Communication in the Ancient World is the first ever volume of essays devoted to ancient communications Comparable previous work has been mainly confined to articles on aspects of communication in the Roman empire This set of 18 essays with an introduction by the co editors marks a milestone therefore that demonstrates the importance and rich further potential of the topic The authors who include art historians Assyriologists Classicists and Egyptologists take the broad view of communications as a vehicle not just for the transmission of information but also for the conduct of religion commerce and culture Encompassed within this scope are varied purposes of communication such as propaganda and celebration as well as profit and administration Each essay deals with a communications network or with a means or type of communication or with the special features of religious communication or communication in and among large empires The spatial temporal and cultural boundaries of the volume take in the Near East as well as Greece and Rome and cover a period of some 2 000 years beginning in the second millennium BCE and ending with the spread of Christianity during the last centuries of the Roman Empire in the West In all about one quarter of the essays deal with the Near East one quarter with Greece one quarter with Greece and Rome together and one quarter with the Roman empire and its Persian and Indian rivals Some essays concern topics in cultural history such as Greek music and Roman art some concern economic history in both Mesopotamia and Rome and some concern traditional historical topics such as diplomacy and war in the Mediterranean world Each essay draws on recent work in the theory of communications **Kierkegaard and Climate Catastrophe** Isak Winkel Holm, 2023 This volume argues for the relevance of Kierkegaard's employment of the prophetic noir modelled after the prophetic books of the Hebrew Bible to understanding how to live in a time of climate change Classics and Media Theory Pantelis Michelakis, 2020 Introducing a largely neglected area of existing interactions

between Greco Roman antiquity and media theory this volume brings together a range of interdisciplinary studies to address the question of why interactions in this area matter and how they might be developed further Freudian Mythologies Rachel Bowlby, 2007-02-22 Rachel Bowlby suggests that with the multiplication of sexual roles family forms and reproductive technologies Freud's Oedipus complex may have lost its relevance This book takes two Freudian routes to think about some of the entanglements of identity Antiquity and the Meanings of Time Duncan F. Kennedy, 2013-05-30 Society and contemporary culture seem forever fascinated by the topic of time In modern fiction Ian McEwan The Child in Time and Martin Amis Time s Arrow have led the way in exploring the human condition in relation to past present and future In cinema several cultural texts Memento Minority Report The Hours have similarly reflected a preoccupation with temporality and human experience And in the sphere of politics debates about the end of history prompted by Francis Fukuyama indicate that how we live is deeply determined by our relationship not only to place but also to the passing of time But what did the ancients think about time Is our interest in chronology a relatively recent phenomenon Or does it go further back In his major new work Duncan Kennedy indicates that our own fascination with time reckoning is by no means unique Discussing a number of key texts such as Homer's Odyssey Sophocles Oedipus Rex Virgil's Aeneid and Ovid's Metamophoses and imaginatively setting these side by side with modern works such as Sterne's Tristram Shandy and Joyce's Ulysses he shows that from era to era and in different ways human beings have uniformly striven to understand the unfolding of history and their relationship to it This sophisticated cross disciplinary book will appeal not only to classicists but also to scholars and students in the humanities more broadly as well as beyond Ancient Historiography on War and Empire Timothy Howe, Sabine Müller, Richard Stoneman, 2016-11-30 In the ancient Greek speaking world writing about the past meant balancing the reporting of facts with shaping and guiding the political interests and behaviours of the present Ancient Historiography on War and Empire shows the ways in which the literary genre of writing history developed to guide empires through their wars Taking key events from the Achaemenid Persian Athenian Macedonian and Roman empires the 17 essays collected here analyse the way events and the accounts of those events interact Subjects include how Greek historians assign nearly divine honours to the Persian King the role of the tomb cult of Cyrus the Founder in historical narratives of conquest and empire from Herodotus to the Alexander historians warfare and financial innovation in the age of Philip II and his son Alexander the Great the murders of Philip II his last and seventh wife Kleopatra and her guardian Attalos Alexander the Great's combat use of eagle symbolism and divination Plutarch's juxtaposition of character in the Alexander Caesar pairing as a commentary on political legitimacy and military prowess and Roman Imperial historians using historical examples of good and bad rule to make meaningful challenges to current Roman authority In some cases the balance shifts more towards the literary and in others more towards the historical but what all of the essays have in common is both a critical attention to the genre and context of history writing in the ancient world and its focus on war and empire Cassandra and the Poetics

of Prophecy in Greek and Latin Literature Emily J. Pillinger, 2019-04-11 Using insights from translation theory this book uncovers the value of female prophets riddling prophecies in Greek and Latin poetry *Tourist Experience and Fulfilment* Sebastian Filep, Philip Pearce, 2013-07-31 What makes life worth living Many people would argue that it is fulfilling experiences These experiences are characterised by feelings of joy and pleasure positive relationships and a sense of engagement meaning and achievement Tourism is arguably one of the largest self initiated commercial interventions to promote well being and happiness on the global scale but yet there is absence in the literature on the topic of fulfilling tourist experiences from psychological perspectives Drawing on insights and theories from the research field of positive psychology the study of well being this is the first edited book to evaluate tourist experiences from positive psychology perspectives The volume addresses the important topic of fulfilment through the lens of the world's largest social global phenomenon tourism In doing so the book refreshes and challenges some aspects of tourist behaviour research The chapters are grouped under three broad sections which reflect a range of positive psychological outcomes that personal holiday experiences can produce namely happiness and humour meaning and self actualisation and health and restoration The book critically explores these fulfilling experiences from interdisciplinary perspectives and includes research studies from wide range of geographical regions By analysing the contemporary fulfilling tourist experiences the book will provide further understanding of tourist behaviour and experience Written by leading academics this significant volume will appeal to those interested in Tourism and Untold Futures J. K. Barret, 2016-08-30 In Untold Futures J K Barret locates models for recovering Positive Psychology the variety of futures imagined within some of our most foundational literature These poems plays and prose fictions reveal how Renaissance writers embraced uncertain potential to think about their own present moment and their own place in time The history of the future that Barret reconstructs looks beyond futures implicitly dismissed as impossible or aftertimes defined by inevitability and fixed perspective Chapters on Philip Sidney's Old Arcadia Edmund Spenser's The Faerie Queene William Shakespeare's Titus Andronicus Antony and Cleopatra and Cymbeline and John Milton's Paradise Lost trace instead a persistent interest in an indeterminate earthly future evident in literary constructions that foreground anticipation and expectation Barret argues that the temporal perspectives embedded in these literary texts unsettle some of our most familiar points of reference for the period by highlighting an emerging cultural self consciousness capable of registering earthly futures predicated on the continued sameness of time rather than radical ruptures in it Rather than mapping a particular future these writers generate imaginative access to a range of futures Barret makes a strong case for the role of language itself in emerging conceptualizations of temporality Numbers Don't Lie Santiago Colás, Yago Colás, 2020-11 Numbers Don t Lie gives readers a multilayered understanding of basketball analytics on its own terms describes the historical and contemporary conditions in basketball culture science and society that have facilitated the rise of basketball analytics and shows the varying impact of basketball analytics Henry James and the Promise of Fiction Stuart Burrows, 2023-11 What is

the relation between the novel and ethical thought Henry James and the Promise of Fiction argues that the answer to this question lies not in the content of a work of fiction but in its form Stuart Burrows explores the relationship between James s ethical vision and his densely metaphorical style his experiments with narrative time and his radical reimagining of perspective Each chapter takes as its starting point a different aspect of an issue at the heart of moral philosophy the act of promising Engaging with a range of moral philosophers and literary theorists most notably David Hume Friedrich Nietzsche Paul Ricoeur and Jacques Derrida Henry James and the Promise of Fiction argues that James s formal experimentation represents a significant contribution to ethical thought in its own right Inheritance in Nineteenth-century French Culture AndrewJ. Counter, 2017-07-05 The transmission of wealth between generations was not only a narrative commonplace in nineteenth century France but also a topic of considerable cultural anxiety and intense political debate In this study Andrew I Counter draws on a wealth of previously unexplored material to show how the theme of inheritance in literature and beyond acquired ethical historical and ideological connotations and was vital to nineteenth century French conceptions of the family and of the legacy of the Revolution Weaving together fiction drama legal texts historiographical thought and political writing Inheritance in Nineteenth Century French Culture teases out a complex leitmotiv that gives us a new understanding of nineteenth century Frances sense of its own place in history It also proposes innovative readings of writers as familiar as Honore de Balzac George Sand Guy de Maupassant and Emile Zola while drawing attention to a range of neglected authors The Waste Land After One Hundred Years Steven Matthews, 2022 An exploration of the legacy of The Waste and works Land on the centenary of its original publication looking at the impact it had had upon criticism and new poetries across one hundred years T S Eliot first published his long poem The Waste Land in 1922 The revolutionary nature of the work was immediately recognised and it has subsequently been acknowledged as one of the most influential poems of the twentieth century and as crucial for the understanding of modernism The essays in this collection variously reflect on The Waste Land one hundred years after its original publication At this centenary moment the contributors both celebrate the richness of the work its sounds and rare use of language and also consider the poem's legacy in Britain Ireland and India The work here by an international team of writers from the UK North America and India deploys a range of approaches Some contributors seek to re read the poem itself in fresh and original ways others resist the established drift of previous scholarship on the poem and present new understandings of the process of its development through its drafts or as an orchestration on the page Several contributors question received wisdom about the poem s immediate legacy in the decade after publication and about the impact that it has had upon criticism and new poetries across the first century of its existence An Introduction to the volume contextualises the poem itself and the background to the essays All pieces set out to review the nature of our understanding of the poem and to bring fresh eyes to its brilliance one hundred years on Contributors Rebecca Beasley Rosinka Chaudhuri William Davies Hugh Haughton Marjorie Perloff Andrew Michael Roberts Peter Robinson Michael Wood
